Sweet September Cherry

New Fall Bearing Cherry

U. S. PLANT PATENT No. 94

Big sensation in horticulture—novelty of a lifetime. Ripens September first and hangs until the snow flies. Starts bearing the second season after planting and produces heavy annual crops thereafter; will be grown commercially as soon as stock is available. Just imagine going out in your dooryard and picking and eating sweet Cherries in the fall of the year!

Fruit is medium to large, red in color; unsurpassed as to quality, delicious for eating raw and a good canner. Don't let your neighbor get ahead of you—be the first in your community to get started with one or more of these trees.

PRICE:	Each	10	25
1-yr., 3-4 ft. trees	\$1.50	\$14.50	\$35.00

Price is net, not subject to any cash discount.

See page 27 for further description

Cultivated Blueberries

Sensation of a Lifetime

Note Actual Photograph to the Left.

As an ornamental shrub the Blueberry cannot be surpassed, are full of pink buds which open into bell-shaped white flowers starting in June; leaves change in color from green to red late in the fall, making a beautiful bush for ornamental planting. Will grow to a height of six to eight feet. Four bushes in your front or back yard will also furnish you with Blueberry pie throughout the season.

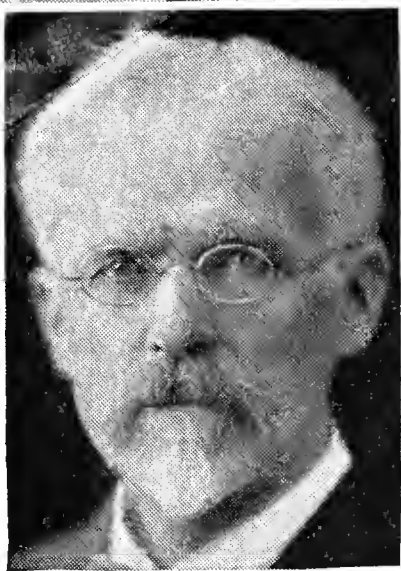

It is profitable to plant Blueberries on a large scale. Farmers who have them are getting rich—\$400.00 per acre the third year!

PRICE FOR:	2	4	10	25
1-year plants	\$1.10	\$2.00	\$4.50	\$10.00
2-year plants	1.30	2.40	5.50	12.50
3-year plants	2.00	3.60	8.00	18.00

See page 27 for varieties and further description and prices.

A COMPLETE LINE OF NURSERY STOCK DIRECT TO GROWER

WHITTEN-ACKERMAN
Nurseries
 1938.
 Bridgman, Michigan

35 years of experiments and efforts by Prof. N. E. Hansen, S. Dakota State College, originator of the Anoka Apple and many other fine fruits, produced this new quick-bearing bush-Cherry, which is one of the finest. Our stock of the Cherries was secured direct from the originator, Prof. N. E. Hansen.

HANSEN'S

Bush Cherry

This new Bush Cherry combines two useful qualities—both in one plant. You can now have a beautiful ornamental hedge, single specimens or a group planting, which also produces delicious, wholesome fruit. Hansen's New Bush Cherry is beautiful and outstanding during the entire growing season, as to foliage, flowers and form. In the early spring, this dwarf, symmetrical bush is a mass of beautiful snow-white flowers, covering the entire bush.

This shrub grows rapidly and fruits quickly in any soil. Withstands heat, drought or cold. Requires very little room, and often bears more fruit than a Plum tree. Can be planted as closely as 4x6 feet. Grows only 4 to 5 feet high—3 to 4-foot spread.

The foliage, which is beautifully silvery-green, turns to rich red and gold in the fall. This Bush Cherry is beautiful even without flowers.

Fruit as large as any sweet Cherry, but plum-shaped. Good flavor and is delicious to eat from the bush; fine in sauce, superb in jam; splendid for jelly.

CERTIFICATE OF NURSERY INSPECTION
Michigan State Department of Agriculture

Orchard and Nursery Inspection, No. 130

This is to certify that the Nursery Stock of the Whitten-Ackerman Nurseries, Bridgman, Mich., has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant disease. Fee paid \$26.00.

Lansing, Michigan, August 26, 1937. John B. Strange, Commissioner. Bureau of Agricultural Industry, Lawrence O'Neill, Director. E. C. Mandenberg, in charge of Orchard and Nursery Inspection.

Big Gift Planting of Hansen Bush Cherry

Free with Early Cash Orders

To every customer who sends us an order before April 1st, 1938, accompanied by cash in full at regular catalog rates, not bargains or special quotations, and who in addition sends us the names and addresses of four fruit growers, or purchasers of nursery stock, we will send absolutely free the following number of Hansen's Bush Cherry.

- 1 Hansen's Bush Cherry (priced at 30c) free with cash orders between \$1.00 and \$2.00.
- 3 Hansen's Bush Cherry (priced at 80c) free with cash orders between \$2.00 and \$5.00.
- 5 Hansen's Bush Cherry (priced at \$1.25) free with cash orders between \$5.00 and \$10.00.
- 8 Hansen's Bush Cherry (priced at \$1.65) free with cash orders between \$10.00 and \$15.00.
- 12 Hansen's Bush Cherry (priced at \$2.50) free with cash orders amounting to \$20.00 or more.

Be sure to send the four names and addresses with your order. (Use space provided on back of order sheet). The gift positively will not be sent unless customer complies with this condition. This offer open until April 1st, 1938, only. Our supply of Hansen's Bush Cherry is too limited to make this offer effective after April 1st. On all cash orders received after April 1st, when accompanied by four names referred to, we will include the Hansen's Bush Cherry if still available; but if not, we will include additional nursery stock of our own selection as to variety and value.

No special bargain collections are included in this free plant offer. Nor cash orders where a special reduced price has been quoted.

PLANT THESE HANSEN IMPROVED BUSH CHERRIES BECAUSE:

1. Easy to grow and perfectly hardy.
2. Good to eat, and make delicious preserves.
3. Bear early, heavily, and annually.
4. Are dwarf-growing and bushy.
5. Excellent for hedges or ornamental shrubs.

PRICE Sturdy, 10 to 18-inch Bushes, 30c each; 3 for 80c; 5 for \$1.25.

We Grow because we give you Big Values

100,000 Satisfied Customers—In Every State in the Union Plant Our Hardy Stock—the Reasons are Simple

100,000
Satisfied
CUSTOMERS
Can not
be Wrong

So many customers cannot be wrong—they buy from us year after year, but they know our stock can be depended upon. Here are some of the reasons:

We sell only the best hardy, Northern grown stock at lowest possible prices.

We promise a fair and square deal to everyone—and make good our promise.

We ship stock subject to examination before payment.

WHY Can We Sell Such Fine Stock at Such Low Prices?

BECAUSE—

We sell direct from our catalog only—you have no agents' commission to pay.

We do not spend thousands of dollars on colored pictures in our catalog. We pass that saving on to you.

We purchase no large advertising space—we depend largely upon our friends and customers to advertise our stock.

To those that are receiving our catalog for the first time, you will find that this is a bargain book which is made especially for farmers, home-owners, fruit growers and gardeners; giving them a choice to buy direct from a nursery at wholesale prices.

We wish to make clear that all stock in these bargains is the same high quality stock offered at regular catalog prices. By placing your order with us, you will be sure of receiving plants, trees, etc., that are first class, and up to grade in every respect.

We have been growers for over fifty years, and have farms with the best of soil, tractors, trucks, packing houses, and everything necessary to grow and pack nursery stock, making the handling charge much cheaper; all of these savings are passed on to our customers—we work on a very small margin of profit.

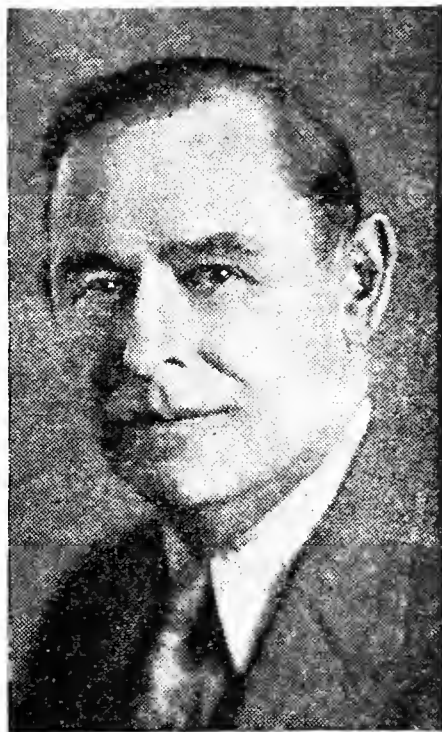

We also wish to sincerely thank all of our old customers for their continued patronage, for we realize the bulk of our new business comes from unsolicited patrons recommended by our satisfied customers. This shows confidence in the Whitten-Ackerman Nurseries, on which we base our hope of future business.

For your protection, buy direct from our nurseries and be assured of a nice lot of stock and a square deal in every way.

We are expert licensed growers and members of The American Association of Nurserymen—the best reference you can have.

R. C. Whitten

R. W. Ackerman

We Aim to Tell You the Truth—We Are Farmers, Too, and Don't Try to Sell You Any Varieties We Ourselves Would Not Plant

No Cash Payment Before Shipment

You Examine Stock Before You Pay.
This offer applies only on orders amounting to \$3.00 or more, for shipment on or before April 25th, 1938.

We were the first nursery in this section of the country to adopt this unique selling plan, whereby it is possible for customers to

Make out your order at full prices listed on catalog, and instruct us to ship C.O.D. Express or Parcel Post, subject to your examination by Express only, as the postal authorities do not permit examination of parcel post shipments.

Look over the shipment and see for yourself whether the stock is in good condition. If shipment is satisfactory, pay your express agent the amount due and the plants are yours—still covered by our guarantee. What could be more fair? We simply must furnish good nursery stock or we couldn't possibly afford to make this offer.

We would advise all small shipments sent by mail, and will send your order by Parcel Post C.O.D. for purchase price, plus postage, if you prefer. All such shipments are fully covered by our guarantee.

NOTICE: The above offer does not apply on orders amounting to less than \$3.00; on Special Bargain Collections; Special Quoted Prices; nor on any orders specifying shipment later than April 25th, 1938. Cash in full must accompany all orders under \$3.00, or those calling for shipment later than April 25th; but on such orders customers will be entitled to our cash discounts from regular catalog rates, as explained at the right. **WE GUARANTEE SAFE ARRIVAL OF ALL SHIPMENTS MADE ON OR BEFORE MAY 25TH, 1938.**

Order Early and Make a Big Saving

20% DISCOUNT on All Cash Orders received before February 10th, 1938.

15% DISCOUNT on All Cash Orders received from February 10th to March 5th, 1938.

10% DISCOUNT on All Cash Orders received during the balance of season of 1938.

To those who wish to send all cash with order, we offer these special cash discounts from our regular printed prices (except on bargain offers and special quotations), applying on orders received for shipment any time during 1938. Order must be accompanied by cash in full to secure the benefit of these discounts. This is your opportunity to effect a material cash saving, especially on larger orders. Remember, we guarantee safe arrival of shipments made on or before May 25th, 1938. You take no chance whatever. You may deduct the amount of the discount from your order, or include more stock for the amount.

Beats All Others!

It is our belief that there never has been and probably never will be another Everbearing Strawberry that even approaches Gem in the qualities that make for perfection. In our opinion Gem is destined to become the most widely grown Everbearing Strawberry in America.

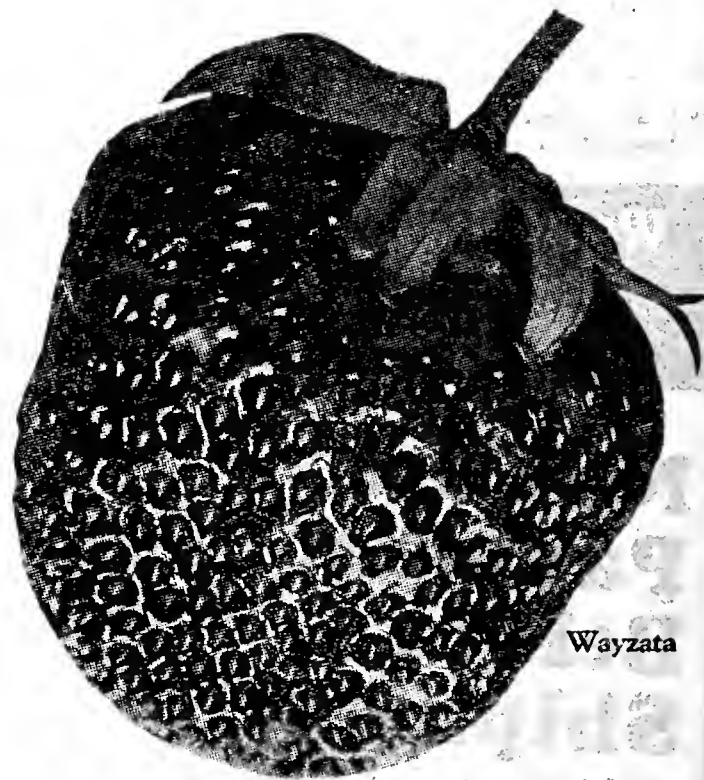

Cash in the First Year with WHITTEN-ACKERMAN GEM secured direct from the originator, Mr. Frank Keplinger. Discovered by him on his farm in North Central Michigan. Here's the berry you've been looking for! It's the biggest sensation in years.

Big Profits—2 Crops a Year. Plant this spring—pick all summer—you'll get back the price paid for the plants—and MOST IMPORTANT—A BIG PROFIT BESIDES. You'll harvest another fine crop the following June—two crops in one year. It's a wonderful plant maker. Makes a good row on any soil.

Berries are extra large, no small ones to bother with. Very firm, bright red all the way through. Ripen evenly, no green tips, and the flavor is the best you've ever tasted. Since the introduction of Mastodon, Gem is the only variety which surpasses it in all respects.

WAYZATA

duce more than three or four runners to a plant. A decided advantage to the grower, as he does not have to remove first blossoms or runners. Each rooted crown set out this spring starts multiplying new crowns at once, until it has up to 20 or 25 crowns to a plant. It has ripe berries fully a month ahead of other Everbearers. These plants are not affected by wet weather which usually ruins Everbearers by hindering pollenization.

Wayzata

We might call it a real "Hill Berry" for the reason that it does not pro-

Berries are extremely large, very dark red, delicious sugary flavor. Heavy producers, continuing to bear long after other Everbearers have been stopped by frosts. Try some this year, and we know you will be back next year with a large order for Wayzata.

which are loaded with large, perfectly shaped, bright red berries. Has come through most unfavorable weather conditions with a very satisfactory yield of fine fruit that brought excellent prices on the market. Do not fail to give this wonderful Everbearing variety a trial.

This new variety has been tried in Minnesota for a number of years, and proved entirely hardy. Has attractive, large, thrifty plants,

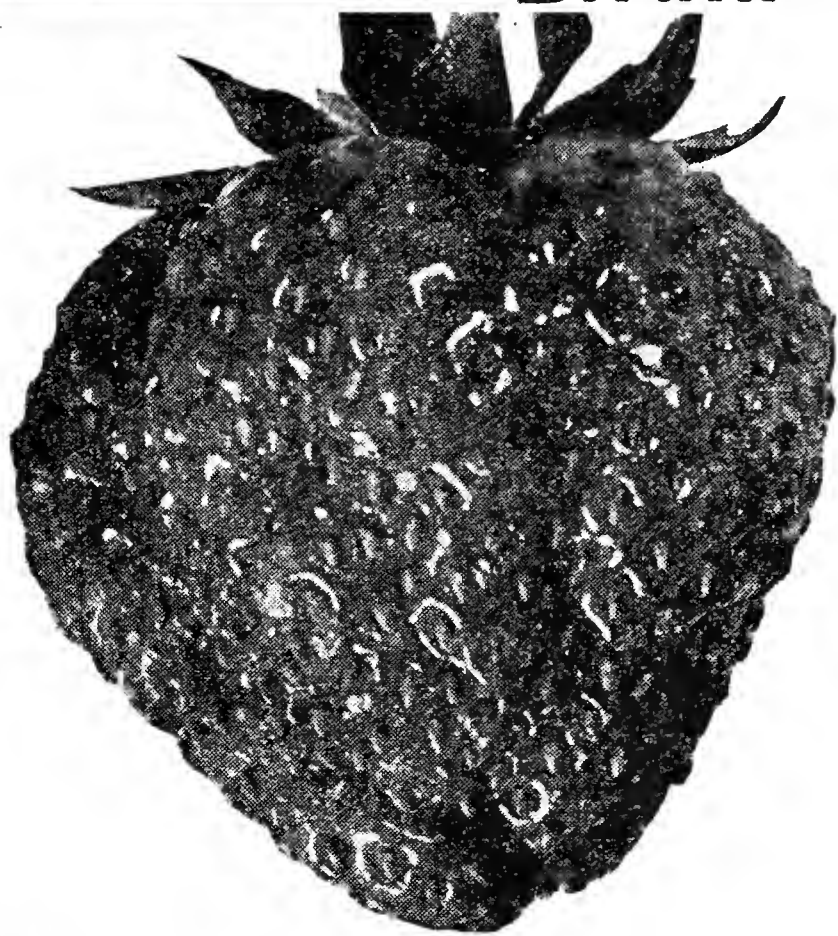

MASTODON

The Original
Strain

10 Good Reasons Why WHITTEN-ACKERMAN MASTODON PLANTS Are Better

1. There is only one true Mastodon—the Introducer's original strain. We have it.
2. One of the largest everbearers grown.
3. Bears three crops from one planting.
4. Produces full crop in late autumn, when other kinds are out of season.
5. Grown easily with no special soil or culture.
6. Berries of large, uniform size from beginning to end of season.
7. Fruits continuously until freezing weather.
8. Withstands dry weather.
9. Bears full crop next spring after planting.
10. First ripe berries ninety days after planting.

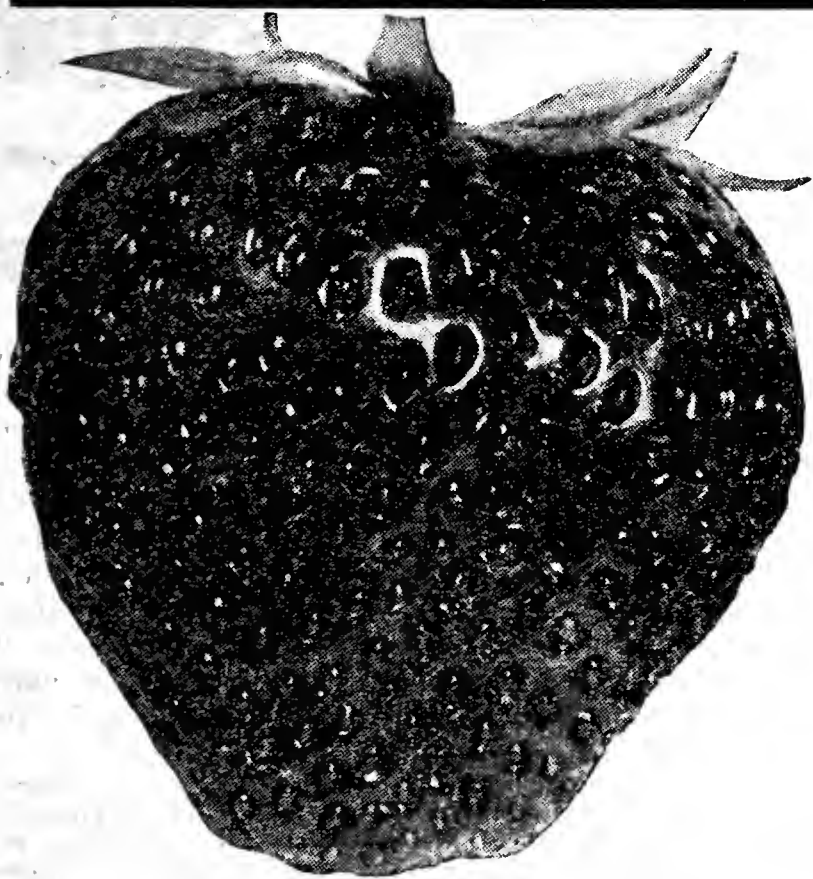

EVERY MASTODON PLANT SOLD BY US bears our guarantee of genuineness and satisfaction. Do not be misled into paying fancy prices for this variety, but let us reserve yours now at one of the lowest prices available for true-to-name stock.

**Ripe Strawberries
90 Days after planting**

All summer — all fall—all next
year — all from one planting.

GRAND CHAMPION!

3 Outstanding Features Why You Should Plant this New Variety

1. **NO CROP FAILURES ON ACCOUNT OF SPRING FROSTS.** Plants are very large with extra heavy foliage which protects the blooms from freezing in the spring. Never has a crop failure due to this protection.
2. **OFTEN CALLED 40-DAY FRUITING BERRY.** Lasts over this period on account of its continual blooming. Starts to ripen with the earliest and bears throughout the whole Strawberry season; ends up with the latest varieties.
3. **5,000 QUARTS ON ONE-HALF ACRE.** One of the heaviest producers. We have counted as high as 90 berries on one plant. From one to two hundred plants in your garden will produce enough fruit for you and your neighbors.

Berries are large in size, bright red and coreless; excellent flavor and of highest quality.

Commercial growers are now planting this variety in a big way.

OUR SOURCE OF SUPPLY

This variety originated in New Albany, Indiana. Our plants are propagated from the original strain; you are therefore assured of the genuine Grand Champion when buying from us.

Introducing Two New Varieties

The **BEST EARLY**
The **BEST LATE**

NEET

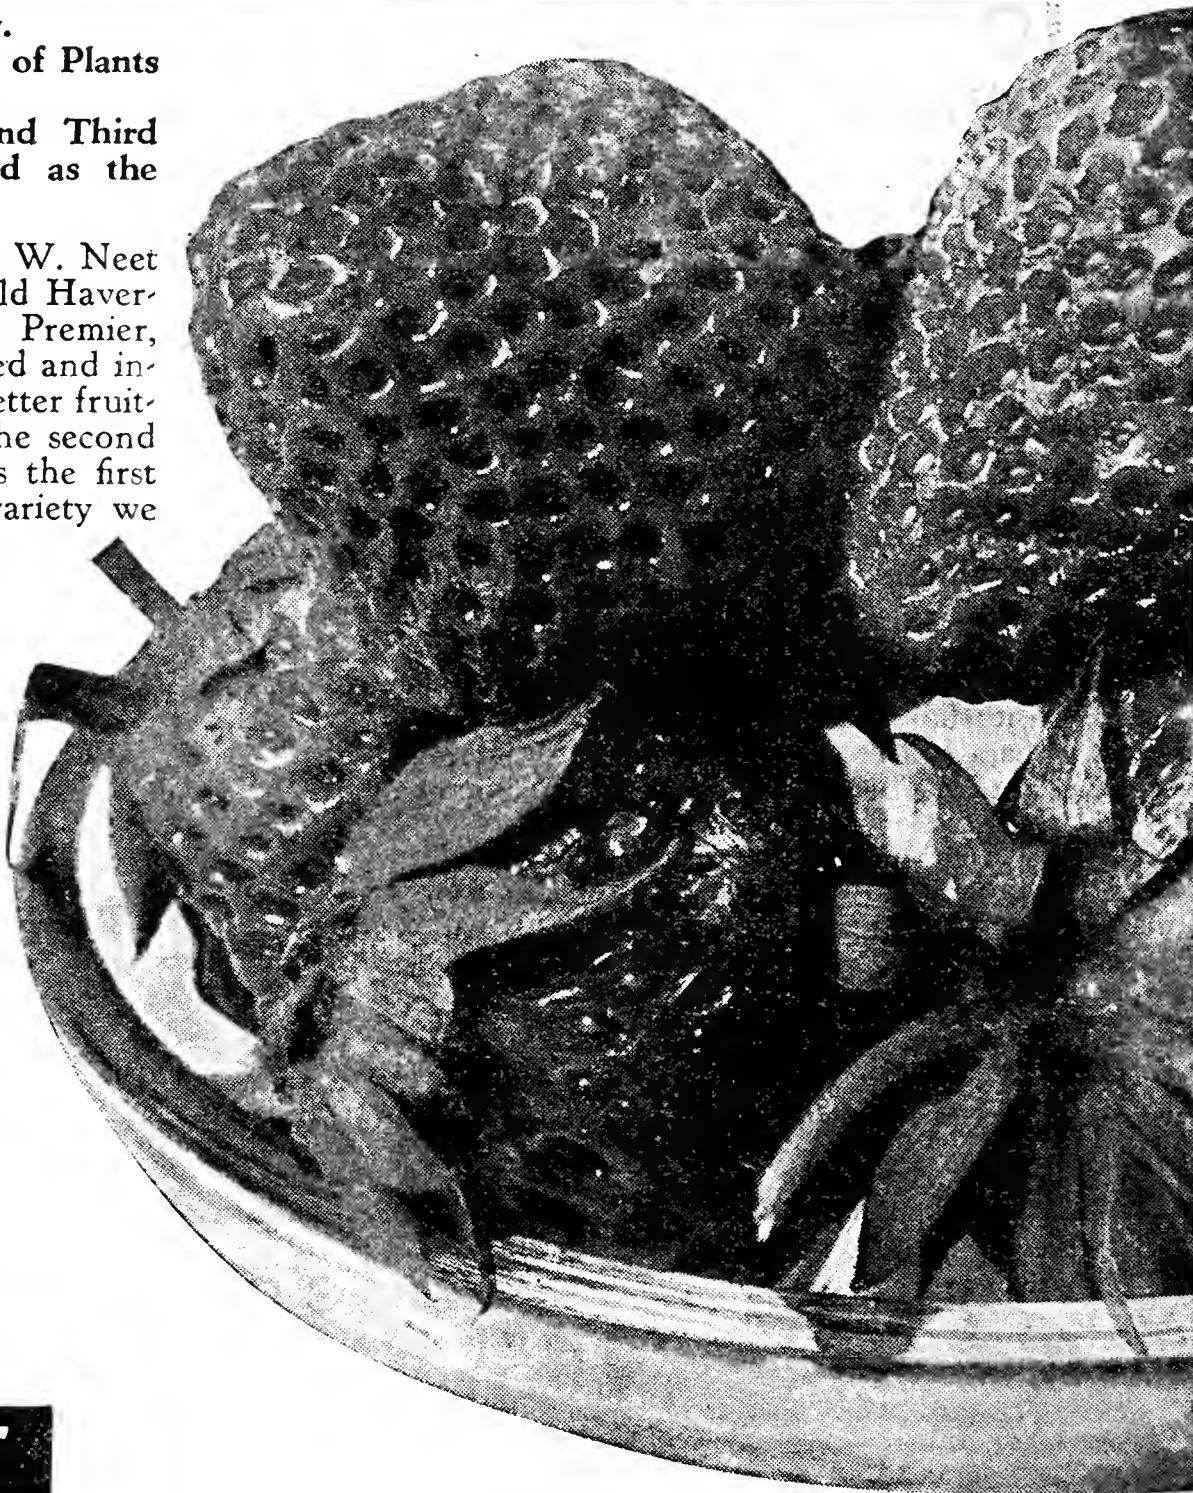

—The Best Early.
Your First Crop of Plants
is the last!
The Second and Third
crop as good as the
first!

This variety was originated by George W. Neet of Dana, Indiana. Is a seedling of the old Haverland and Premier; closely resembles the Premier, but is much hardier, larger, better flavored and invariably produces more fruit, and has a better fruiting stem. It also produces a fine crop the second and third year, which is just as good as the first crop—a trait not found in any other variety we have grown; you do not have to replace your planting every other year as your patch gets better from year to year, whereas most varieties are not picked more than one to two years, after which the patch is plowed under.

Berries are extra large, having produced fruit that averages $2\frac{1}{4}$ inches long by $1\frac{3}{4}$ inches in diameter, and it retains its large size throughout the picking season—the last berries being as large as the first. Fruit is dark, glossy red, not quite as dark as Premier, but glossier; red clear through and no white tips. Berries are uniform in shape, no miss-shaped fruit in this variety. They are the most perfect heart-shaped berries we have ever seen. Very sweet flavor, much sweeter than Premier. Ripens early. Not soft but very firm and a good shipper.

Very hardy. Makes a vigorous plant growth on most any soil. Very disease-resistant; in the seven years of testing this variety, we absolutely have not found a disease of any kind.

The originator of the Neet strawberry sent us plants for testing seven years ago; we have tested it over this period and are thoroughly convinced that it is the most outstanding Strawberry ever introduced.

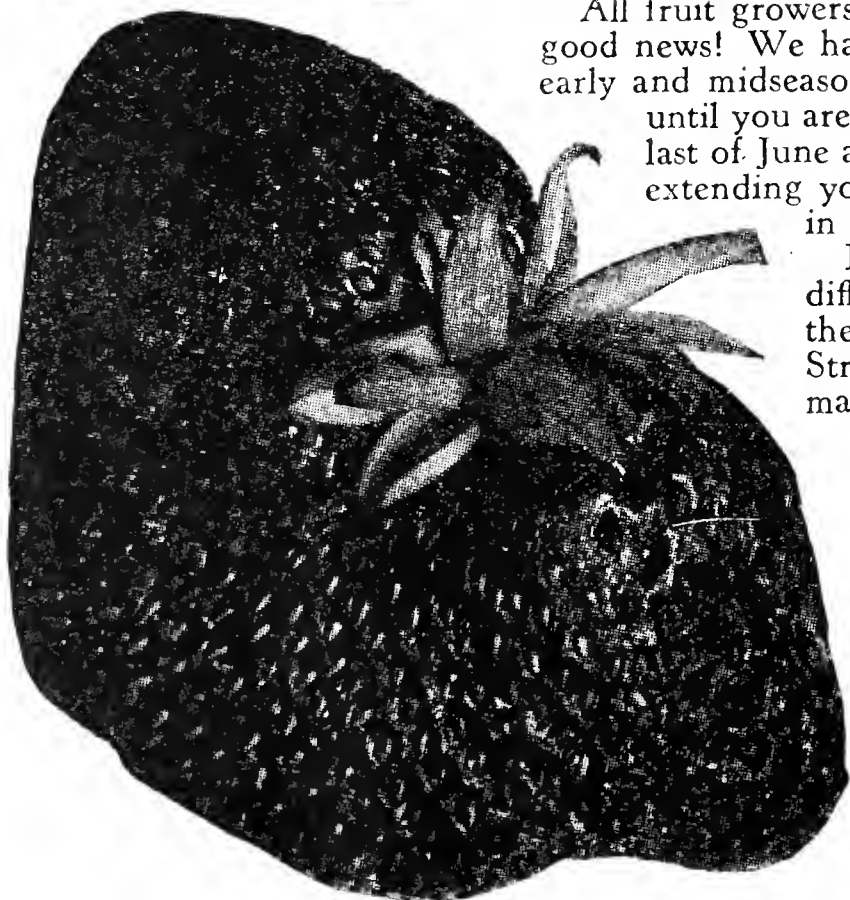

LATE GIANT

All fruit growers have been looking for a real good late berry for years. Here's good news! We have found it at last. As good as Premier, Dorsett, Fairfax, or all early and midseason leading varieties, and so late that it doesn't begin to blossom until you are picking the other kinds; your main crop will be well towards the last of June and continues through the first week of July. Think of it, a berry extending your fruiting season of strawberries over a much longer period—in fact, there is no waiting between Strawberries and Raspberries.

Late Giant originated in New Concord, Ohio, and is altogether different than other so-called late varieties. Berries are dark red all the way through, are honeysweet and have the flavor of a wild Strawberry. All around berry for small gardens, road-stands, or market purposes.

Every fruit grower should set at least a substantial portion of his planting to this new late kind because of the following reasons: (1) Is Giant in size; (2) Ripens late to real late; (3) Will make a good fruiting row on any soil; (4) Berry is firm and hard, of extra good quality, and (5) Heavy cropper—300 to 500 crates per acre. **ORDER EARLY—OUR SUPPLY OF PLANTS IS LIMITED.**

New Varieties

Ambrosia

The Ambrosia strawberry was originated in Wisconsin. This variety is considered to be one of the largest ever introduced. Produces very

large, vigorous plants, which often grow 18 inches tall. The fruit stems are very rigid and often attain a height of six to eight inches; thus the berries develop in the shade of the leaves and also off the ground, which means clean fruit. Furthermore, the blossoms are protected from the last spring frosts, making them perfectly hardy. Berries are very large, semi-pointed, rich, sparkling, bright red. Delicious sweet flavor. Firm flesh and skin.

Ambrosia ripens a month later than Premier—when other Strawberry berries are gone. Matures every

berry to full size. It is self-pollenizing, extremely hardy, and does well on practically any soil or under any climatic conditions. Remember, it ripens when practically all other June bearing varieties are gone, commanding a premium price and a ready market for every berry you can raise. Be one of the first to grow this fine late berry in your town!

This is a new variety from Japan. Fugiema has a record of being the largest Strawberry grown; one grower claims he found 14 berries that filled a quart box, one berry of which measured $7\frac{1}{2}$ inches around, $2\frac{3}{4}$ inches across, and weighed $1\frac{3}{4}$ ozs. We are very much impressed by its fine strong growth, productiveness, quality and flavor. Ripens mid-season. Owing to its large size, it has been named after the largest mountain in Japan.

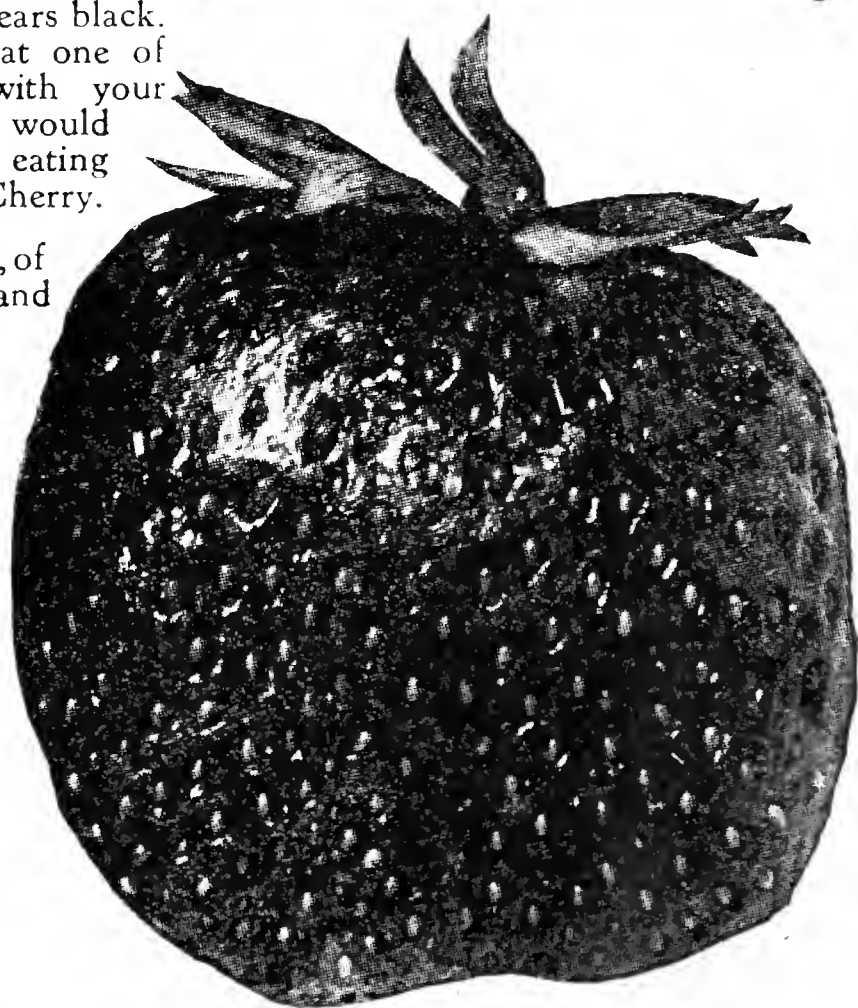

Fugiema

Berries are round, bright red in color and enticingly rich in flavor. Self-pollenizing. Plant Fugiema this spring and surprise your friends with a real Super-Giant Strawberry.

Here is a berry which is unique as to coloring and very distinctive as to flavor. This variety is so deep red, it appears black. Were you to eat one of these berries with your eyes closed you would think you were eating a black sweet Cherry.

Ripens midseason, of very fine quality, and an excellent canning variety, and very productive. Be one of the first to have this berry in your garden.

Black Strawberry

Jumbo

A Real Elephant in Size. Very large, deliciously sweet, fine flavor. Bright red. Firm, ships well. Good plant maker. So drought resistant it has come through some of the driest seasons without losing a plant. Heavy foliage—not subject to leaf spot. Ripens mid-season.

EARLY, MEDIUM and LATE *A Fine Combination*

Dorsett Early

Developed by the U. S. Department of Agriculture. Berries are very firm, firmer than Premier, and are a beautiful light red in color. They hold this color well, and for this reason, together with their attractive shape and extra fine quality, will undoubtedly become the leading commercial variety. Commercial growers who have tested all kinds say that if they were limited to one variety, Dorsett would be their choice. Large, beautiful bright-red berries of the finest flavor. Very productive. Vigorous and healthy plant maker. Early as Premier. Very frost resistant.

Fairfax Medium

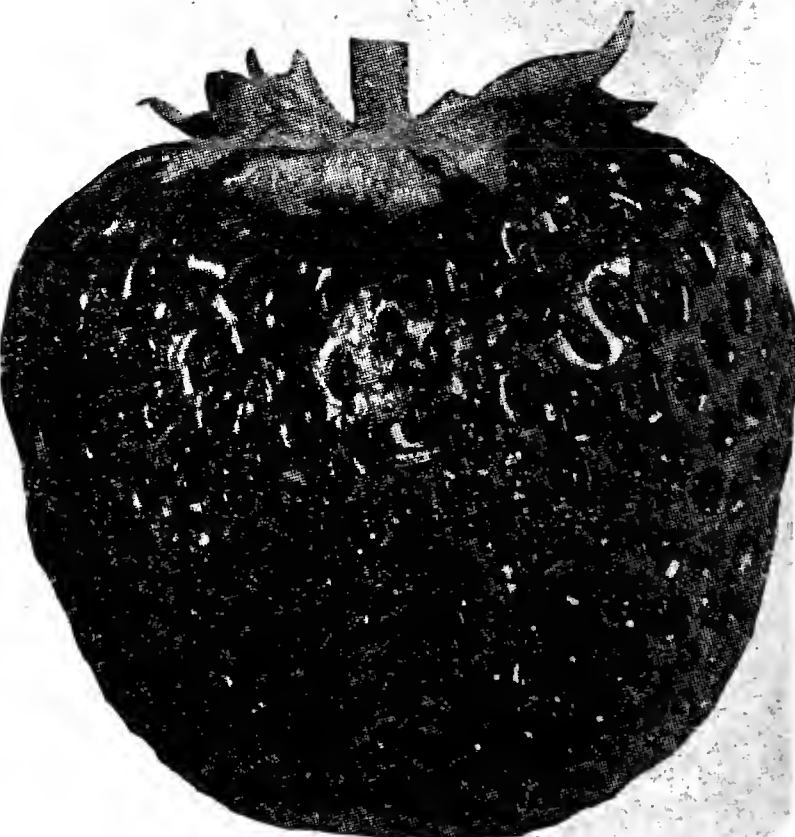

This variety is also an origination of the U. S. Department of Agriculture. Berries are exceptionally firm. They are a bright red when picked at the proper time; can be left on the vines for several days without picking and still be of good quality, solid and firm. If this is done, berries will be somewhat darker in color, which may be a disadvantage on the market, making Fairfax more of a home market and garden variety. However, some markets prefer a darker berry, especially when of such fine quality as Fairfax.

Fairfax ripens several days after Dorsett and Premier, darker red in color. Flavor of the finest, coupled with the vigorous, healthy and productive growing habits, and the large, beautiful berries, undoubtedly makes this one of the leading midseason Strawberries.

Catskill Late

This variety was introduced by the New York Experiment Station. It is a cross between Premier and Marshall and has been known to outyield the famous Dorsett and

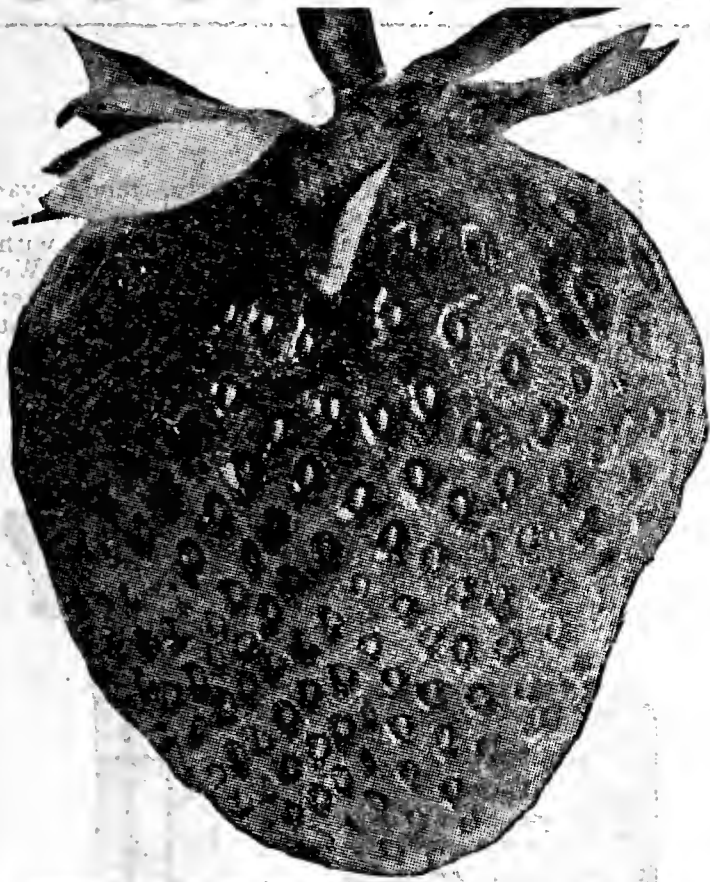

Fairfax. Makes a fine, vigorous plant growth; fruit stems are thick and grow upright, leaves are exceptionally large. Late ripening. Good quality berries average about the size of Fairfax, and hold their size well to the end of the picking season. This splendid variety was awarded a medal by the Massachusetts Horticulture Society in Boston even before it was named.

Old Favorites =

Premier

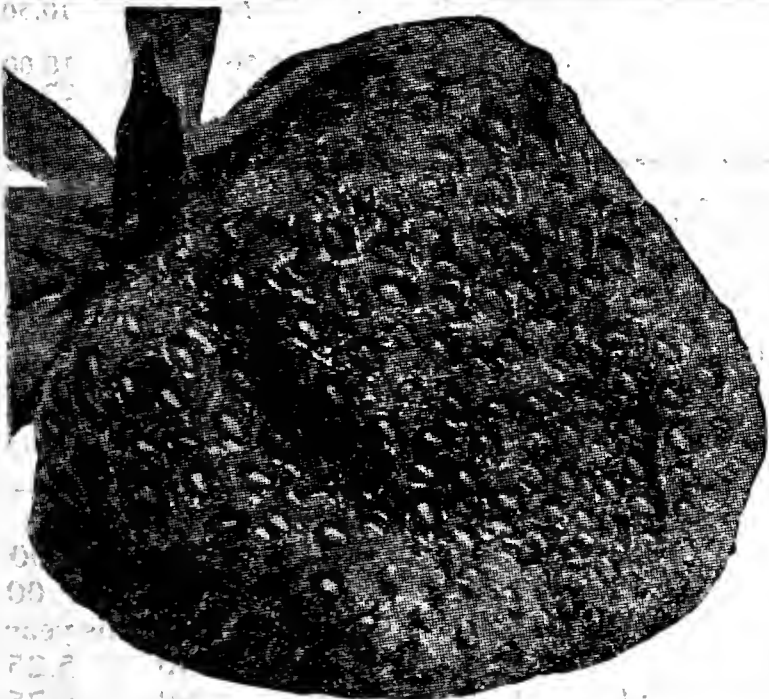

Still the Leading Early Berry. A standard of excellence with all growers, and the earliest worth-while Strawberry of the older varieties. A great money-maker, for it yields its fruit crop at a time when Strawberries are in great demand and sell at fancy prices. Premier is as nearly frost-proof as any Strawberry can be. It is unusually healthy, being free from leaf spot and other disease. Its deep, heavy roots enable it to withstand dry weather and mature a full crop of big berries when many varieties are a complete failure. Large, bright red, firm berries, of fine texture and flavor.

PREMIER plants are from the original, heavy fruiting strain, bearing our true-to-name guarantee.

SENATOR DUNLAP

This is one of the oldest varieties commonly planted today and never for a single season since its first appearance years ago, has it lost even the smallest part of its well earned popularity that has made it famous the world over. At the present time there are more Senator Dunlap being planted than ever before, proving conclusively that it is one of the surest, most dependable all-purpose Strawberries. Our supply of this variety is very limited, order early and avoid disappointment.

BLAKEMORE

Extra early, ripening same time as Beaver, and four or five days before Premier. Introduced by U. S. Department of Agriculture. A cross between Premier and Missionary. Strong, vigorous grower and extra good plant maker. Berries are bright red, and resemble Premier, although they are somewhat larger and of better color. Very firm and a good shipper. Excellent canner. Will undoubtedly take the place of Missionary and Klondike in the South, and will do well in the North anywhere Premier has been grown. Our supply of plants of this variety is of the original strain. We suggest that you place your order for Blakemore early, as there are not half enough plants to supply the demand.

SURPLUS STRAWBERRY PLANTS

During our spring packing season there are always a small quantity of strawberry plants in several varieties left in the packing house at the end of the day. We do not wish to carry them over from day to day as all of our stock is guaranteed fresh-dug; we therefore offer them to you at a special low price. They will consist of all good standard varieties of our own selection, labeled true-to-name.

Please do not ask for named varieties in this offer. No less than 200 plants can be furnished at this special rate. Price: 200 for 85c; 500 for \$1.50; 1000 for \$2.75. Net—not subject to special cash discounts.

Mary Washington

PEDIGREED ASPARAGUS

This new variety was developed and introduced by the United States Department of Agriculture. Has proven to be superior to all other kinds—do not plant any other variety. It is rust-proof, is earlier, the stalks are larger, more tender, more productive; the heads are solid and compact; stalks are often more than an inch in diameter, crisp and delicious; commands a better price than the common sorts. There is no waste with Mary Washington for every tip is healthy and useable.

After a long drawn-out winter, nothing that comes out of the home garden is so much appreciated as the tender stalks and tips of Asparagus. A small bed of them kept weed-free or a border along the garden edge, will supply an average table for six weeks or more in the early spring. The first vegetable to come in the spring; include 100 with your order and have access to an early, fresh vegetable.

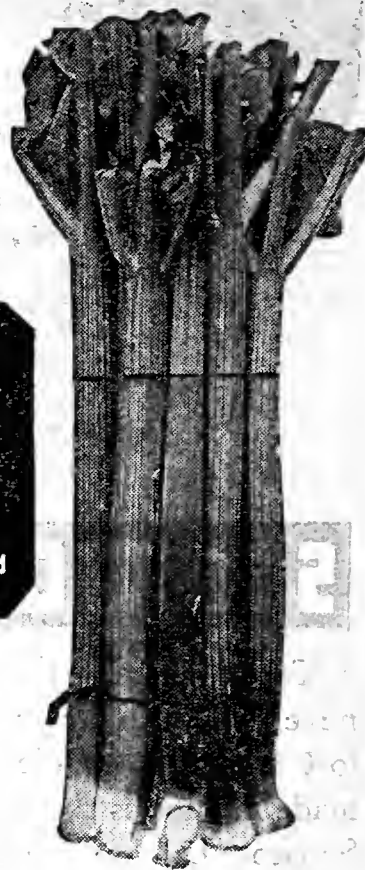

RHUBARB

Myatt's Linneaus

It is an early, tender variety, without being in the least tough or stringy, with a mild, sub-acid flavor. We consider this one of the most profitable market garden crops. We offer good strong roots, at unheard-of low prices.

Victoria

This new variety has giant size stalks, twice the size of ordinary Rhubarb; very tender. Fine flavor. A trifle later than Myatt's Linneaus.

WHITTEN-ACKERMAN "WAY-AHEAD"

High Quality Fruit Trees

The selection of fruit trees for planting is a matter deserving great care and consideration. Be sure to determine the caliper, grade and height before ordering from any nursery.

TRUTHFUL GRADING

is very important to you

We offer 3½ to 4 and 4½ to 5½ ft. heights. Some nurseries offer a 4 to 6 ft. grade or "specially selected," using small calipered 4 to 5 ft. trees, which are about the same as our smallest and cheapest trees. Don't be fooled into paying a big price for a small tree.

All of our stock is plainly graded and we furnish trees of larger caliper and greater height than those offered elsewhere at or near our prices.

Quality Is Appreciated

Our reputation for supplying quality stock at economical prices is established, and our policy of a square deal for every purchaser has been proven to the satisfaction of thousands of Whitten-Ackerman customers. Your next order entrusted to us will prove it to you as well.

SUPER-SIZE FRUIT TREES

THE BEST OBTAINABLE. YOU CAN'T BUY BETTER TREES ELSEWHERE AT ANY PRICE. Other nurseries charge anywhere from \$1.00 to \$2.00 each for trees no older, larger or better. Whitten-Ackerman Super-Size Fruit Trees are two years old, the pick of the crop. They caliper no less than 11/16 inch, and many considerably over an inch. They run 5 feet and up in height, depending entirely on the kind and variety, as some kinds are much larger growers than others.

NOTE: 11/16 inch Selected Super-Size Peach Trees are one year old, but are the strongest growers in the nursery row. A two-year-old Peach tree is never sold by any nursery as they make such a growth the second year that it would be impossible to transplant a two-year-old tree. Order this large size tree which has more pep and vitality and be assured of a much more sturdy growth when planted in your garden or orchard.

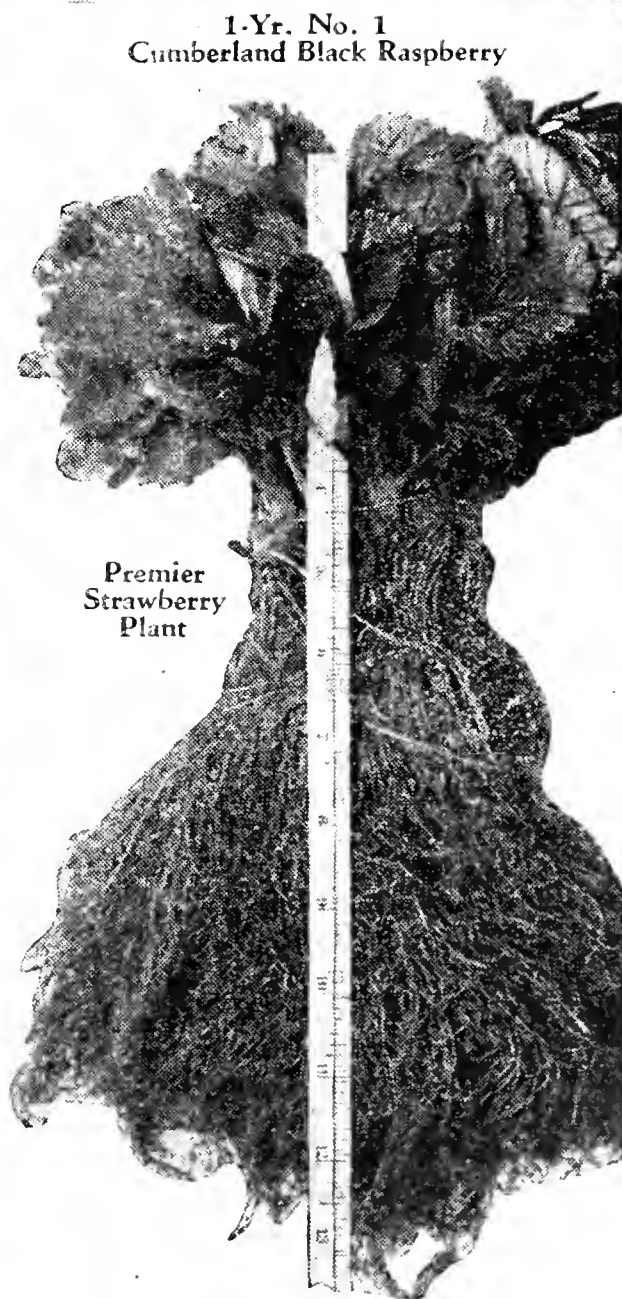

**Plant Super-Size Trees
Now and Save at Least
a Year or Two**

Grading of All Small Fruit Plants is just as important as the grading of trees. All small undersized plants are graded out of the number ones. Note three photographs of small fruit plants in different varieties. We are doing this to show you the root growth and how plants should be graded. Red Raspberry transplants do not always have branches but they must have the caliper. Note photograph showing bunch of Premier strawberry plants, especially the large crowns and root growth; ruler shows actual size reduced to fit this page. All tip end plants are discarded, and this number one stock is fresh dug for your order.

All stock is graded by experts, grown on the best kind of upland soil, grown for plants only, twice State inspected and certified apparently free from disease. Graded stock is much better as you are then assured of the best plants which are full of pep and vigor. Beware of cheap stock grown and dug in a haphazard manner. Buy direct from a reliable nursery — Whitten-Ackerman stock is grown and graded by experts and guaranteed to be as represented in the catalog and to reach you in good growing condition.

Cumberland Black Raspberry

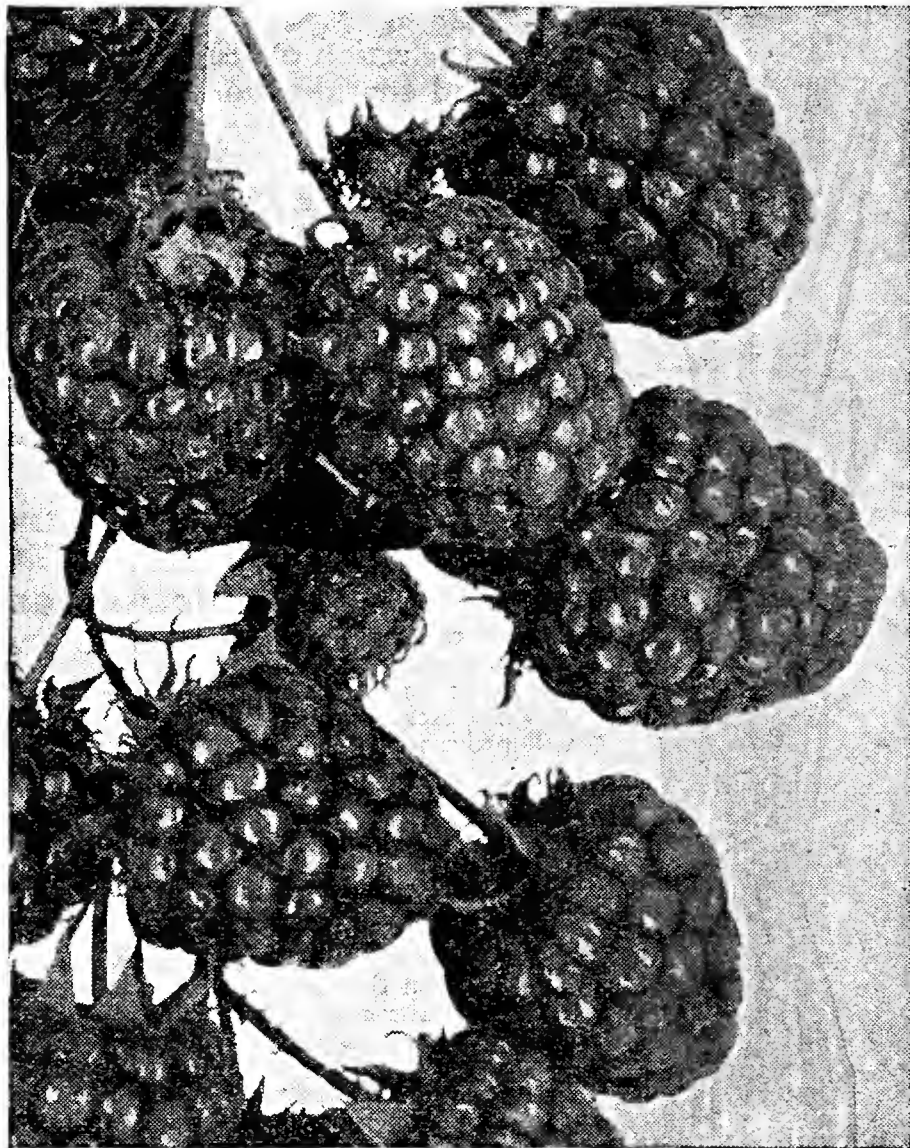

3 New Varieties Raspberries

DEVELOPED BY U. S. DEPARTMENT OF AGRICULTURE

INDIAN SUMMER

Everbearing Red Raspberry

A new Two-Crop Red Raspberry developed by the New York Experiment Station. Bears in the summer as other Raspberries and also in the fall, beginning in September and continuing till frost. The berries are large, somewhat conical and slightly irregular in shape. Of medium red in color and of high quality. They are decidedly superior to any of the other fall-bearers or so-called everbearing red Raspberries, that have been offered to the trade up to this time. The plants are hardy and vigorous. Bound to be profitable because of the strong demands for berries in the fall. Certainly worth a good trial planting.

Indian Summer

MARCY - New Red Raspberry

Marcy was the largest of all red Raspberries grown at the New York Experiment Station, and the size holds up well throughout a long season. The shape is long, conic, and flesh moderately firm and thick, with only a small cavity, making the variety a good shipper. Color is medium red. Flavor mild. Plants are tall, sturdy, vigorous, and hardy, with stalky canes that hold the fruit well off the ground. Actual tests show that Marcy is the biggest of all the leading varieties.

Marcy

TAYLOR - New Red Raspberry

Promises to be our best late red Raspberry. Fruit large and holds size well through season. Bright, medium red, long, conical shape, firm, will not crumble in shipping. Very hardy. Plants are tall, sturdy, vigorous, with stalky canes. Ripens with Latham.

LATHAM

First Choice of Commercial Growers

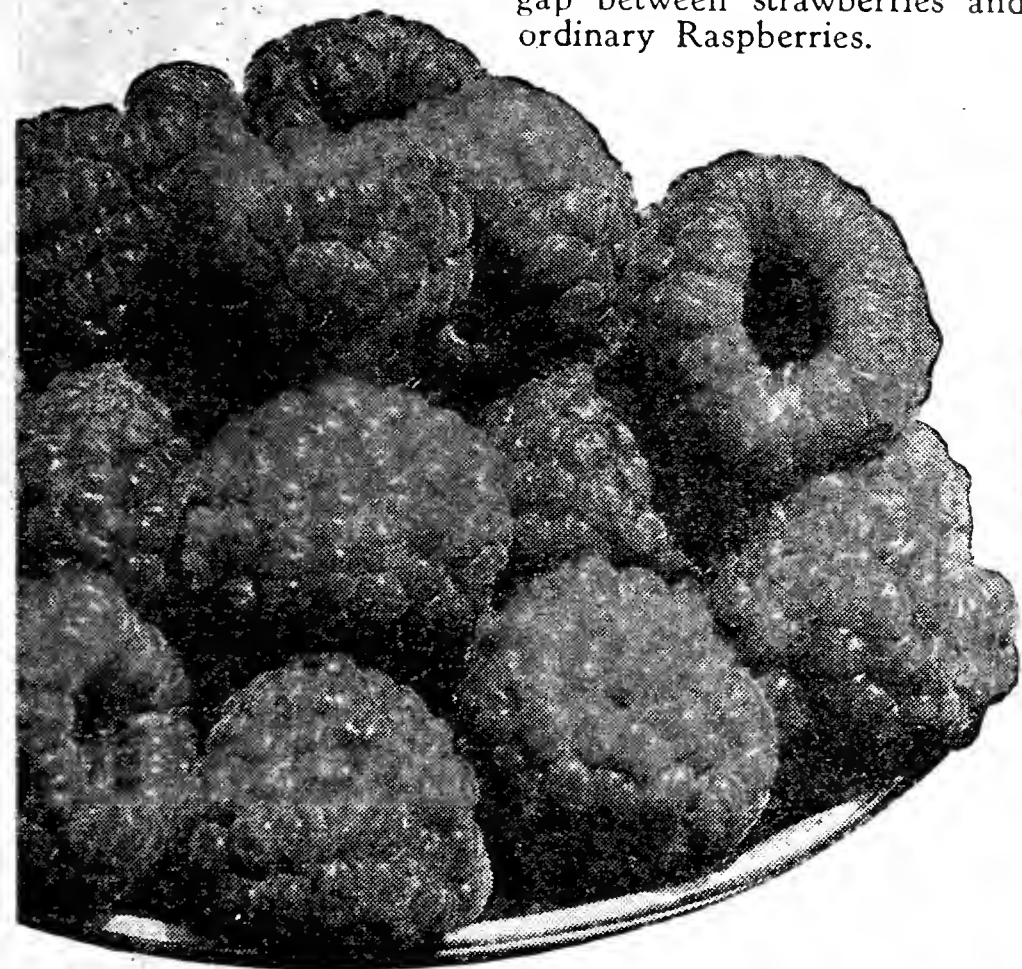

A popular favorite in all large fruit growing sections. Extra large, rich red berries, some measuring an inch in diameter. Bears a tremendous crop of best quality fruit. Finest berry for canning. Brings highest prices on any market. Has proven a profitable berry in all sections. Perfectly hardy. Originated in Minnesota at the State Fruit Breeding Farm. We have no hesitation in giving Latham our unqualified recommendation as the best all around Red Raspberry.

Latham plants are State Inspected, disease-free, of finest quality, heavy and well rooted. **BUY THE BEST AND INSURE SUCCESS.**

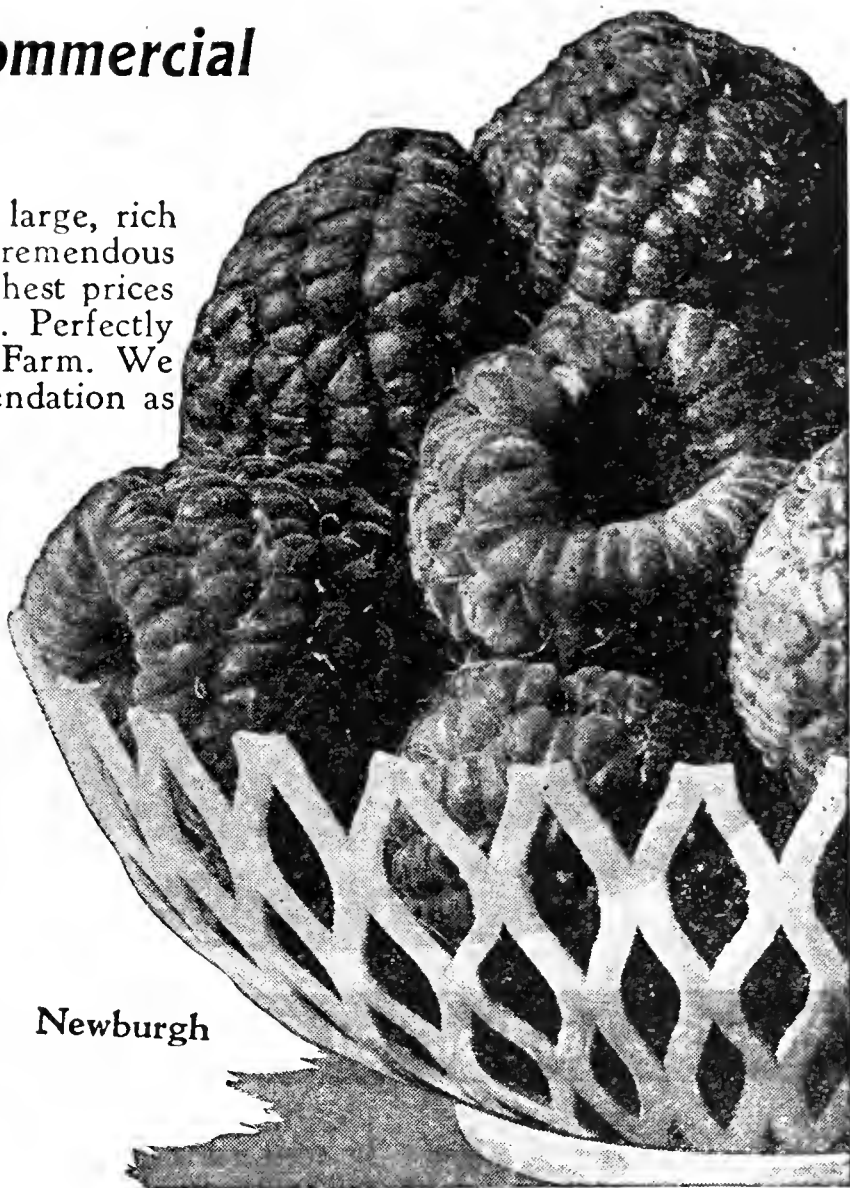

CHIEF

Best Extra Early

A very popular early variety. Offspring of the famous Latham. Has proven hardy, disease resistant, a heavy cropper, of excellent quality and a good shipper. Berries large, rich bright red. Ripens ten days earlier than Latham, bridging the gap between strawberries and ordinary Raspberries.

Chief

Newburgh

Newburgh

The New Favorite

A new variety which promises to become a leader. Introduced by the New York Fruit Testing Association, who declare that it is the best Red Raspberry in New York. Has been thoroughly tested throughout the country and produces wonderful results everywhere. Plants are tall, well branched, and vigorous, healthy and very resistant to mosaic and other diseases. Berries are unusually large, bright red, extra fancy flavor. Extra heavy bearer. Do not crumble, and hold their large size over a long fruiting period. Ripens a few days earlier than Latham.

PLANT NEWBURGH NOW! A small investment for large profit.

St. Regis

St. REGIS

Everbearing Red Raspberry

Comes on the market so early it brings the very highest prices. Ripens even earlier than Chief. Produces a full crop during regular Raspberry season, and continues to fruit heavily throughout the summer and fall. Brings in a double profit, and is a real money-maker in spring or fall. Berries have a delicious flavor. Excellent shipper. Give St. Regis a trial this year, and you'll plant more the next.

Black
Beauty

BLACK BEAUTY

New! Midseason; excellent quality. Introduced in Ohio in 1932. Large, firm berries, which do not crumble. Plants are thrifty, hardy and resistant to anthracnose and mosaic. A fine Black Raspberry for either commercial or home use. We urge you to give it a trial.

Rooted **BLACK RASPBERRIES**

Cumberland

NEW LOGAN

Most Dependable Early Black Raspberry. This variety, through sheer merit, has replaced very nearly all of the standard kinds. The berry ripens one week earlier than Cumberland, giving the grower a chance to make some real money before Cumberland comes into bearing. It is an extra heavy yielder, with berries as large or larger than Cumberland.

BLACK DIAMOND

Early. Insures good prices to the commercial grower, for it is one of the first Black Raspberries on the market. Ripens a week before Cumberland. Very resistant to disease, and stands dry weather well. Good flavor and quality. Well worth planting either for home garden or commercial purposes.

Grown for plants only on ideal soil, and given the best of care and plenty of fertilizer, making them vigorous and full of pep. Awarded a clean bill of health by the Michigan State Inspectors. Packed to reach you in first class condition.

Michigan has the most rigid plant inspection of any state in the Union. Buy from us and be assured of disease-free stock.

CUMBERLAND

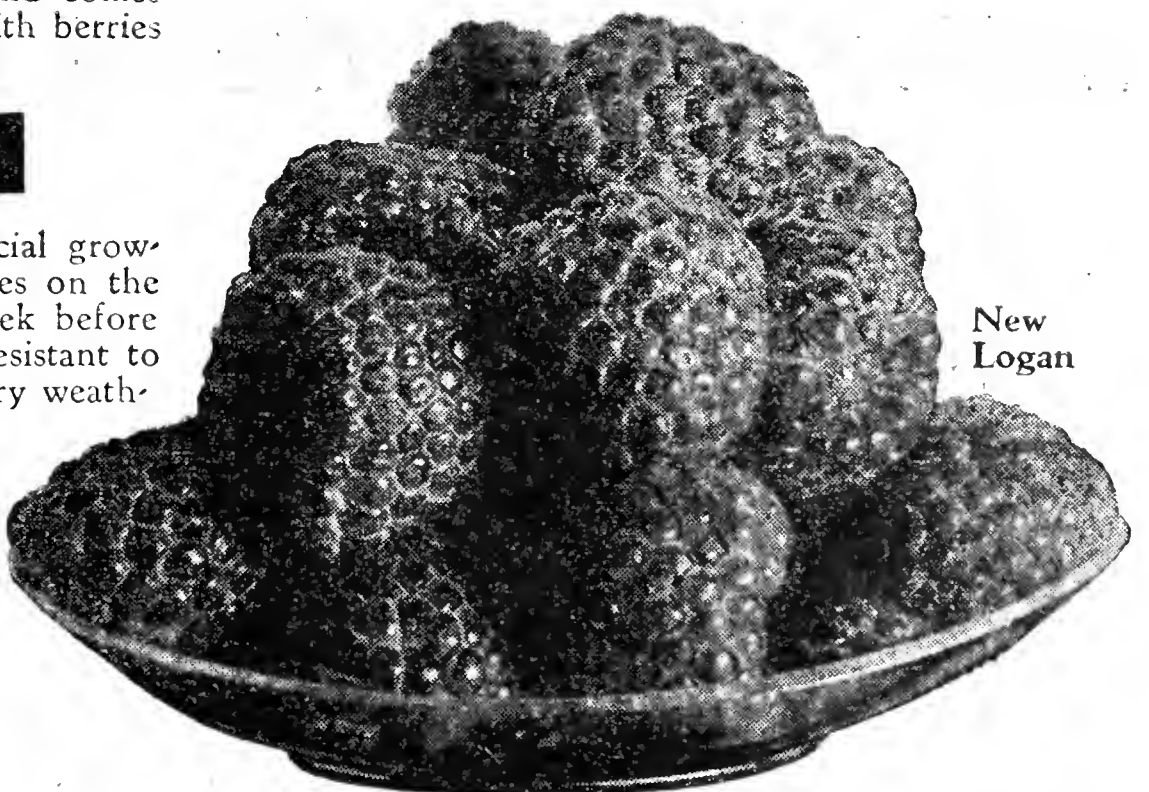

The Largest of all Blackcaps and the Very Best Midseason Kind. We advise planting Cumberland as a main crop variety. No Blackcap has ever been grown as extensively as Cumberland, nor attained its great popularity in all Raspberry producing sections of the country. A heavy yielder, berries large, rich black in color, fruit firm and of delicious flavor. Bush is absolutely hardy, vigorous growing, producing plenty of fruiting wood: especially free from anthracnose, the common disease of all Raspberries. The greatest money-making Blackcap of all time.

QUILLEN

The Latest Blackcap. Comes into bearing after all other varieties are practically through. Fruit very large and of fully as good quality and texture as Cumberland. Practically immune to mosaic, anthracnose and other serious diseases. This variety shows great merit in all sections of the country, and we urge you to give it a trial.

PLUM FARMER

One of the best early Blackcaps. Fine grower, free from disease, very productive. The berry is large, and of excellent quality. Plum Farmer ripens very early, producing the most delicious fruit in one week. Practically the entire crop can be harvested in three large pickings, enabling the grower to reach an early market, and harvest the crop with a minimum amount of labor.

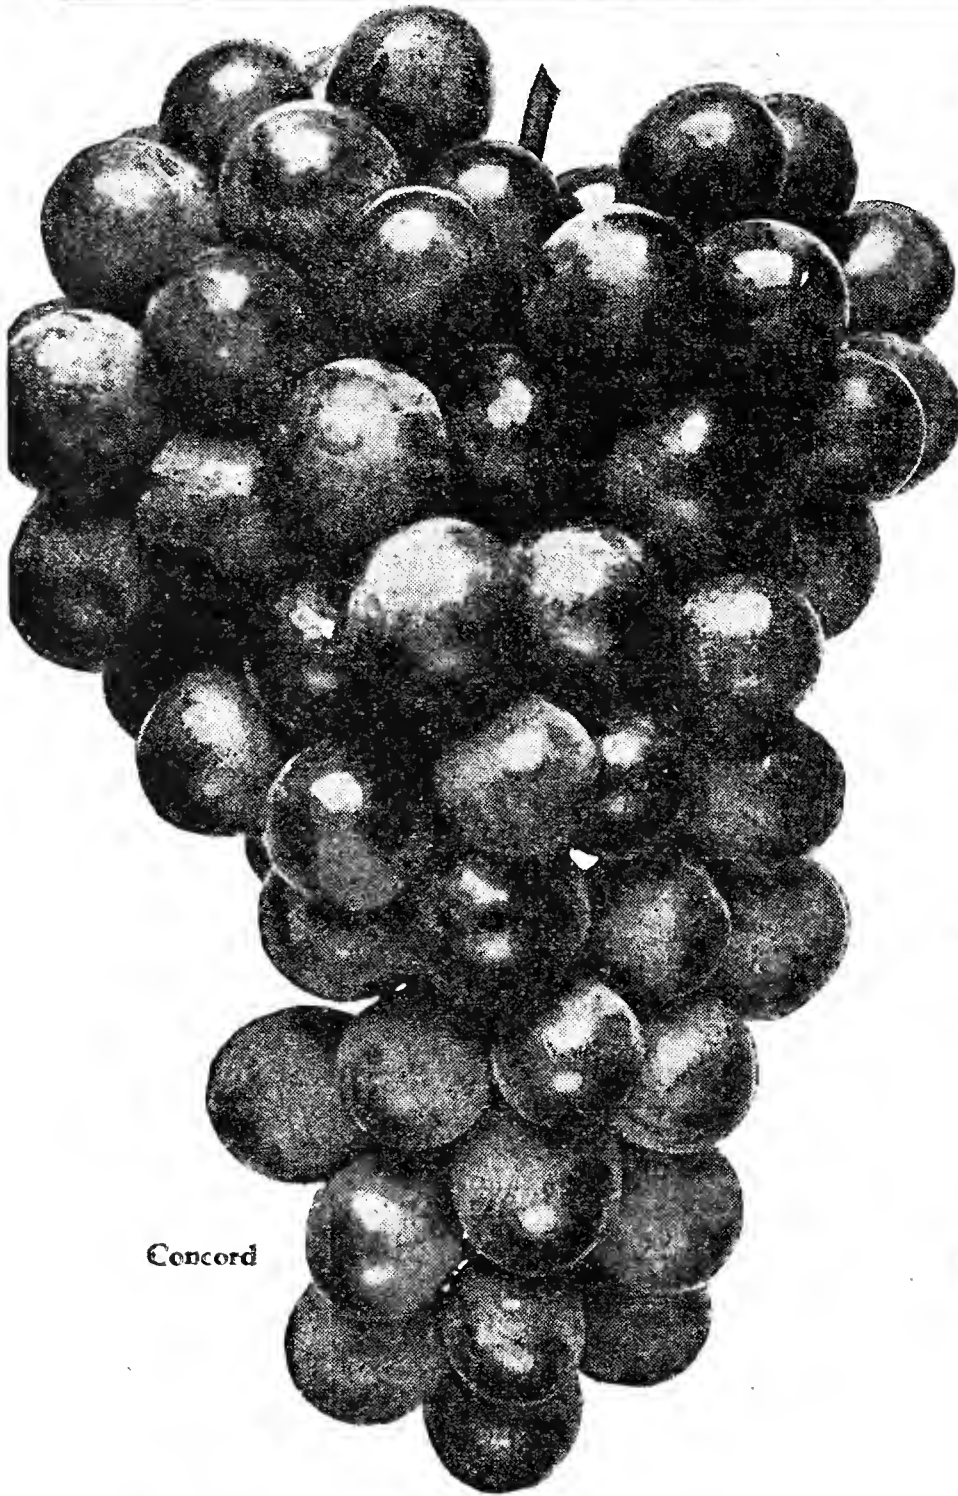

New Logan

Selected Varieties

THE BEST OF MANY

GRAPE

Concord

Agawam A large, reddish brown Grape. Bunches are large and compact; berries large, tender, vinous and excellent flavor. Very vigorous and productive. Vine hardy and one of the best. Ripens early.

Caco A new red Grape originating in Delaware. Its quality is excellent; ripening in September. The fruit is very large and handsome. A rich wine-red color. Flavor of the finest, very rich and sweet. The vines are very strong, perfectly hardy, vigorous growers, healthy and prolific.

Salem A strong, vigorous vine; berries large, dark copper color; thin skin, free from hard pulp; sweet, and of pleasing taste. Ripens first of September.

Concord Most popular Grape. A large, purplish black Grape. Bunch is large, shouldered and compact. Berries are large; flesh is juicy, sweet and tender, excellent flavor. Vine a strong grower; very healthy, hardy and productive. The most reliable and profitable market variety.

Niagara A magnificent white Grape. Berries large, skin thin but tough; quality very good; beautiful bunches of the largest size. Ripens about with Concord. Quality of the best, very little pulp. Hardy and very productive. Of exceptional value for eating, grape juice or market, and unsurpassed for wine.

Brighton New red Grape. Earlier than Delaware. Handsome dark-red color. Flesh is rich, sweet and of excellent quality. Large bunches and berries. Vine vigorous, hardy, very productive.

Delaware This variety cannot be surpassed for home use and to eat out-of-hand; every small home owner should plant at least a few vines. Berries are compactly set, light red, sugary and delicious. Is one of the very best red varieties, brings highest prices on any market.

A VINEYARD is a LIFETIME Investment

GOOD
Plants
Have Strong
Healthy Roots
Grown from Heavy
Selected Cuttings

Every Whitten-Ackerman Grape Vine is guaranteed to be true-to-name, free from disease, and propagated from productive strains. The cuttings from our plants are all taken from heavy producing vines, each vine being selected for productiveness and size of fruit.

When buying from us you are absolutely assured of getting the best, vines that will produce heavy, uniform yields year after year, a result that cannot be secured from cuttings made in a haphazard way, regardless of quality, a practice all too common in recent years.

Our Grape Vines cost no more than others. You don't pay for the added quality. You can't af-

ford to experiment with vines of unknown origin. We can't afford to sell them.

We don't know of a single farm crop that can be relied on with the same assurance as the Grape harvest. Many a grower has been able to keep the wheels turning through a lean year, only because of his Grape crop. It's a good insurance for anyone.

VINES

CHOSEN FOR

Flavor Size and Yield

Fredonia Black. A new, very early Grape, originated and thoroughly tested by the New York Experiment Station. The berry and bunch are large, with excellent flavor. A real money-maker, coming on the market at a time when good table Grapes are at a premium. Ripens fully 15 days before Concord and is an excellent shipper, as it does not crack. Is a juicy, delicious black Grape. Its quality compares with that of Concord. Vine vigorous and productive. Will be planted extensively as a commercial proposition as soon as plants are available. One of the best new varieties.

Moore's Early An early black variety, similar to Concord in appearance and quality, but ripening about one week earlier. Has a peculiarly sweet flavor of its own. Vines are hardy and good bearers.

Ontario New, white Grape of delectable quality. Ontario is a cross between Winchell and Diamond. Berries compact, large and attractive. Vines are vigorous and productive. The grapes hang on the vine long after ripening; one of the earliest white Grapes. Excellent table grape. Ontario is becoming one of the standard early white grapes on the market today.

Pocklington White. Very large and showy in both bunch and berry. Very compact, of beautiful golden color. Quality about as good as Concord, with which it ripens; liked even better by some. Vine vigorous and very healthy, hardy and productive.

Catawba The best red Grape of them all. Grown extensively as a commercial proposition. Brings highest prices on any market. Berries large, round; when fully ripe, of a dark copper color, with sweet, rich flavor. Undoubtedly the best wine and table Grape.

Niagara

Worden An early black variety; very hardy, healthy and productive. In vigor and health Worden is surpassed by no other variety. It is practically immune to fungous diseases and a sure, heavy cropper.

HEAD

Blackberries

Increase your profits. One acre of Blackberries will average 2000 to 2300 quarts per acre, and prices on this fruit are always high. The best money-making berry for the past three years.

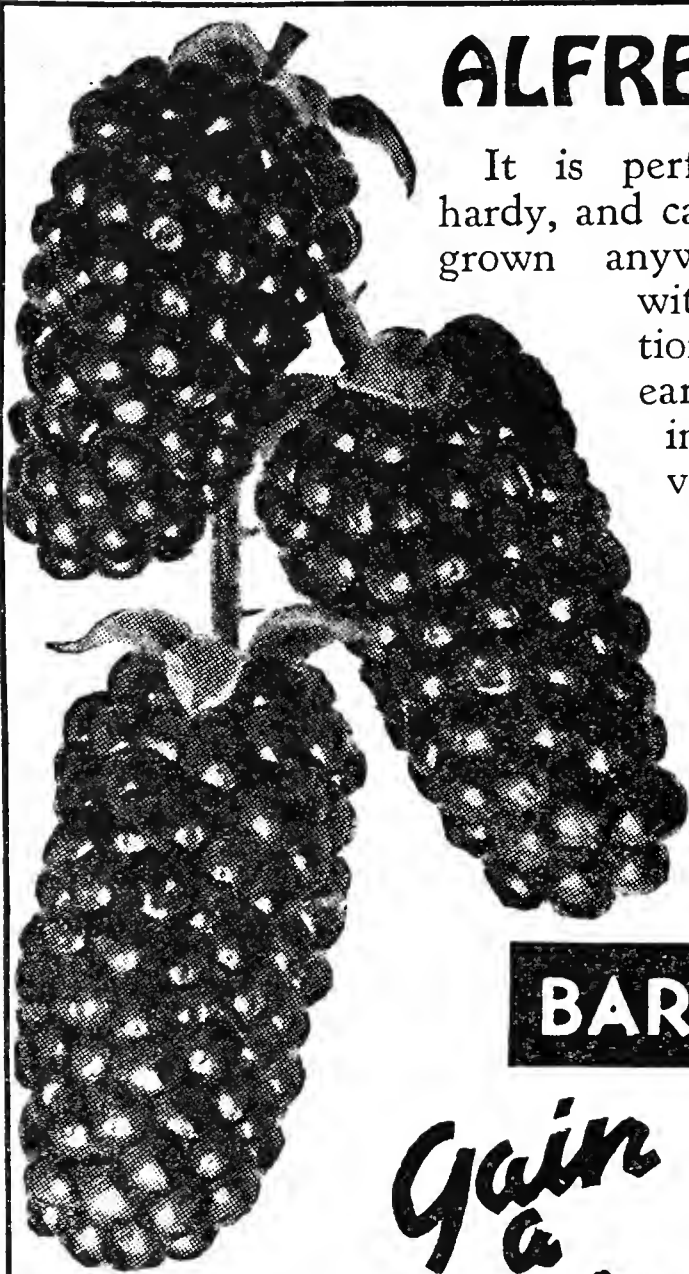

ELDORADO

The
Best
Commercial
Blackberry

Eldorado bears young, providing nearly a full crop of fruit the year after planting. Vigorous grower, producing strong, well branched canes, perfectly capable of carrying the big crop of fruit produced. Always free from disease, immune to orange rust. Large berries, fine flavor, color and quality. Very hardy, never winter-kills. A wonderful shipper. Fruits over a long season and insures a big profit to the grower.

There are more Eldorado under cultivation than all other Blackberries combined. Highly recommended for both home and commercial plantings.

ALFRED

The
Blackberry
Without a
Core

It is perfectly hardy, and can be grown anywhere without winter protection. Alfred ripens early, beginning a week in advance of other varieties, and continues over a long season. The berries are of immense size, some measuring 3 inches around and 2 in length. Color is a glossy, jet black; the flavor sweet and delicious.

"Acme" Thornless
YOUNGBERRY

Protected by U. S. Patent No. 4

This wonderful new variety retains all the delicious flavor of the common Youngberry, but is thornless. This variety attains a size of 1½ by 1¼ inches. Ripens earlier than Dewberries. Fruit is very highly flavored, sweet and delicious, dark wine in color, with few seeds. An excellent canner and valuable for table use, jellies and pies. Vines are thrifty growers, very productive, and immune from disease.

A Real Money Maker—Big Yields—Large, Sweet, Juicy

New BOYSENBERRY

The New Boysenberry is truly a glorified Youngberry. We offer it again this year because we think that it has the highest qualities of all bramble fruits, because of the tremendous large size of the berries, because of its very prolific fruiting and lastly because we think that every garden should have a few plants of this immense berry.

They are just as easy to grow as blackberries. They produce a large crop, not because there are more berries, but because each berry is so much larger—berries often are two inches in length. Has a rich, tangy flavor all its own. The few seeds are scarcely noticeable. Plant 6 feet apart in rows 6 feet across. You will be surprised at the berries you can get from a dozen plants. We know after giving this variety a trial, you will agree with us that they are the finest berries you have ever tasted, either fresh, canned, in jams, jellies or pies.

Lucretia

Currants-Gooseberries

Currants are among the easiest of all fruits to grow, bearing good crops even when neglected.

Wilder Bunch and berries very large; moderate acidity. An immense yielder, always dependable.

Perfection Generally considered the best currant. Large, bright red berries with rich, mild flavor, with plenty of pulp and few seeds. Good bearer.

Downing Gooseberry

Large, handsome fruit, green in color; fine flavor; immense cropper and always in demand. An American variety, free from mildew.

Purple Cap Raspberries

Royal Purple

Berries are of purple color, large in size, firm and of excellent flavor; do not crumble when picked. In quality Royal Purple is more nearly like the Red Raspberry than any other purplecap. The plants are model growers, vigorous and healthy. A wonderful berry for home use.

Sodus New Purple Raspberry. More promising than any other purple kind. Large, firm, red-purple berries. Do not crumble in shipping. Has a unique, very pleasing flavor. Plants vigorous, hardy and very productive with no signs of being subject to disease. You will like it. Try it.

Sodus

PEARS

Best Commercial and Home Orchard Kinds

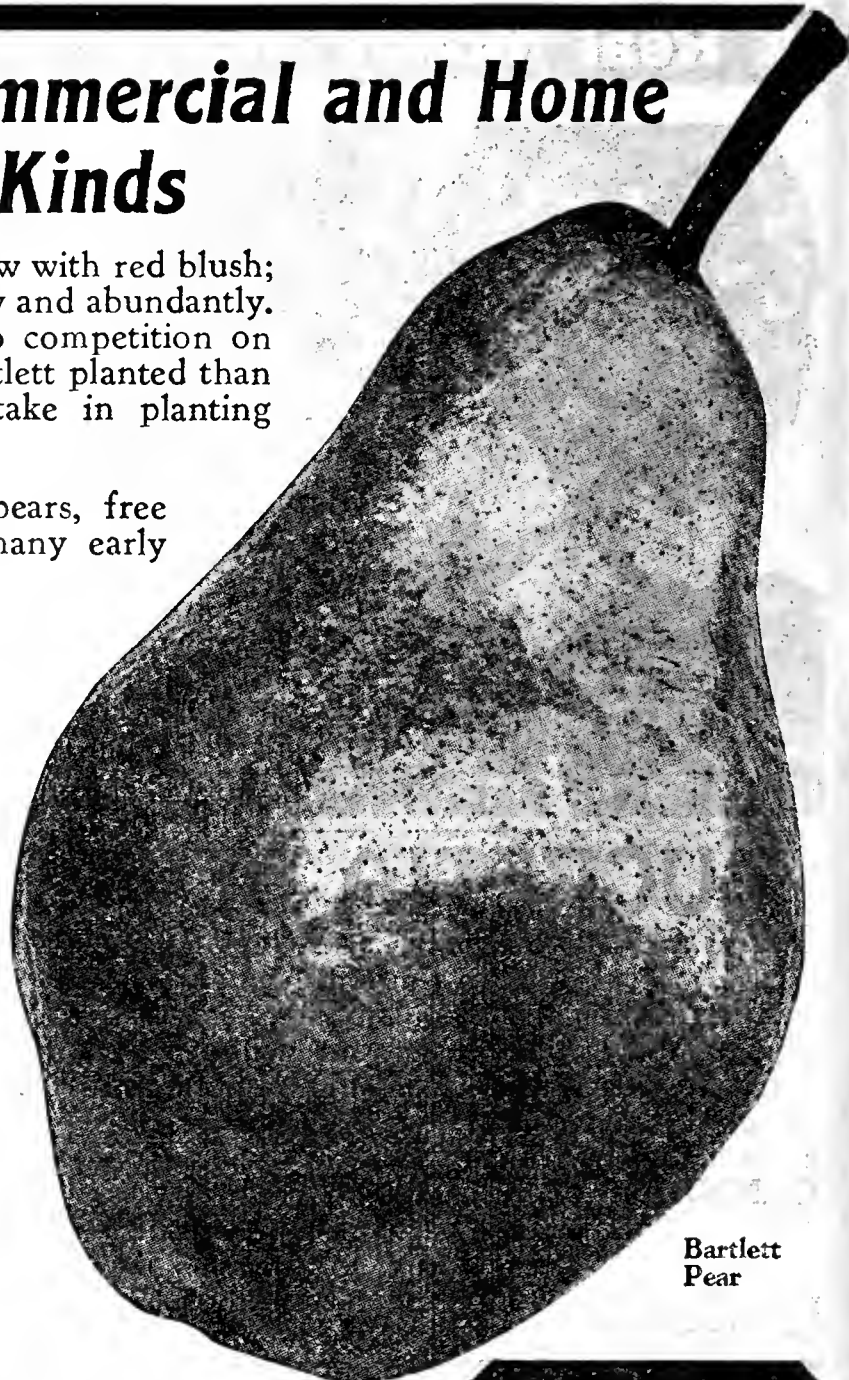

Bartlett Large; coloring when fully ripe, to waxy yellow with red blush; juicy, melting, highly flavored. Tree bears early and abundantly. Fruit ripens in September at a time when there is little or no competition on the market. Some nurserymen claim there have been more Bartlett planted than all other kinds of Pears combined, and you make no mistake in planting Bartlett yourself.

Koonce Originated in Illinois. One of the earliest pears, free from blight, does not rot at the core like many early pears. Fruit is yellow, medium to large; delightful flavor. Very productive. This variety can be supplied in 9/16 inch grade only.

Pultney This new variety originated by the New York Experimental Station. Fruit is of the Bartlett type, a little more regular in outline; skin smoother. Flavor better than Bartlett. Ripens from three to four weeks later than Bartlett. This variety can be supplied in 9/16 inch grade only.

Seckel (Sugar Pear). Small size; yellowish russet, with red cheek. Flesh white, buttery, very juicy and melting. Ripens in September and October.

Kieffer Best Pear for large commercial planting. Ripens in October and November. Fruit large, and of good quality.

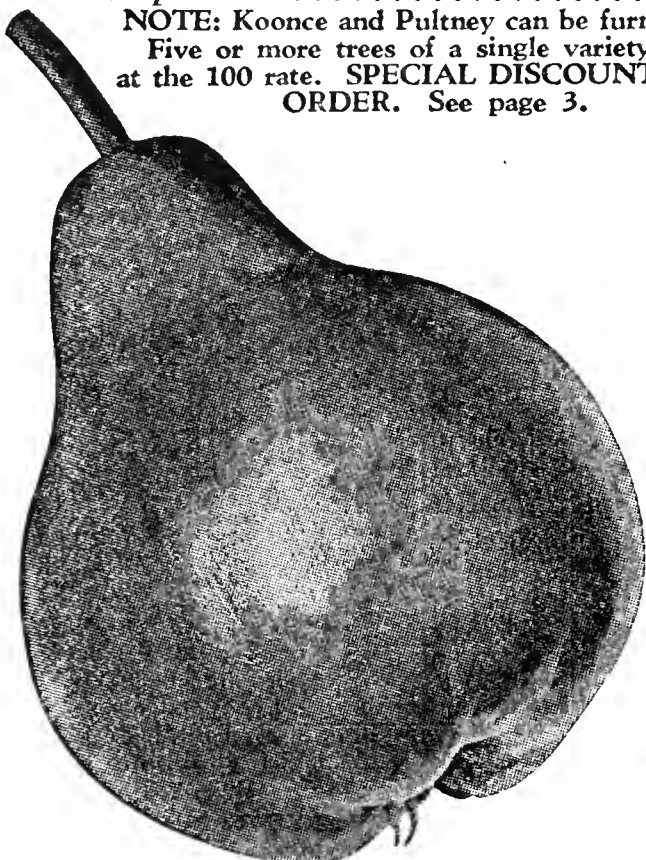

Bartlett Pear

Orange Quince

QUINCES

Orange Sometimes called Apple Quince. Fruit large, round with a short neck; color bright yellow; flesh tender, juicy and excellent flavor. Highly regarded for jellies and preserves. Trees bear young. A good tree to plant on hillsides or where land is hard to work, as it requires very little care.

PRICES OF QUINCE TREES:

Hall
Prune

Profitable

PLUMS

Plums are hardy and grow vigorously in nearly all sections, succeeding on any medium fertile soil. The market for Plums is never over-stocked, so that good, profitable returns are assured. Plant 16 to 18 feet apart.

Burbank Fruit large and of excellent quality; cherry-red, with lilac bloom. Tree hardy, and heavy yielder. Ripens in August.

Reine Claude (Green Gage). Large, yellow-green, juicy, melting, sugary and delicious. Because of its rich flavor, one of the best for eating and canning. Ripens quite late. Very hardy and productive.

Yellow Egg The best yellow Plum. Fruit is very attractive, large, and rich yellow in color. Wonderful for canning. Bears a large crop, even when the trees are quite young.

Underwood

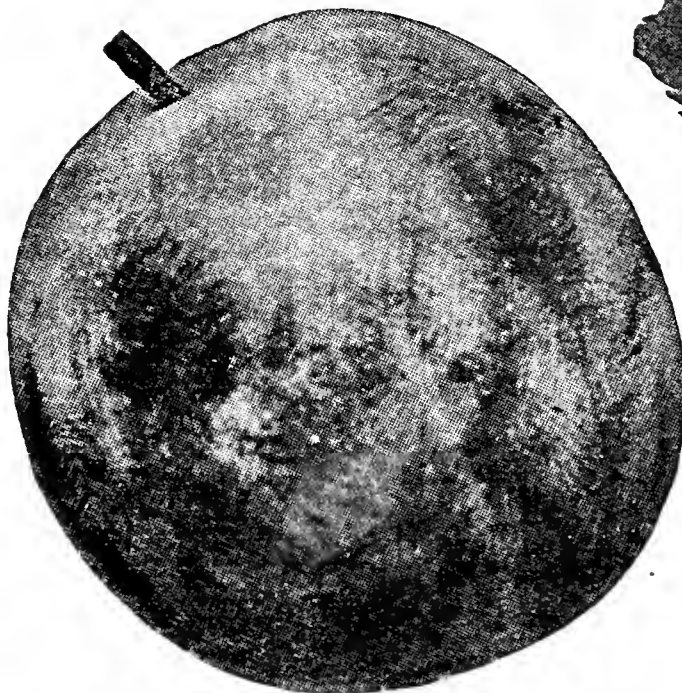

Sapa Medium to large size purple Plum, with purple flesh full of rich juice of fine flavor. Ripens in July. Very fine for canning. Bears next year after planting. Bears heavy regular crops. Does well anywhere — North, South, East, West.

Underwood Bears immense crops of large red Plums of fine quality. Ripens in August. Very hardy. Fruit firm, juicy flesh, very small pit, freestone.

Waneta Our most popular Plum. Generally bears next year after planting. Fruit is very large, reddish purple, good quality. Ripens in August. Planted all over America. Very hardy and rapid grower.

Waneta

Burbank

Hall Prune New! Introduced by the New York Experiment Station, and is recommended by them as being one of their best new Plums. Hall is a cross between Golden Drop and Grand Duke, two of the largest and handsomest European Plums, but is better in flesh and quality. The fruits are so handsome and well flavored that they will sell on any market. The tree is nearly perfect. This is one of the best of the New York Experimental Station's new plums.

German Prune Large, Dark purple, sweet. One of the best for commercial planting. Excellent for drying and canning. Ripens in September.

Italian Prune The outstanding Plum of the Pacific Coast and Northwest. Can be grown and will produce wonderful crops in any state where Plums are grown. Good sized purple Plum. Very good for canning and ideal for drying; unexcelled for home use. Flesh juicy and delicious. Ripens in September.

Red McIntosh

Red Northern Spy

HI-QUALITY

The Best Standard Apple

Baldwin Winter Apple. Large, roundish, dark red, of rich flavor. Excellent keeper well into winter, and a splendid shipper. Tree hardy, quick, strong grower. Heavy cropper.

Delicious Winter Apple. Has established its claim to first rank, both for commercial and home orchards. Fruit large, flesh fine grained, crisp, juicy and really delicious. Tree hardy, vigorous grower, producing enormous annual yields.

Grimes Golden Winter Apple. Medium to large size; skin golden yellow; delicious sparkling flavor. Tree very hardy and productive. Bears young.

Jonathan Grand, good winter Apple. Bright, solid red. Flesh white, sometimes tinted with red; firm, fine, crisp and tender. A splendid family sort and highly profitable for market. Tree long-lived, productive and an early bearer. Will keep well without especial care, and also stand much handling.

McIntosh Red Medium size, nearly covered with dark red. Flesh white, tender, juicy and crisp. Similar to common McIntosh but colors earlier. Tree hardy, vigorous and healthy.

Red Northern Spy Red Spy is a typical Spy except in color. The color is solid bright red without either stripes or splashes. Flesh white, tender, mild, sub-acid. Reliable bearer.

Red Rome Beauty An improved variety, which has a solid, deep-red color. Large winter Apple of good quality. Thick skinned, stands handling well and a good keeper. Bears young.

Sweet Bough We have had so much demand for a sweet Apple that we are now listing the Sweet Bough, which is the best sweet Apple for home use or local trade. Begins to ripen in August. Fine for road stands in the late summer, and the best sweet Apple to eat out of hand. Fruit is large, handsome, smooth, sometimes faintly blushed.

Wealthy Ripens late summer and early autumn. Perfectly hardy, vigorous and productive. Fruit large, red streaked with white. Quality good. A profitable market sort.

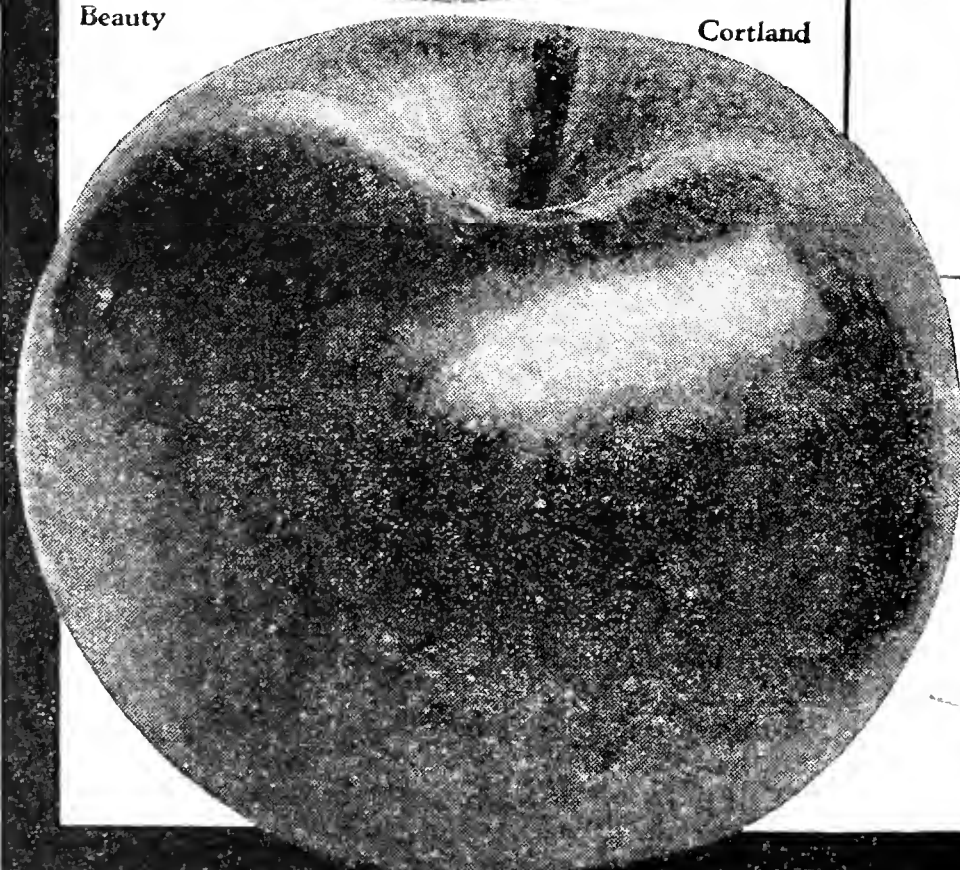

Winter Banana Early winter variety. Large, beautiful, brilliant waxen yellow with red cheek. A most attractive, high quality, juicy Apple, with exquisite flavor that delights everyone. Especially good for eating out of hand. Tree hardy; bears young; good crop every year. This variety cannot be furnished in the 11/16 inch grade.

Yellow Transparent Ripens in July. One of the best early varieties. Skin is clear white, changing to pale yellow when ripe. Flesh white, tender, sub-acid.

APPLE TREES ONLY the BEST of the BETTER APPLES

Baldwin

Jonathan

The Best Newer Apples

CORTLAND An offspring of the McIntosh, but fruit larger, more uniform in size, more highly colored, richer in flavor, firmer but fully as juicy. Clings to tree more tenaciously, and ripens 3 to 4 weeks later. Fine for cooking. A good shipper. Bears 2 or 3 years after planting.

RED HARALSON The prize origination of the Minnesota Experiment Station. No finer red winter apple has ever been introduced. The outstanding feature of the Haralson is its keeping quality—keeping in perfect condition until late spring. The Haralson is free from blight and best of all, has the tendency to bear early. Produces a good size, deep red apple of excellent flavor.

DOUBLE-RED DELICIOUS The new, superior Delicious that is creating a sensation. Fruit is red all over as early as August when other Delicious are still green. Extra fine flavor. Brings highest prices on the market. Supply is limited, so order early.

TURLEY (Red Winesap). Extra fine commercial Apple. Colors red on the tree much earlier than other Winesaps, filling a long-felt need. Originated in Indiana, and now one of the leading Apples there. Large very red fruit. Excellent flavor and quality. Vigorous tree, bears young. Ripens just before Stayman's Winesap. You can't afford to overlook this superior Apple.

YELLOW DELICIOUS Best yellow Apple. Waxy golden color. Luscious flavor, finest in the world. Bears very early, in 2nd and 3rd year. Keeps until late spring without becoming mealy. Very hardy. You'll make more money with our Yellow Delicious.

4 New Varieties Peach Trees

BARGAIN No. 23

One of each variety listed
on this page (including
Rio-Oso Gem, which is
60c net).

All For **\$1.60** Net,
Not Prepaid

FERTILE HALE (La Duke). This new introduction, as the name implies, is a Hale which is self-fertile, thereby doesn't require cross pollination. Fruit growers everywhere have been asking for a Hale Peach that would produce profitable crops. The Fertile-Hale will produce full crops of beautiful large Peaches, entirely free from all so-called "buttons" so prevalent in crops of J. H. Hale. Trees are far more vigorous and hardier in bud than J. H. Hale. Ripens a week later than Elberta, coming on the market when the bulk of the Peaches are gone, therefore bring a premium price. Color yellow, with deep carmine blush. Good shipper. Splendid market variety. Be sure to include some of these trees in your orchard planting.

This wonderful variety came through the extremely cold winter of 1936 with flying colors, producing over 75% of a crop in most sections and practically 100% in Michigan. Further, the extreme drought of the following summer did not have any severe effect on its size, maturing their normal large-size fruit. It commands a much higher price on the market than some of the better kinds. We know that it is a money-maker, and you will be the loser, if you do not get started with this exceptional variety. This variety is protected under U. S. Plant Patent.

HALE-HAVEN Introduced by the Michigan State Experiment Station. A cross between South Haven and J. H. Hale. Freestone. Strong grower, very hardy, heavy bearer; excellent, fine flavor. Ripens ten days earlier than Elberta. The best New Yellow Freestone we have seen in years.

MIKADO (June Elberta). Earliest of all yellow Peaches. For years Peach growers have been asking for a large yellow-fleshed Peach that ripens extremely early, and we are now pleased to offer this new proven variety to fill this need. This variety has been tested by the New York Experiment Station. The fruits of the Mikado are large, yellow, handsomely blushed; semi-cling. Mikado ripens 30 to 40 days before Elberta. The quality is good, better than that of Elberta. This variety will be a money-maker for you as it comes on the market at a time when Peaches have no competition. Trees are vigorous, young and heavy bearers. NOTE—This variety cannot be furnished in the special super size grade.

RIO-OSO GEM This variety is protected under U. S. Patent No. 84. Ripens about ten days after J. H. Hale, during that period when there are few Peaches on the market. This new Peach has the extreme large size of J. H. Hale, is more highly colored, of finer grained texture, firmer, and of better general quality. Yellow freestone Peach. The Whitten-Ackerman Nurseries are specially licensed by the patent owner to grow and distribute this fine new yellow freestone Peach; but to eight states only, viz: Ohio, Indiana, Illinois, Missouri, Michigan, Wisconsin, Minnesota and Iowa. 1-year, 7/16 in., 3-3 1/2 ft. trees, 60c each; 10 for \$5.00; 100 for \$40.00, net, not subject to any cash discount.

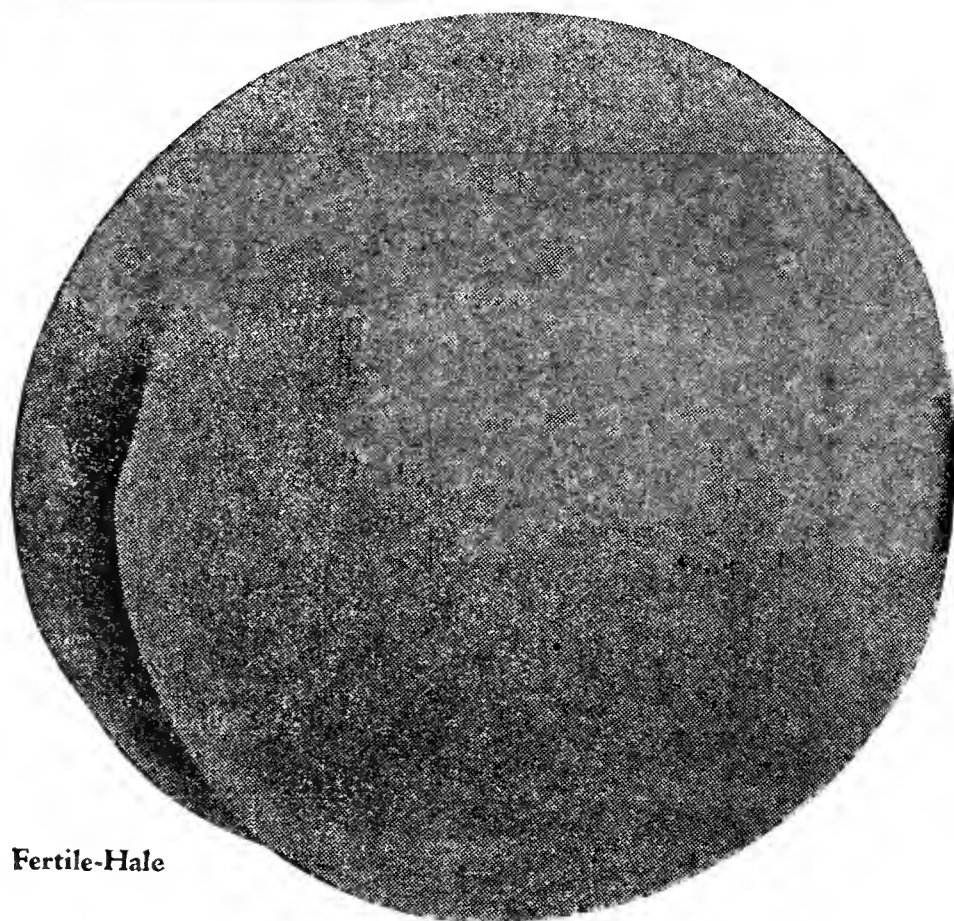

Note the Special Super Size, 11/16 in. Peach trees we are listing this year. See page 11.

See page 27 for New "Hardee Peach."

PEACHES

Standard
COMMERCIAL
VARIETIES

Absolutely true-to-name, vigorous, well grown, perfectly healthy, with well-ripened wood and splendid roots. Guaranteed to reach you in good growing condition.

SOUTH HAVEN Extra large, extra fancy, extra early yellow. Combines all the good features of Elberta—large size, excellent quality, delicious flavor, beautiful appearance and immense productiveness, but it ripens 12 to 16 days earlier, enabling one to get it on the market at a time when good Peaches are scarce and when they bring the highest price. It is of the finest quality as an eating Peach and is also a great shipper. Rapid growing, young bearing. You can't go wrong in planting South Haven.

You will not find any spindly whips and poorly branched stock offered for sale in our nursery. We cannot afford to sell them and you cannot afford to plant them.

J. H. HALE This well-known variety needs no description. Ripens 5 days earlier than Elberta, is larger, and superior in flavor; beautiful golden yellow with carmine blush, smooth, fuzzless.

ROCHESTER Good early, yellow freestone for home and market. Fruit large, yellow, sweet, juicy and of delicious flavor. Keeps and ships well. Ripens about August 10th. Commands good price. Tree strong grower and hardy. An annual and prolific cropper.

ELBERTA Standard market Peach of the entire country. Very large; yellow with red blush; flesh is yellow, tender and juicy; very highly flavored, rank, vigorous grower. Does well in all Peach growing sections. Ripens middle of September. Freestone.

GOLDEN JUBILEE Extra Early Yellow Freestone. Introduced by New Jersey Experiment Station. Wouldn't you like to grow a yellow, freestone Peach, with all the good points of Elberta, plus much improved flavor, but ripening a month earlier than Elberta? Here's the Peach you've been looking for! Extra early, fine flavor, self-fertile, grows well wherever Peaches can be raised. Very hardy, regular bearer and a good grower. Has no superior among Early Yellow Freestones.

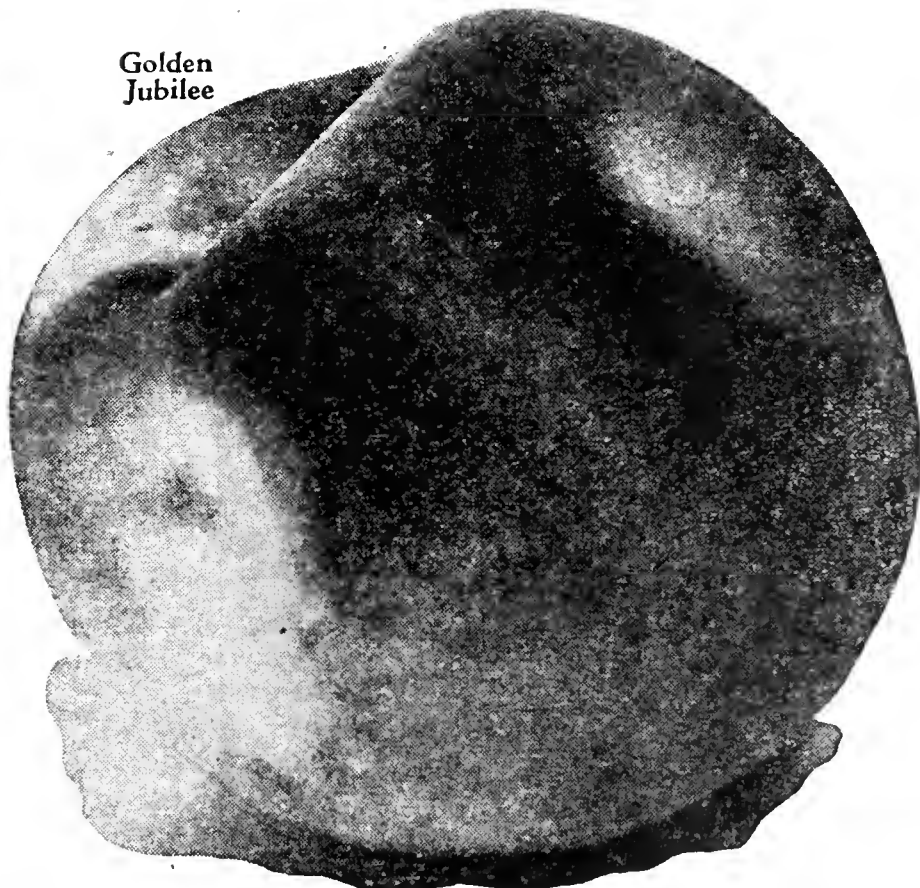

South Haven

Elberta

Golden Jubilee

Sweet Cherries

Black Tartarian Very large, purplish black, heart-shaped; flesh mild and sweet, and quality considered, one of the best for market and dessert. Tree is vigorous, upright grower and immense bearer. Ripens in July. We recommend this as one of the best Sweets for home use.

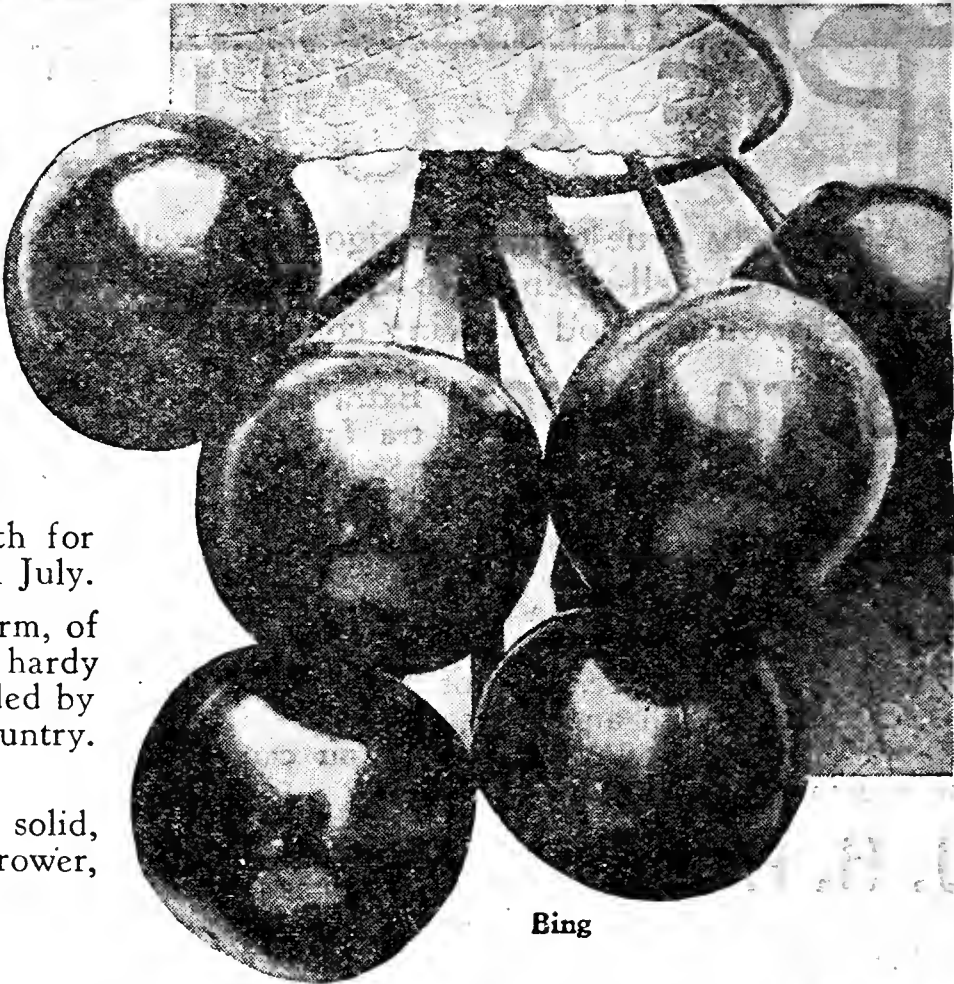

Napoleon (Royal Ann). Of fine appearance and very largest size. Color yellow and amber, with bright red blush; flesh firm, juicy and delicious. Profitable for market, finding a ready sale both for canning and dessert. Bears enormous crops, ripening in July.

Windsor Fruit large, dull red; flesh remarkably firm, of fine quality, and a good bearer. Tree hardy and prolific. Ripens middle of July. Highly recommended by some of the most prominent fruit growers of the country. A valuable addition to any garden or orchard.

Lambert Jet black when fully ripe. Flesh firm, solid, rich and juicy. Tree rugged, strong grower, hardy, enormous bearer. Ripens late July.

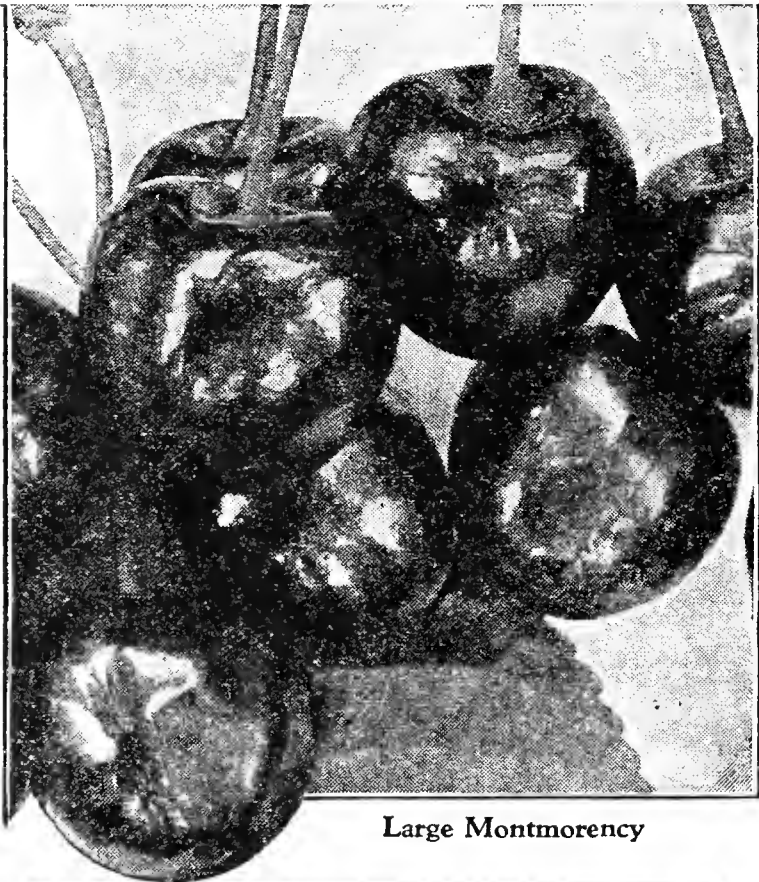

PRICES OF SWEET CHERRIES:

All Varieties Listed:	Each	10	100
2-yr., 7/16 in., 3-3½ ft. . .	\$0.75	\$7.00	\$65.00
2-yr., 9/16 in., 3½-4½ ft. .	.85	8.00	75.00

Bing

Bing One of the best known and most popular dark sweet Cherries. Fruit large, dark colored, nearly black. Considered one of the most profitable. Tree hardy and vigorous. Seems to succeed in the East better than most Sweets. Ripens late June. Should be included in every planting.

Large Montmorency

The 2 WORTHWHILE Sour CHERRIES

We have discontinued propagating all sour Cherries except the two varieties listed as they have proven so far superior to other kinds that we have decided to offer our customers only the best. 90% of all Sour Cherries grown in the United States consist of these two varieties.

Large Montmorency

The leader of all Sour Cherries. Ripens midsummer. One of the finest flavored Sour Cherries. Bears enormous crops regularly. Best all-around Cherry grown. Tree bears two to three years from planting. A real money-maker, as the price of the fruit designated this year.

	Each	10	100
2-yr., 7/16 to 9/16 in., 3-4 ft.	\$0.75	\$7.00	\$65.00
2-yr., 9/16 to 11/16 in., 4½-5 ft.85	8.00	75.00

Richmorency New! Large! Extra Early

(Early Ripening Montmorency)
Ten days earlier than Montmorency. Largest Sour Cherry grown—red, very juicy, fine flavor.

These facts are of decided advantage, as the size, quality, and earliness of this Cherry bring a much larger profit.

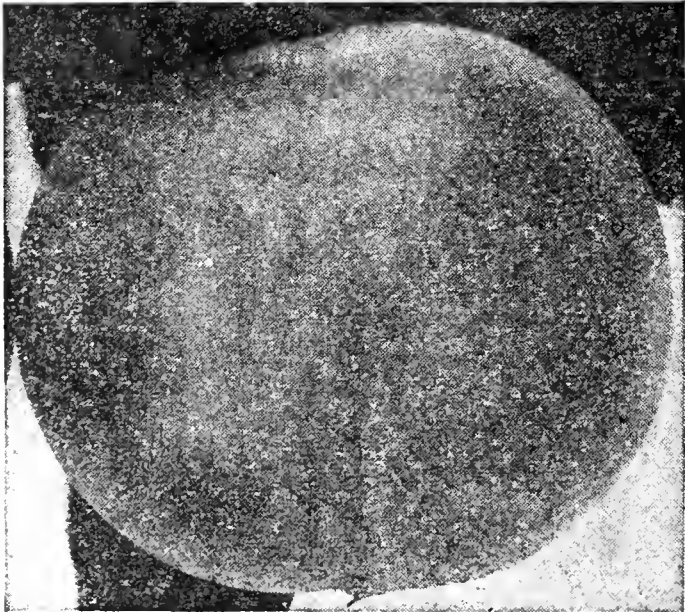

Should replace all other Sour Cherries. Similar to Charlevoix, but better.

	Each	3	10

3 Outstanding New Fruits

Hardee Peach

HARDEE Peach

U. S. Plant Patent No. 120

New Peach Resists Zero Weather

A new Peach developed to resist excessive cold. **END WINTER KILLING WITH HARDEE.** Has been tested by the Ohio Experimental Station for the past several years and found that they came through the driest summer and the coldest winter undamaged, whereas the balance of the Peach crop was a complete failure. These experiments have convinced us that Hardee is the coming Peach for all northern climates.

The fruit is large to above large, Elberta type, ripening a little later, yellow freestone, highly colored, is distinct and delicious. Firm flesh, of the best quality, thick-skinned, making it an excellent shipper.

Vigorous grower and will produce a nice crop the third year on most any kind of soil or climate. Be the first in your locality to get started with this new Peach and be assured of a crop when your neighbors fail.

The New Giant BLUEBERRIES

About the Size of Grapes

The biggest money-maker of all times as a commercial proposition. Easy to grow. Bring from 55c to 70c per quart—\$400.00 per acre the third year.

Should be planted 5 by 10 feet. Plant no less than two to insure pollenization. Bushes grow 6 to 8 feet high. Bear a good crop the third year after planting. Hardy, never winter-kill.

Blueberries must have an acid soil, good drainage and moderate supply of moisture. Most every farm has low acid soil which is considered worthless that will grow this profitable crop. If your soil is not already acid, this condition may be created easily by mixing with the surface soil the **Sodus Acid Humus** which we are listing on page 33, or rotted leaves, pine needles or sawdust will answer the same purpose. Also

see page 34 for another formula to make your soil acid. Write U. S. Department of Agriculture at Washington, D. C., for bulletin on growing Blueberries.

We are listing four varieties: **Pioneer**, early; **Rancocas** and **Jersey**, midseason; **Reubel**, late. Your choice, specify variety wanted.

Sweet September CHERRY

New Fall Bearing Cherry

U. S. Plant Patent No. 94

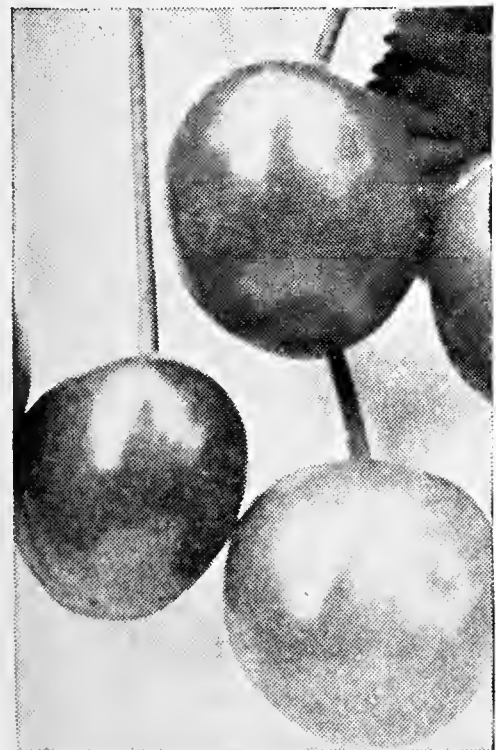

A new find in sweet Cherries! Ripens September first and hangs until the snow flies. Bears the second or third year after planting! Fruit is dark red, similar to Windsor.

There is no record in the history of horticulture of a fall bearing Cherry until the accidental discovery of the parent tree which produced 15 bushels in one year. All fruit was sound and perfect, no worms, rot, or leaf spot without ever having been sprayed. Hardier than the average sweet Cherry. For some unknown reason ripens its fruit in September instead of June although the tree blossoms at the same time as other standard varieties.

A fruit that every home owner should have in his dooryard to extend the season for sweet Cherries through the late summer and autumn. The biggest sensation ever introduced in horticulture. Get started with a few of these trees and have a novelty that your neighbor will envy. **SEE FRONT COVER** for further description.

SOME POPULAR FAVORITES

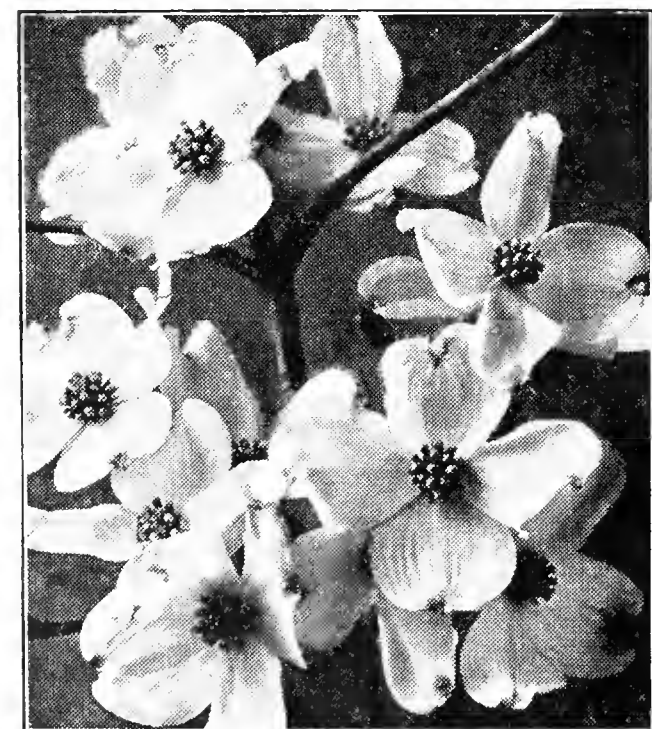

Japanese Red-Leaved Maple

Siberian Crab

Paul's Double Scarlet Thorn

Cornus Florida Rubra

WHITTEN-ACKERMAN

All 2- and 3-year-old, strong and vigorous, well branched and well rooted. We offer no small, spindly whips.

Siberian Crab (Pyrus baccata). The Superb Beauty of Ornamentals.

We might call this the three-purpose Crab, for it is not only unexcelled as an ornamental tree, because of the extremely large white to pink, fragrant flowers, but also for its fruit, and if used as a windbreak, it gives the whole place a living frame of beauty. Very hardy. Has dense bright green foliage. Grows on any soil. Bears early. Its bright red and yellow fruit fine for jellies and pickling. 2-yr., 18-24 inch trees, 35c each; 3 for 90c; or 10 for \$2.50.

Arnoldiana Crab A very popular variety; early flowering, producing an abundance of semi-double pink flowers. Very attractive foliage. 2-yr., 2-3 ft. trees, 35c each; 3 for 90c; or 10 for \$2.50.

Bechtel's Double Flowering Crab

A Rose in Disguise! The only genuine Double-Flowered Crab. Makes a medium sized tree; perfectly hardy. When in bloom, appears to be covered with delicate pink, perfectly double, small, roselike flowers of delicious fragrance. Blooms very young. 2-yr., 18-24 inch trees, 65c each; 3 for \$1.75; or 10 for \$5.50.

Magnolia Soulangeana This is the most decorative and popular of the Hardy Magnolias, producing a wealth of very large, rose colored blooms just before the leaves come in the spring. The blooms measure from 3 to 5 inches across. Leaves large and glossy. It will attain a height of from 8 to 10 feet when fully matured. 2-yr., 18-24 inch trees, balled in moss and burlapped, only \$1.50 each; or 2 for \$2.50.

Japanese Red-Leaved Maple

Hardy, dwarf growing tree, seldom maturing over 10 ft. Their indented leaves are vivid blood-red in summer, which dulls to bronzy purple-red or bronze-green toward fall. Fine trees, 2-yr., grafted, 2-3 ft., balled in moss and burlapped for best results, at only \$2.35 each; or 2 for \$4.25.

Paul's Double Scarlet Thorn

Very hardy tree with attractive deep cut leaves; in May-June it is covered with double, scarlet-red flowers, followed by showy red berries. Low growing. Strong, 2-yr., 3-4 ft. trees, \$1.35 each; or 3 for \$3.65.

Shining Sumac (Rhus copallina).

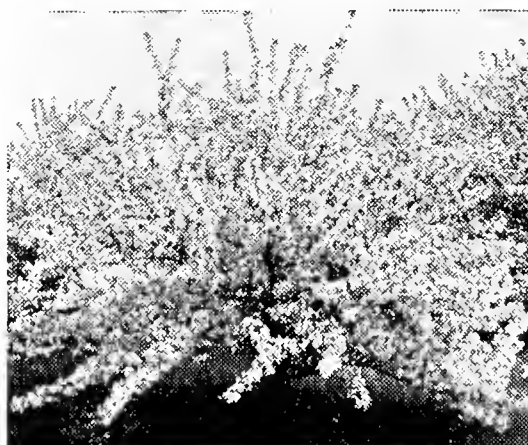

Strong tree with dark green, compound foliage, turning dark brown in autumn. Panicles of brilliant red flowers in late summer; bright red berries in autumn. 2-yr., 18-24 inch trees, 30c each; 3 for 75c; or 10 for \$2.00.

Cornus Florida (White Flowering Dogwood).

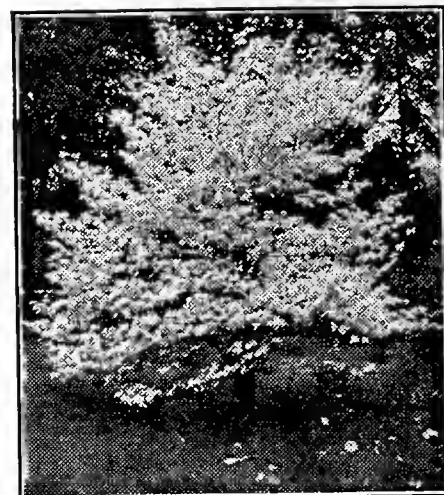

White flowers, before leaves appear. Grayish green foliage, turning red in fall. Tall grower. Strong, 2-yr., 2-3 ft. trees, only 60c each; 3 for \$1.65; or 10 for \$4.85.

Cornus Florida Rubra

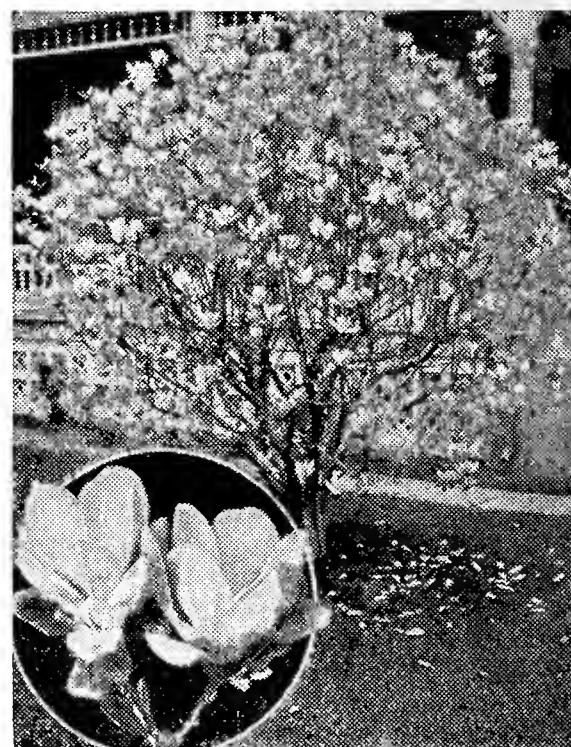

(Red Flowering Dogwood). Covered in early spring with masses of large, rose-red blooms. Red berries in fall. Slow growing. Strong, 2-yr., 2-3 ft. trees, only \$1.50 each; 3 for \$4.25; or 10 for \$12.75.

ORNAMENTAL TREES

Ama-No-Gawa Jap. Flowering Cherry

Ama-No-Gawa Flowering Cherry

The new flowering Cherry that is different in form. Instead of being spreading in shape like other flowering Cherries, it has an upright, compact form similar to that of Lombardy Poplar. The flowers are just a faint, beautiful pink, and are borne in gorgeous and beautiful clusters, giving masses of wonderful color. Fine, 2-yr., 3-4 ft. trees, \$1.25 each; 3 for \$3.10.

Yoshino Japanese Flowering Cherry

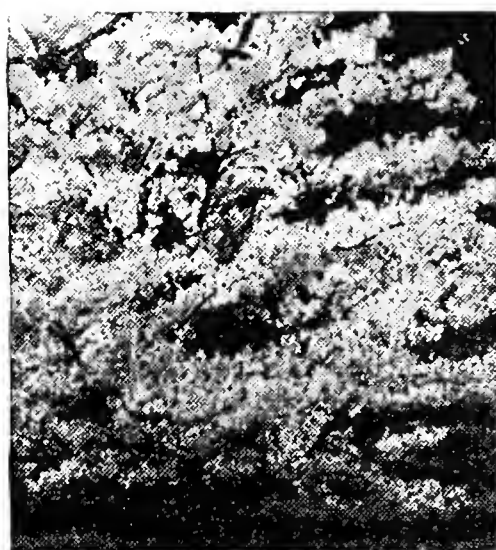

The loveliest of all kinds, is found blooming along the Tidal Basin at Washington. Buds are red, flowers are single, blush-pink fading to white with reddish center. Fine, 2-yr., 3-4 ft. trees, \$1.25 each; 3 for \$3.10.

Prunus Triloba

(Double-Flowered Plum). The Rose Tree of China. This small growing tree is covered with double pink blooms early in the spring, before the leaves appear. Seldom attains a height of more than 8 feet. Strong, 2-yr., 2-3 ft. trees, 55c each; 3 for \$1.45; 10 for \$4.50.

Prunus Cistena

A New Purple Leaf Plum. Shows more red in the colored leaves, lower growth and more compact than the common variety, glossier leaves. This dwarf tree comes out red in the spring, stays red all summer and is bronze-red in the fall. Beautiful single flowers in May. Strong, 2-yr., 2-3 ft. trees, 50c each; 3 for \$1.25; or 10 for \$3.60.

Yoshino Jap. Flowering Cherry

Prunus Triloba

Bargain No. 28

Japanese Walnut

Handsome ornamental shade tree; grows very rapidly; has large, lustrous leaves and bears heavy crops of nuts resembling Butter-nuts, but the kernels come out more readily and more whole. Very hardy. Attains a height of 50 feet at maturity. Fine, 2-yr., 5-6 ft. trees, 65c each; 3 for \$1.75; or 10 for \$5.50.

Moss Locust

(Tree Form Rose-Acacia). The same as shrub Rose-Acacia (see page 39), with exception that this variety is grafted on stems 2 to 3 feet tall. Very hardy. Strong trees, with 2-yr. heads, 3-foot stems, \$1.50 each; or 2 for \$2.50.

Kwanzan Japanese Flowering Cherry

(Sacred Gate). Flowers are very full and double, deep pink or old rose, varying in tone according to weather conditions. Fine, 2-yr., 4-5 ft. trees, \$1.35 each; or 3 for \$3.40.

Judas Tree

(Redbud). Beautiful bright pink blossoms in early spring before leaves appear. Medium size tree with large, irregular head and heart-shaped leaves. Strong, 2-yr., 2-3 ft. trees; 45c each; 3 for \$1.15; or 10 for \$3.25.

Silver Bell Tree

(Halesia tetraptera). Sometimes called the Snowdrop Tree. Bell-shaped flowers are carried in drooping clusters in early spring. An unforgettable picture when every branch is strung with drooping soft pink buds in the spring, still beautiful later when buds expand into drooping pure white snowdrop-like flowers. Attains a height of 30 feet when fully matured. Fine, 2-yr., 2-3 ft. trees, 55c each; or 3 for \$1.35.

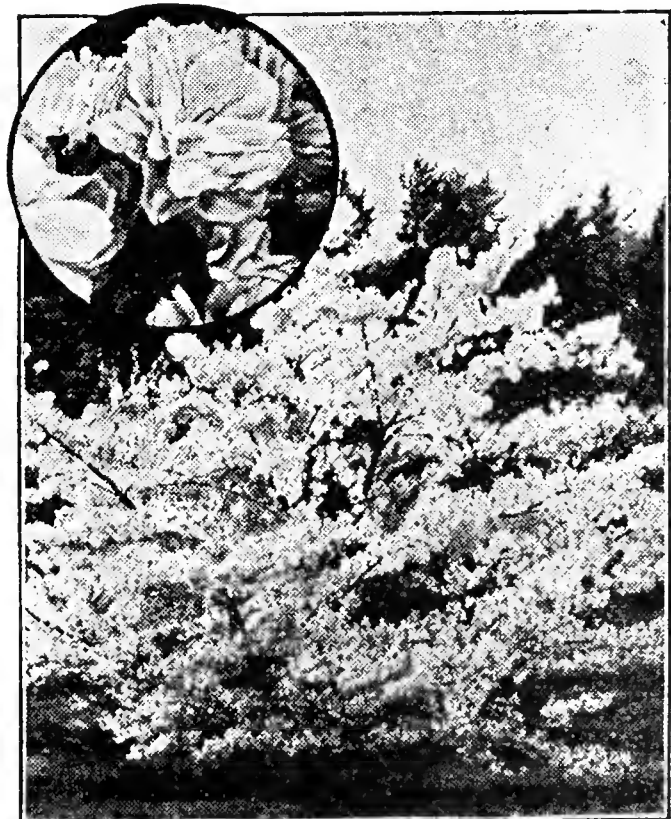

Tree Form Moss Locust

Judas Tree

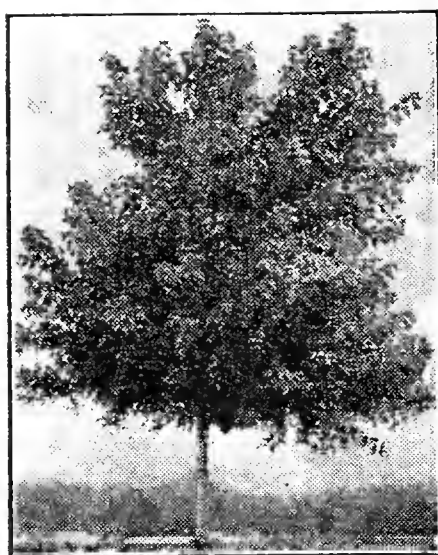

Halesia, Silver Bell Tree

Kwanzan Japanese Flowering Cherry

ORNAMENTAL TREES

Silver Maple

Silver Maple (*Acer dasycarpum*). Very hardy, rapid growing native tree, valuable for producing quick shade. Good sized, rather deeply and irregularly indented leaves, which turn yellow and bronze in the fall. Trees well rooted, well branched, straight trunks; all fine, sturdy specimens. Prices: 2-yr., 5-6 ft., 40c each; 3 for \$1.00; 10 for \$3.00. 2-yr., 6-8 ft., 60c each; 3 for \$1.65; 10 for \$4.85. 3-yr., 8-10 ft., 90c each; 3 for \$2.55; 10 for \$7.85.

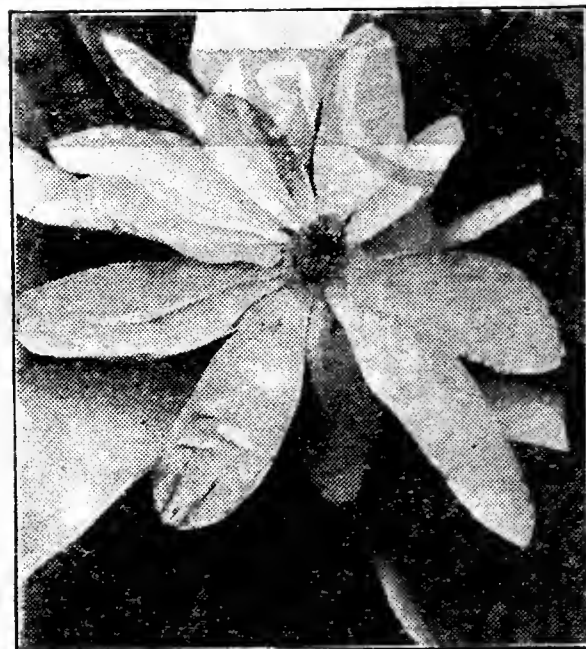

Poplar, Lombardy A tall tapering tree, rapid grower, attaining a height of 60 feet in a short time. Leaves dark green, with silvery surface below. Prices: 2-year, 4-5 ft. trees, 40c each; 3 for \$1.00; 10 for \$2.75. 2-yr., 6-8 ft. trees, 55c each; 3 for \$1.50; 10 for \$4.50. 3-year, 8-10 ft. trees, 90c each; 3 for \$2.45; 10 for \$7.85.

Magnolia Tripetala Attains a height of 30 to 40 feet; has immense leaves, usually 12 to 24 inches long, and from 7 to 10 inches wide. Leaves grow in clusters about the large white flowers and rose colored fruit cones. Fine, 1-2 ft. trees, \$1.20 each; 3 for \$3.00; 10 for \$9.00.

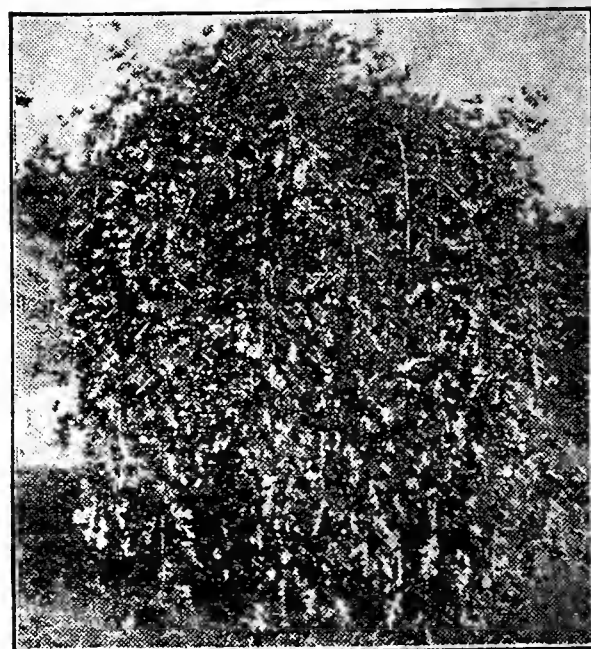

Teas' Weeping Mulberry Tree is hardy, weeping and graceful. Forms a perfect shaped head, with long, slender branches which droop to the ground. Useful in cemetery plantings, and well adapted for small grounds or specimens. We offer well developed trees, with straight stems, at an unusually attractive price. 2-year, 4-5 ft. trees, \$1.65 each; or 3 for \$4.45.

Wisconsin Weeping Willow A graceful tree of large size. Its fresh, bright green tint, and long, wavy branches make it very attractive. This is the most generally planted variety, and makes immense broad-topped specimens. Long, fine leaves on slender branches. Grows rapidly. Strong, 4-5 ft. trees, 50c each; 3 for \$1.25; or 10 for \$3.85.

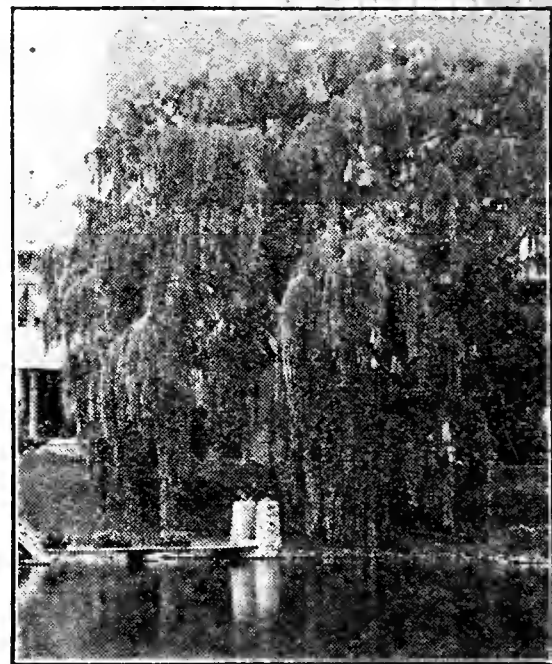

European Mountain Ash (*Sorbus aucuparia*). A hardy, medium size, smooth barked tree; head dense and regular. Covered from July until winter with large clusters of bright red berries. Reaches a height of 25 to 30 feet when matured. A most beautiful and attractive tree. Strong, 2-yr., 5-6 ft. trees, \$1.50 each; or 3 for \$3.95.

Magnolia Tripetala

Teas' Weeping Mulberry

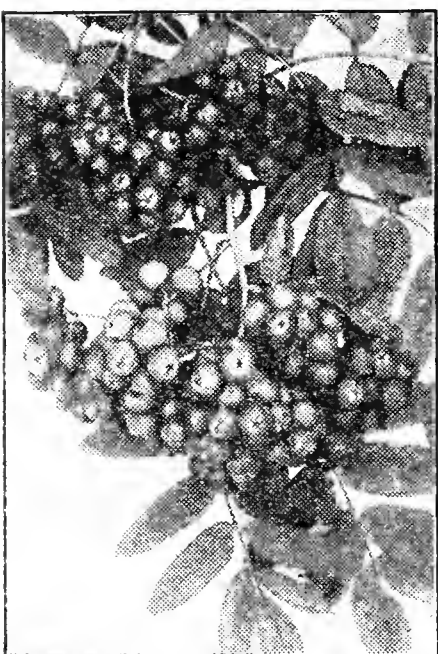

Wisconsin Weeping Willow

Chinese Elm (*Ulmus pumila*). Very rapid grower. Will give ample shade in only 5 or 6 years from planting. Has dense, dark green foliage; is the first shade tree to leaf out in the spring, and the last to shed its leaves in the fall. Resists drought and cold, and succeeds in all parts of the United States. Does well in all soils, except on low, wet grounds. Prices: 2-yr., 3-4 ft. trees, 40c each; 3 for \$1.00; 10 for \$2.75. 2-yr., 6-8 ft. trees, 75c each; 3 for \$1.95; 10 for \$6.00; 3-yr., 8-10 ft. trees, \$1.40 each; 3 for \$3.50; 10 for \$11.00.

FOR BEAUTY & SHADE

Cut-Leaf Weeping Birch

A tall, slender tree of vigorous growth, with graceful drooping branches, silvery white bark and delicately cut foliage. Strong, 2-yr., 6-8 ft. trees, \$1.95 each; or 2 for \$3.65.

Richards' Golden Poplar

This is a shrub-like tree with foliage that is shaped like hard Maple, but is soft in texture and yellow in color. Just the tree you have been looking for to give a splash of color in the landscape. Vigorous, 4-5 ft. trees, 50c each; or 3 for \$1.25.

May Day Tree

This beautiful lawn tree which comes from Siberia, is one of the first to show green in the spring. The flowers are large, pure white and very fragrant, conical in form; blooms in April or early May. Ideal for cutting. Flowers are followed by fruit, which is small, and though edible and make good jelly, are soon claimed by the birds. May be trimmed up for a shade tree or left in bush form. Very hardy. Fine, 18-24 inch stock, 40c each; 3 for \$1.00; or 6 for \$1.75.

Magnolia Stellata (Star Magnolia).

This variety is very scarce and wherever one is seen in bloom it creates a sensation. Its flowers are star shaped and come in such profusion as to completely hide the plant. Very hardy and blooms when scarcely two feet high. Be sure to include this rare tree in your lawn planting. 2-yr., 12-15 inch trees, \$2.50 each; 2 for \$4.50.

Filbert (American).

The common Hazelnut. Will grow in almost any location, but prefers a rather moist soil, such as can be found along streams. Nuts are tender and of fine flavor. Fine, 2-3 ft. trees, 75c each; 3 for \$1.95.

Magnolia Stellata

Richards' Golden Poplar

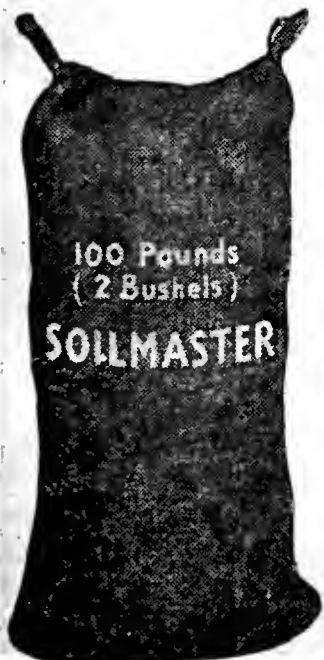

Cut-Leaved Weeping Birch

Soilmaster

Soilmaster is a decomposed, concentrated leaf-mold and decayed vegetation. This is the humus to use on lawns, around shrubs and in your garden. Holds seven times its weight in moisture, and is a good fertilizer. Rejuvenates gardens, lawns, shrubbery and trees; is a natural plant food, a natural soil builder; far superior to stable manure, has the same fertilizing value, is clean, odorless and does not burn; and can be applied any time and anywhere.

Is ideal for the farm home, garden or suburban home. Requires less water after application than other fertilizer as it holds moisture for an indefinite period. Makes the soil mellow and prevents baking. Soilmaster goes farther, lasts longer and is more economical; two-bushel bag, which is approximately 100 pounds, is enough for 100 square feet of lawn or 8 good sized shrubs or ornamentals. You are assured of a three year's growth in two year's time by using this humus. Note testimonial.

Gentlemen:

As a result of our many years spent in the care of thousands of fine trees, we know that lawn trees must be supplied with artificial food—more especially with humus.

After vigorous tests and use extending over a period of 4 years, we are glad to say that Soilmaster has proven itself to be an ideal form of humus. Results following its use have been uniformly satisfactory and at times quite amazing.

We therefore take pleasure in recommending the use of Soilmaster. Inasmuch as it is taken from the natural soil deposit, there seems to be no danger of overfeeding or burning in its generous use.

Sincerely yours,

The Davey Tree Expert Company,
Signed, M. L. Davey, President.

Kent, Ohio.

Sodus Acid Humus

Rhododendrons and Blueberries, or any shrub or ornamental

Sodus Humus will hold moisture and has the same fertilizer value as Soilmaster—the only difference between the two is that one is sour and the other is sweet. We recommend this Humus for Evergreens, that requires an acid soil.

PRICE OF SOILMASTER & SODUS ACID HUMUS

Unusual and Charming Shrubs

TO ADD STYLE AND DIGNITY TO YOUR HOME PLANTING

Daphne
Cneorum

Acid-Loving Plants and Shrubs

BROADLEAF EVERGREEN and ACID LOVING SHRUBS, such as Azalea, Daphne, Mountain Laurel and Rhododendrons, grow best in an acid soil. This condition can be induced by application of aluminum sulphate, one-half to one pound, or sulphate of ammonia, one to three pounds, sprinkled evenly over a square yard of surface and spaded in.

Daphne Cneorum (Garland Flower). Very dwarf shrub, with spreading branches covered with blue-green leaves. Almost evergreen. Each branch and stem is tipped with dense cluster of rose-pink, deliciously fragrant flowers, in April and May, and at intervals during the summer.

Hardy but should be given a sunny location in northern states. Strong, 8-10 in. bushes, balled in peat and burlapped, at only \$1.10 each; 3 for \$2.80.

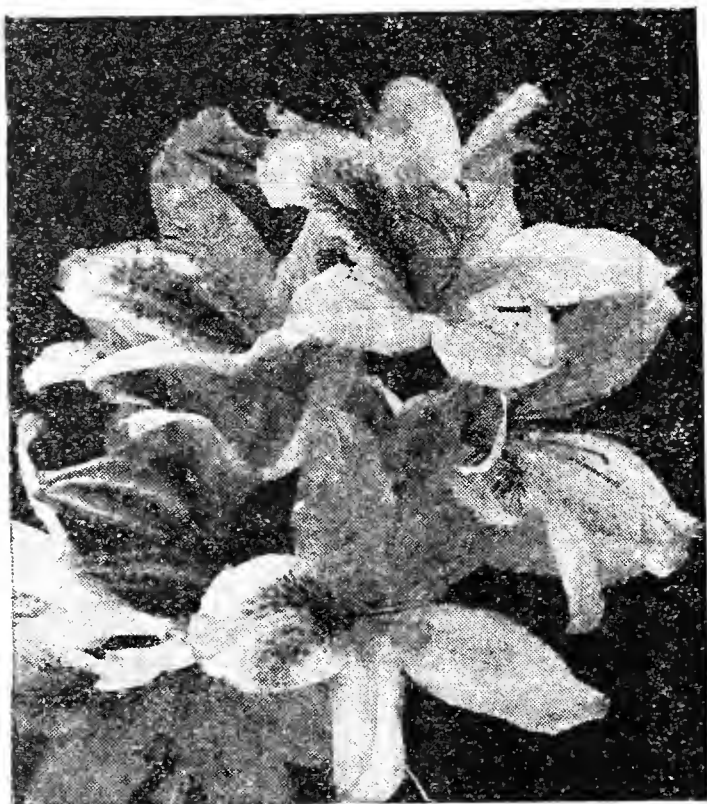

Hardy Azaleas Here is the assortment of color you have been waiting for. We are now pleased to offer the Azalea in four colors: shell-pink, scarlet, red, and yellow. Imagine your garden with this array of color in May—strikingly beautiful. The large, 2½-inch flowers appear in bunches at the ends of the shoots. Hardy. Grows about 2 feet high, and does well in both sunny and partially shaded locations. We can supply same in the following variety and colors: Nudiflora—shell-pink; C. B. Van Ness—scarlet; Babeuf—red; J. C. Van Tol—yellow. **SPECIFY VARIETY WANTED.** Price: Strong, 6-10 in. bushes, 50c each; 3 for \$1.25.

AZALEA MOLLIS—Yellow, orange, and red. Strong, 12-15 in. bushes, balled in peat and burlapped, \$1.40 each; 3 for \$3.70.

Rhododendron Maximum This is the most popular and grandest species and most used for massing and naturalistic planting of all broad-leaved evergreens. Flowers are in shades of rosy blush and white. Foliage very large and smooth. Blooms in July. 2-yr., 12-18 in. bushes, 50c each; 3 for \$1.25.

Rhododendron Catawbiense The hardiest of all Rhododendrons, can be successfully grown in northern climates. The Rhododendron is an ornamental shrub that will solve your problem for shady locations as it will grow and do well without much sunlight. In June, every branch has large clusters of rose-purple blooms 4 to 6 inches across. The foliage is the most beautiful of the Rhododendrons, is evergreen all year through. Guaranteed field-grown. Well-rooted, twice transplanted stock, 8 to 12 inches, 3 canes, only \$1.10 each; 3 for \$2.80.

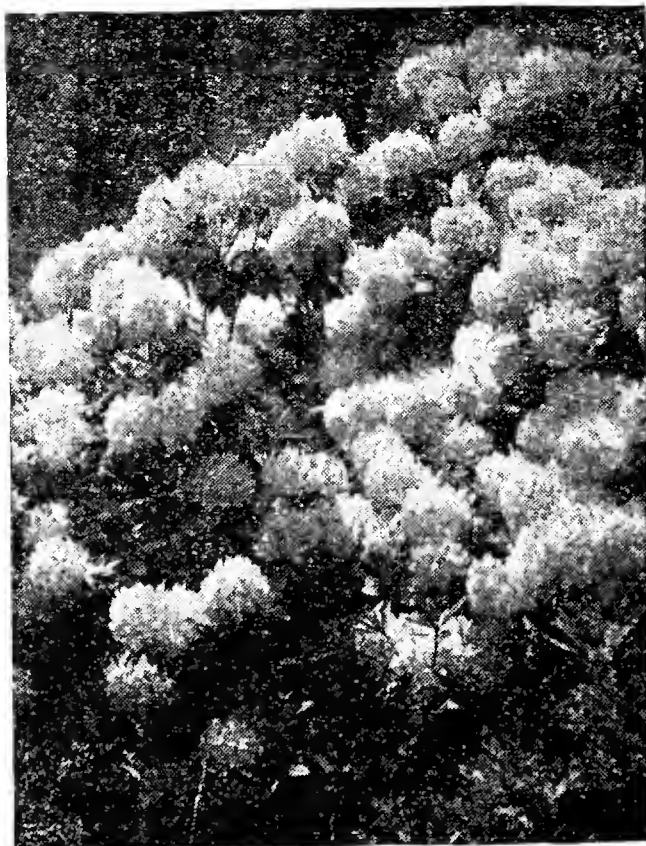

Mountain Laurel (Kalmia Latifolia). This matchless Laurel is, without question, one of the most beautiful and attractive of the broad-leaved evergreen shrubs on account of its dark green, lustrous foliage and masses of glorious pink or rose-colored flowers, appearing in lavish profusion in late spring and early summer (July); its quaintly formed flowers are borne in great trusses—even small plants are gay with them. Most impressive in masses. Strong, 12 to 15 inch bushes, 50c each; 3 for \$1.25.

REAL Aristocrats

American Holly (*Ilex Opaca*). An evergreen tree which has been acclimated to northern states. A moderate grower with spreading, short branches tapering upwards to a narrow head. Broad, oak-like, shiny Evergreen leaves with spiny teeth. Bush is covered with red berries in the fall, which remain on the branches nearly all winter. **Strong, 18-24 in. stock, only 75c each; 3 for \$2.00.**

American Holly

Blue Hydrangea Loveliest Novelty Ever Introduced. Immense blooms of most charming blue color imaginable. Flowers in great profusion. Blooms pink flowers on the one-year stems, followed by blue on the two-year wood. In other words, it is necessary to have the two-year-old wood to have the Blue Hydrangea. Cover in winter to protect from frost. **Fine, 8-12 inch bushes, 90c each; 3 for \$2.45.**

Blue Hydrangea

Witch-hazel (*Hamamelis Vernalis*). Something New! Flowers in the Winter. In January, February and March, great masses of orange and yellow bloom. Rarely exceeds six feet in height. Hardy, sweetly fragrant. An excellent new shrub for border planting or individual specimens. Would be an outstanding novelty in your town. **Fine, 1 to 2 ft. bushes, 35c each; 3 for 90c.**

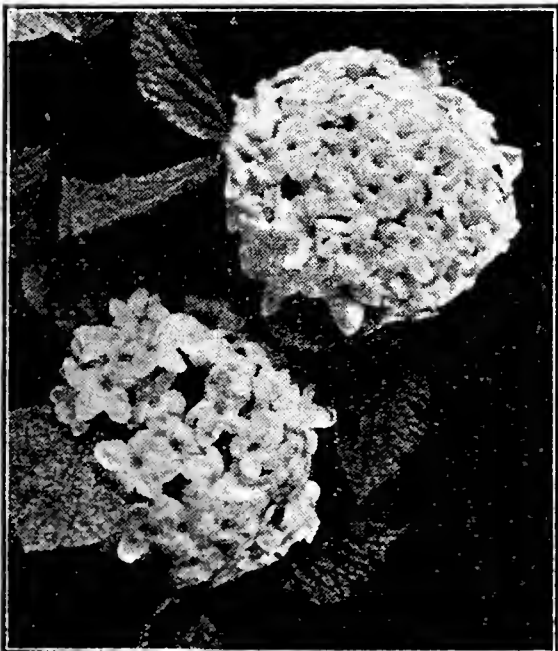

Pink Snowball (*Viburnum Carlesi*). New! Perfumed! Produces delicate, spice-scented flowers in May and June. The buds are an attractive pink, opening into clusters of pure white. The large flowers preserve their form and purity of color an unusually long time. Bush is low growing and of rounded form. **Strong, 2-year, 18-24 in. bushes, balled and burlapped, \$1.35 each; 3 for \$3.60.**

New Orange Buddleia (*Asclepias Tuberosa*). The only Butterfly plant with true orange flowers. During the months of July and August this unusual plant produces immense numbers of brilliant orange flowers. It can be successfully grown in any type soil in any locality. Withstands severe winters and hottest summers. **Fine, 12-18 in. plants, 35c each; 3 for 90c.**

Viburnum Lantana (Wayfaring Tree). Large gray-green leaves. Upright growth. White flowers in May, clusters of reddish black fruit follow blooming period. Grows 12 to 15 feet. Plant 5 to 6 feet apart. 2-yr., 18-24 in. bushes, 35c each; 3 for 90c.

New Orange Buddleia

Unusual and CHARMING

Tree Form Hydrangea P. G.

Beautiful, well developed trees of the true P. G. type that are ready to jump right in and grow. Good roots and plenty of branches. We don't need to tell you where to plant them—they're beautiful anywhere. Very large clusters of white flowers, changing to pink. A bargain at the price we ask. Heavy, 3-4 ft. trees, \$1.25 each; 3 for \$3.50.

Smoke Tree

(Purple Fringe; *Rhus Cotinus*). UNIQUE, spreading, treelike shrub with large leaves. Overhung

in midsummer by cloudlike masses of mistlike flowers having the appearance of smoke. Foliage

changes to a brilliant red and yellow in fall. Good as a

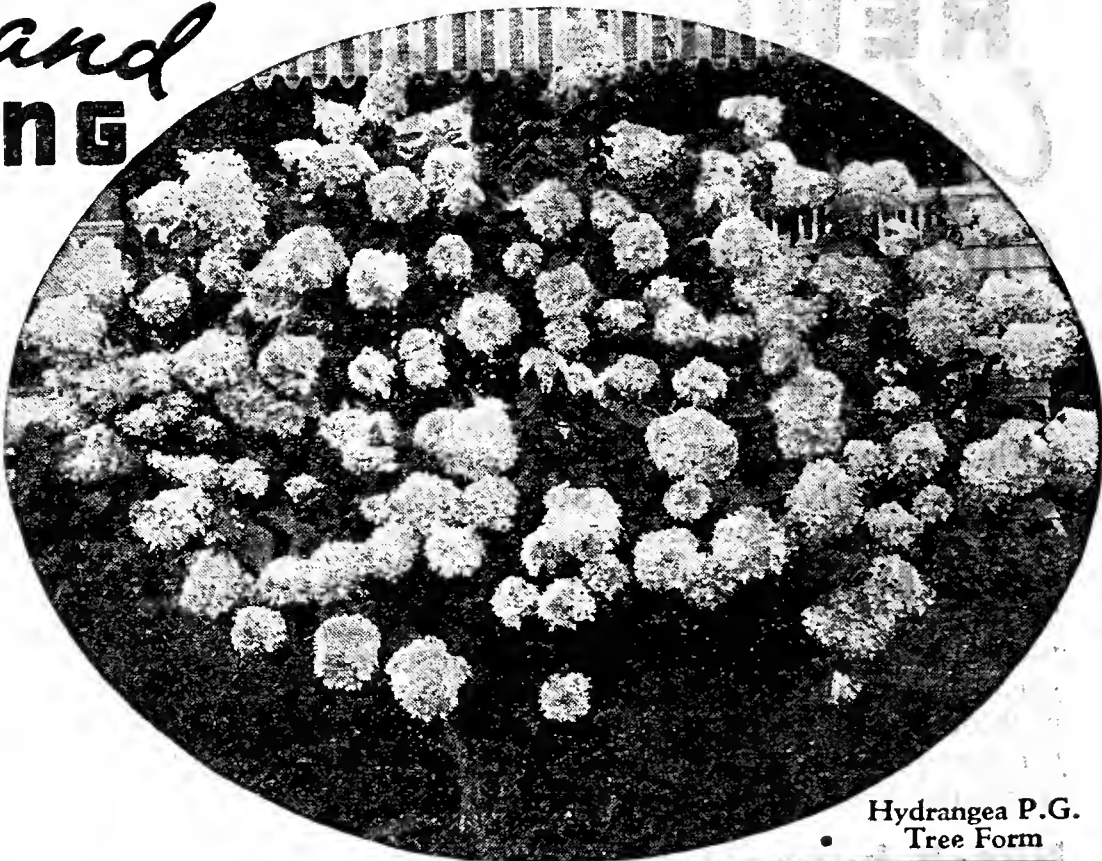

single specimen on the lawn, or to mass with tall shrubs. Fine, 15-18 in. bushes, 55c each; 3 for \$1.45.

Hydrangea P.G.
Tree Form

Korean Spirea

(*Trichocarpa*). A handsome new shrub acclaimed the best of all Spireas. Grows 4 to 6 feet tall, and forms a big dome-shaped bush covered in spring with large, rounded clusters of snowy flowers marked with darker eyes. Very hardy. More robust and blooms two weeks later than Spirea Van Houttei, and is far more desirable. Strong, 2-year, 18-24 in. shrubs, 45c each; 3 for \$1.20; or \$4.10 per doz.

Oak-Leaf Hydrangea

(*Hydrangea quercifolia*). Handsome 3-lobed leaves measuring 4 inches across, color to bright purplish red in autumn and remain until winter. Pyramidal white flower panicles measure 8 to 12 inches long. Blooms July. Grows 4 to 5 feet. Strong, 18-24 inch bushes, 45c each; 3 for \$1.20.

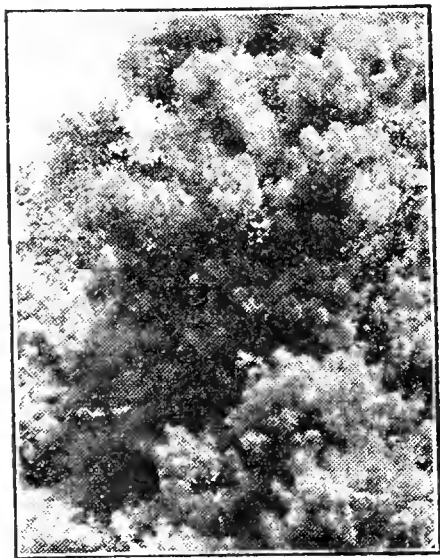

Philadelphus Virginalis

Wonderful new Mock orange. The most beautiful white-flowering shrub that has been introduced for many years. Has very large, semi-double blooms, pure white, sweetly scented, appearing in clusters of six or seven. Closely resembles a bride's bouquet of orange blossoms; ranks among the best for cutting. Vigorous, tall grower, used with striking effect as a hedge; also makes fine individual specimens. Heavy, 2-year, 2-3 ft. bushes, 45c each; 3 for \$1.20; or \$4.10 per doz. Fine, 2-yr., 18-24 in. bushes, 35c each; 3 for 95c.

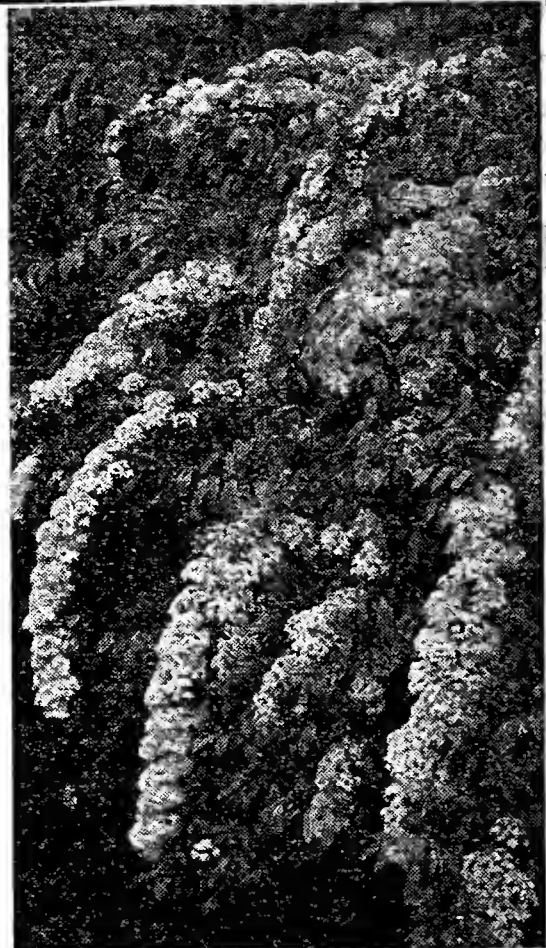

Beauty Bush

(*Kolkwitzia amabilis*). Exquisite! New shrub from China. Covered early in May with the utmost profusion of small, bell-shaped, clear pink flowers with brownish spots and veins. The tiny rose-colored buds are fascinating hooded with fuzzy jackets which remain to decorate the seed pods. Graceful the year 'round, and perfectly hardy.

Strong, 2-yr., 15-18 in. bushes, 50c each; 3 for \$1.35; \$4.70 per doz.

Smoke Tree

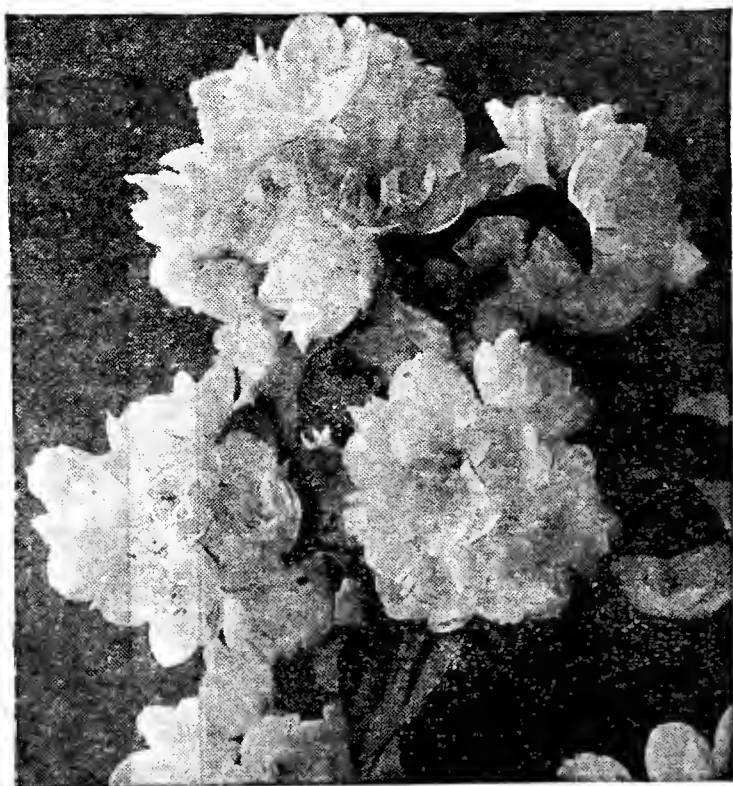

Korean Spirea

Beauty Bush

Oak Leaf Hydrangea

Philadelphus Virginalis

Blue Spirea

Golden Spirea

Chaste Tree

COLORFUL Flowering Shrubs Each a Beauty

Yellow Ninebark Golden Spirea

This is a very vigorous Spirea. Striking white blooms. The leaves of this variety are a golden yellow. After the flowering season is over, the flowers are followed with orange colored pea pods. Strong, 2-yr., 18-24 inch shrubs, 35c each; 3 for 90c; or \$3.00 per doz.

Blue Spirea (*Caryopteris mastacanthus*). The perennial shrub with aromatic leaves. Its habits are similar to the Butterfly Bush; that is, the tops die down to the ground every year but the roots are perennial. It grows upright and has a globose, very compact habit of growth. It rarely grows more than 2 feet in height. Beginning in September, it is completely covered with clear blue flowers until frost—a very rare color in flowers at that time of the year. It is extremely showy. Splendid as a fall cut flower. Strong plants, 45c each; 3 for \$1.20.

Chaste Tree (*Vitex macrophylla*). Lovely lavender-blue flowers. A color rare in hardy shrubs. Blooms from July till frost. Succeeds anywhere; grows 6 feet tall. Strong, 2-yr., 2-3 ft. bushes, 75c each; 3 for \$2.00.

Ile de France New! Purple Buddleia. Rich purple color. Tall flower spikes, often a foot tall. This variety greatly surpasses all other Buddleias for brilliance of color, grace of flower spikes, and uniform habit of growth. Blooms from August to late fall. Strong plants from 2½ in. pots, 45c each; 3 for \$1.20.

French Lilacs Until you have seen these new Lilacs you cannot realize how beautiful they are. They are perfectly hardy. They commence blooming very young, generally the next year after planting. We offer them in the four best varieties, as follows:

ALPHONSE LAVALLEE. (Double). Clear lavender-violet, deeper without than within.

JAN VAN TOL. (Double). Pure white. Very large trusses and a very good grower.

MICHEL BUCHNER. (Double). Exquisite pink-lilac buds, merge into blue when open.

PRES. GREVY. (Double). Large trusses of blue flowers. A great favorite.

Above four varieties, strong, 2-yr. bushes, 45c each; 3 for \$1.20.

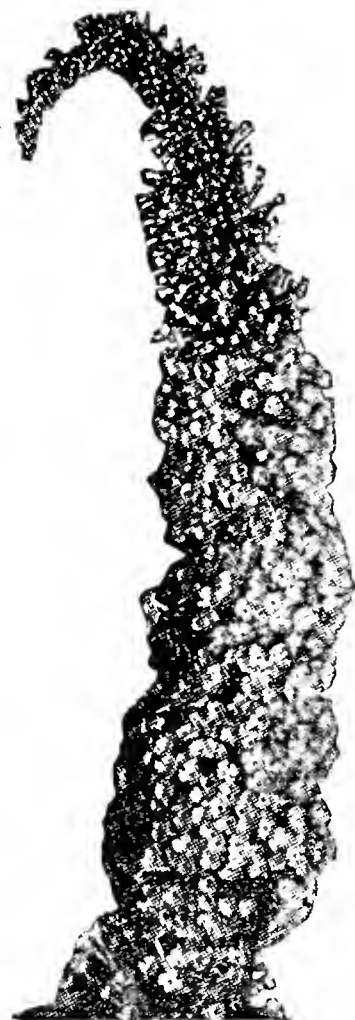

Buddleia Hartwegi

New! The finest of all the summer-flowering Buddleias. As a summer cut flower plant and as an ornamental lawn shrub, it is unsurpassed in beauty and usefulness. The flowers do not sunburn as do other Davidi varieties, and the tip flowers before the basal flowers have faded. Deep lavender coloring, extra long spikes. The foliage is very heavy and rich dark green. Does not winter-kill. Similar to New Fortune. Strong plants from 2½-inch pots, 55c each; 3 for \$1.45.

Althea—Rose of Sharon

Buddleia, Bridal Bouquet

Deutzia, Pride of Rochester

Field Grown Shrubs

ALL STRONG 2 TO 3 YEAR OLD WELL ROOTED

Althea (Rose of Sharon). Beautiful treelike shrub, blooming late in August and September with a profusion of large and brightly colored flowers. Grows 10 to 12 feet high. Attractive as a specimen or for hedges. Your choice of white, purple, red or pink. All double flowering.

SPECIAL. Mixed colors Althea, 2-year, strong bushes. 15c each; 6 for 85c; 12 for \$1.65; or \$12.00 for 100. Remember, if certain colors are wanted, they must be bought at the 30c price.

Buddleia, Bridal Bouquet Very hardy. Has both hardy tops and roots. It is a three-point beauty, having beautiful foliage, flowers and form. Beautiful lavender flowers appear in profuse clusters, with leaves appearing alternately, all along the slender, graceful drooping stems. REMEMBER—it does not die down during the winter like other Buddleias.

Deutzia, Pride of Rochester Large, white flowers tinged with rose. Profuse bloomer. Very hardy. Grows 6 to 8 feet tall, useful for specimens or background.

Purple Lilac It is hard to outclass this old-fashioned purple Lilac. Early prolific bloomer, very fragrant. Very fast grower.

Forsythia Intermedia Earliest blooming. Lights up the garden with masses of yellow flowers, often before the snow is gone. Tall grower.

Mock Orange (Philadelphus Coronarius). Tall, hardy and vigorous. Blooms in May, in graceful sprays of large, white, fragrant flowers. Grows 8 to 10 ft. tall.

Weigela Rosea Beautiful pink, trumpet-shaped flowers May to July. Grows 5 to 6 feet tall. A good shrub; good flowers, good foliage, easy to grow.

Red Snowberry (Symphoricarpos vulgaris). Often called Coralberry or Indian Currant. Similar to White Snowberry but with red berries.

White Snowberry (Symphoricarpos racemosus). A desirable shrub with small, pink flowers, followed by large, white, waxlike berries, which hang on the plant through most of the winter. Is very showy and succeeds everywhere. Does well in shade. Grows 3 to 4 feet tall.

Honeysuckle, Tartarian Pink

Bright pink flowers, followed by red berries in the fall. Bushy, upright. Grows 8 to 10 feet high.

Tamarix

Dogwood

Rose-Acacia

High Bush Cranberry

High Bush Cranberry (*Viburnum Opulus*). Magnificent shrub, of upright spreading form, with smooth, light gray branches and broad, oval, 3-lobed, bright green leaves. Produces small, white flowers which are borne in broad, flat clusters surrounded by a ring of large, sterile flowers. These are followed by very showy scarlet berries, which cling to the bush all winter. Grows 8 to 10 feet tall.

Dogwood (*Redtwig*). One of the best native shrubs; free flowering; very handsome when in bloom, and with its white berries on red stems in the fall. Grows compactly, 6 to 10 feet in height.

Tamarix Africana Tall shrub, 8 to 10 feet high, with fine feathery foliage and small, bright pink flowers, in slender racemes in April and May. Splendid for planting in damp or other places.

Golden Elder (*Sambucus nigra aurea*). A variety with golden yellow foliage and large, flat clusters of white flowers. Contrasts beautifully when planted with green-leaved shrubs. Grows 6 to 8 feet high, but should be pruned back severely each spring to secure denser and bright foliage.

Hypericum Aureum (*Golden St. Johnswort*). A showy shrub of stiff, dense habit, foliage bluish; flowers, golden yellow, from August to October. Prefers moist soil.

Japan Quince (*Burning Bush*). Very early in the spring this fine, attractive shrub is completely covered with dazzling scarlet flowers, followed by small, fragrant, quince-shaped fruits. Foliage is dark, glossy green. Very desirable for single specimens, also hedges.

Snowball Well known favorite. Lovely white flowers, which appear in numerous, compact balls. Valuable for specimen plants and also for grouping and massing.

Rose-Acacia (*Moss Locust*). Elegant shrub, with light green pinnate leaves, and long, graceful clusters of pea-shaped, rose-colored flowers in June and often later. An attractive addition to any planting.

Spirea Van Houttei The flowers are pure white, and borne in dense clusters along the whole length of the branches. Excellent as a hedge plant or for grouping. Well branched, 2-yr., 12-18 in. bushes, 8c each; 6 for 40c; 12 for 65c; or 50 for \$2.50. 2-yr., 18-24 in. bushes, 14c each; 6 for 65c; 12 for \$1.15; or 50 for \$4.25. Heavy, 2-3 ft., bushes, at 20c each; 6 for \$1.00; 12 for \$1.85; or 50 for \$5.50.

Calycanthus The Sweet-Scented Shrub or Strawberry Shrub; also called Chocolate Shrub and Carolina Allspice. Flowers very double, a brownish purple in color, and deliciously fragrant. Blooms nearly all Summer, and is one of the most desirable shrubs; even the roots are very fragrant. Attains a height of 8 to 10 feet.

Field Grown Shrubs

ALL STRONG 2 TO 3 YEAR OLD WELL ROOTED

Any Shrub on This Page—

Flowering Almond, Pink Early spring-flowering shrub, usually in full bloom before leaves appear. Growth dwarf and bushy, compact, with slender branches. Fine plants to use in grouping or for lawn. Flowers are very showy, and produced in great abundance.

Hydrangea A. G.

Spirea Douglasi

Another handsome, new, pink Spirea that you will want to include in your plantings. Upright in growth, with reddish brown branches and narrow, oblong green foliage. Bears spikes of beautiful deep rose colored flowers in July. 6 to 7 feet at maturity.

Hydrangea P. G.

Use this variety for showy bloom and elegant effect. This lovely, showy shrub produces in abundance during August and September, clusters of white flowers which gradually change to pink. Valuable for winter decorations if flowers are allowed to dry on bush. Useful for foundation planting or for massing in borders. Hardy, easy to grow and blooms the first season planted.

Hydrangea A. G. (Hills of Snow). Large, flat clusters of white blooms from June to September. The most hardy of the Hydrangeas, and especially useful for shady places. Excellent for solid low borders or in foundation planting. Very popular shrub.

Hydrangea P. G.

No planting is complete without Hydrangeas. They are unsurpassed for showy bloom and elegant effect.

Spirea Douglasi

Red Chokeberry (Aronia arbutifolia). Pretty white flowers in April and May, with bright red berries and foliage in autumn. Grows to 6 feet at maturity. Plant 5 feet apart.

— Any Shrub on This Page

Weigela Floribunda

A beautiful, comparatively new shrub, with large, showy red flowers appearing in profuse clusters and almost hiding the glossy green leaves. Commences blooming early in spring, and continues all summer. This attractive shrub should be in every border planting.

Weigela, Variegated

Sprays of rosy pink flowers like Floribunda except they are deep pink. Leaves are beautifully variegated green and white.

Grows only 2 to 3 feet high. Very beautiful.

Weigela Floribunda

Russian Olive

Rugged, tree-like shrub, growing 10 to 12 feet high. Foliage is a beautiful, silvery gray, contrasting sharply with other shrubs. Flowers are deep golden and very fragrant, followed by ornamental yellowish brown fruits with silver scales.

Siberian Pea Shrub

Tall shrub, 10 to 12 feet high, with bright green compound leaves and many small clusters of yellow flowers in May and June. Useful for group or background planting. Hardest and best hedge shrub for the Northwest.

Variegated Weigela

Russian Olive

Lilac, Persian Purple

A decided improvement over the common Lilac. A shrub with slender, arching branches, attaining a height of 5 to 10 feet. The foliage is small, the flowers bright purple. Blooms in May and June. A much more profuse bloomer than the common, and does not sprout so much from the roots. We consider the Persian much preferable.

Deutzia Crenata

Here is a Deutzia that is different, and one which should be included in every planting. Beautiful, double pink flowers thickly stud the graceful,

upright branches in May. Mature to 3 to 5 feet.

Philadelphus Aurea

(Golden Syringa). This variety is considered to be the best medium golden-leaf shrub. Beautiful shrub, growing 3 feet high. Fragrant white blooms, dense yellow foliage. Fine to give contrast in shrub planting.

Philadelphus Aurea

Mugho Pine

Evergreens

Big Size and Baby Size

Our Big Size Evergreens are large enough for immediate effect. Their roots are carefully balled in damp moss or peat, to cut down on weight, and then wrapped in burlap. This insures safe transplanting. Each will weigh from 10 to 15 pounds, and can be shipped by parcel post or express.

Mugho Pine Genuine true dwarf type. Growth is dense and plants are thickly covered with heavy, dark green needles. Never grows over 4 to 5 feet tall, but spreads out 6 or more feet in diameter when full grown. Balled in moss and burlapped, 15 x 18 inch trees, XXX, \$1.90 each; 3 for \$4.95. Baby size, 9 to 12 in., 40c each; 2 for 65c.

Irish Juniper Erect and slender, formal and columnar in form. Very compact, deep green foliage. When matured, this tree reaches a height of 6 to 7 feet, but it is never over 1½ feet in diameter. Popular for cemetery plantings as well as for landscaping home grounds. Balled in moss and burlapped, 18-24 inch trees, XX, \$1.40 each; 3 for \$3.75. Baby size, 10 to 12 in., 35c each; 2 for 60c.

Colorado Blue Spruce Most popular and showy of all Spruces. Glistening silver foliage. Very hardy, good grower, withstands severe winters and excessive moisture, and is very easily transplanted. When dormant the tree acquires a somewhat greenish cast, but as soon as the new growth makes its appearance, clothing it in a deeper cast of blue, the full beauty of this glorious tree can be appreciated to the utmost. Balled in moss and burlapped, 18 to 24 in., XXX selected specimens, only \$2.90 each; 3 for \$7.50. Baby size, 8 to 12 in., 35c each; 2 for 60c.

Norway Spruce Fine for windbreaks and hedges; equally good for groups or specimens. Tall, rapid grower. Most popular for Christmas trees. Selected specimens, 5 to 6 ft. tall, balled in moss, only \$3.00 each; 2 for \$5.00. Baby size, 10 to 12 in., 30c each; 2 for 50c.

Pyramidal Arbor-Vitae Densely columnar type, compact and erect. Foliage is deep green. Height matured, 12 to 15 feet. Most popular pyramidal tree on the market. Balled in moss and burlapped, 24- to 30-in. trees, XX, \$1.80 each; 3 for \$4.60. Baby size, 8 to 10 in. diameter, 40c each; 2 for 70c.

Woodward Arbor-Vitae This splendid globe Arbor-Vitae is rapidly becoming one of the most popular varieties. This is due to the fact that it maintains itself well under all conditions, and keeps the globe habit without trimming. Seldom attains a height of more than 3 feet. Foliage is dense, and of deep sea green shade. Balled in moss and burlapped, 12x15 in. specimens, XXX, \$1.25 each; 3 for \$3.00. Baby size, 6 in. diameter, 40c each; 2 for 70c.

Pfitzer's Juniper Extremely popular. Thrives anywhere. One of the few Evergreens that will withstand considerable shade. Color is deep green, with a grayish cast. Should be in every Evergreen planting. Balled in moss and burlapped, 18 to 24 in., XXX, only \$2.25 each; 3 for \$6.00. Baby size, 6 to 10 in., 45c each; 2 for 75c.

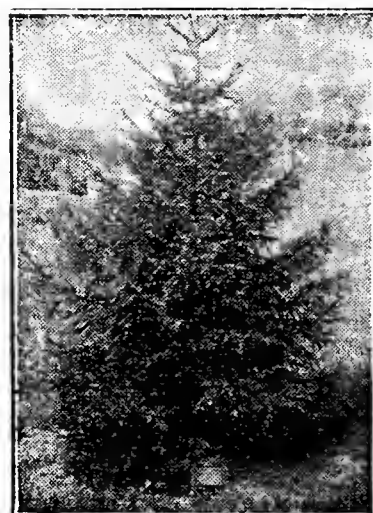

Concolor Fir Blue tinged, showiest of all Firs. One of the most attractive evergreens in winter. Retains its lower branches, has no insect enemies, and is the best Fir tree to withstand heat and drought. Its large, flat leaves, thickly disposed on the branches, are very noticeable, giving it a dignified appearance. No evergreen planting is complete without Concolor Fir. Balled in moss and burlapped, 18 to 24 in. trees, XXX, only \$2.50 each; 2 for \$4.50. Baby size, 6 to 8 in., 45c each; 2 for 75c.

The NEWER Evergreens

Japanese Yew (*Taxus Cuspidata*). The Japanese Yew we offer is the upright, branched form which develops a leader; has the typical, waxy, shiny, green leaves of Yews. Scarlet red berries in autumn. As it is a very slow grower compared to some types of evergreens, it is a very desirable tree for foundation groups, or formal gardens. It is ideal for positions where trees must remain for many years with little attention, such as cemetery lots. Exceptionally hardy and does very well in partial shade. Balled in moss and burlapped, 18 to 24 in., XXX, only \$2.75 each; 2 for \$5.00. No baby size in this variety.

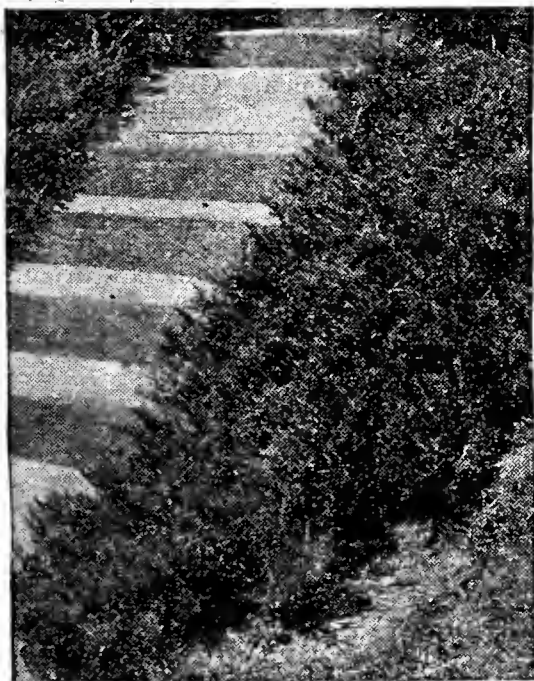

Japanese Yew

Biota Aurea Nana

A very compact slow-growing dwarf type, valuable for foreground and edging. The flattened leaf-clusters face outward edgewise, presenting a beautiful surface of vertical fluted lines. Color is a fresh yellow-green. Balled in moss and burlapped, 12 x 15 in., XX, only, \$1.55 each; 3 for \$4.00. No baby size in this variety.

Meyer Juniper

Andorra Juniper

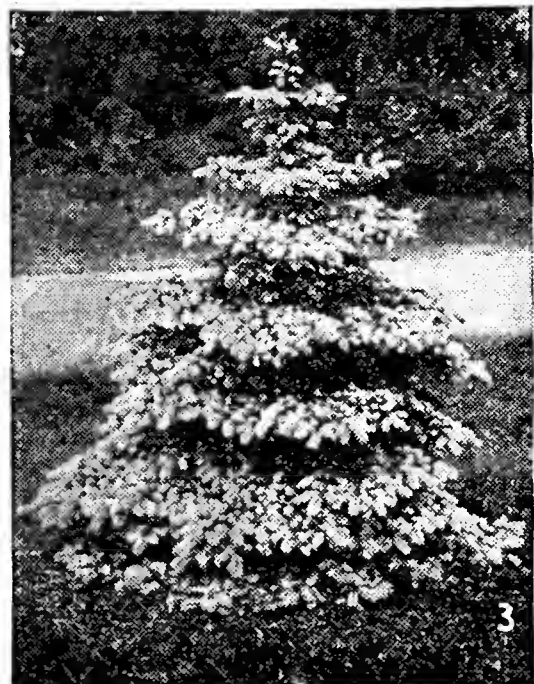

Andorra Juniper (*Junip. communis depressa plumosa*). This handsome, dwarf Juniper will give distinction to your evergreen planting, its low spreading branches covered with silvery green foliage in the spring and summer, turning at the first touch of frost to a beautiful mauve-pink. Very hardy. Balled in moss and burlapped, 12 to 15 in., XX, only \$1.75 each; 2 for \$3.00. No baby size in this variety.

Meyer Juniper (*Juniperus Squamata Meyeri*). The thick, handsome foliage, pointed and prickly, has a rich, shining blue color, with often a tinge of purple in the sunlight or rays of green and silver. 2 to 4 feet at maturity. Balled in moss and burlapped, 12 to 15 in., XXX, specimens \$1.75 each; 2 for \$3.00. No baby size in this variety.

Silver Cedar (*Junip. Virginiana Glauca*). The glaucous blue color especially attractive during the spring growing season, but striking blue at all seasons. Rapid grower. Long, slender branchlets produce a graceful effect. A little pruning induces a compact, formal shape. 15 to 20 feet at maturity. Balled in moss and burlapped, 18 to 24 in., XXX trees, only \$1.75 each; 2 for \$3.00. No baby size in this variety.

\$3.55 Net, Not Prepaid

Moerheim's Blue Spruce

The finest Blue Spruce. Much bluer than either Koster's or Colorado Blue Spruce. Grows straight and shapely. Originated in Holland. Balled in moss and burlapped, 2 to 3 ft., XXXX, selected specimens, only \$4.50 each; 2 for \$8.00. No baby size in this variety.

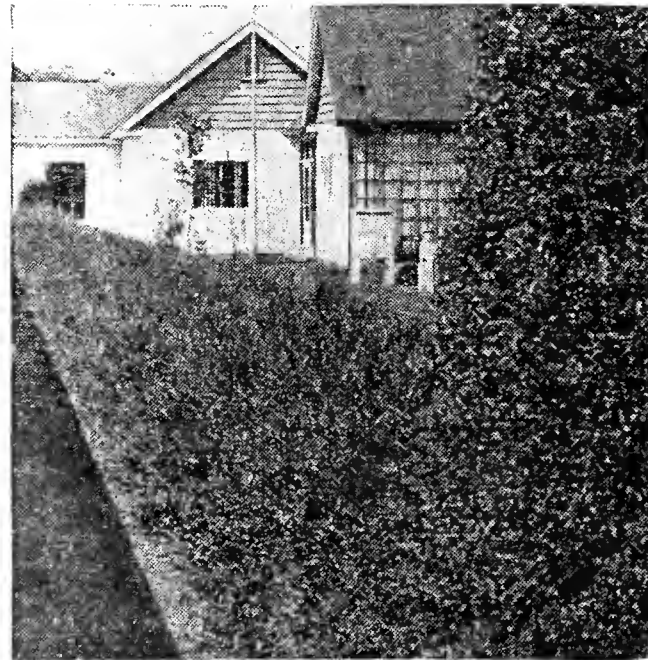

HEDGE PLANTS

Canadian Hemlock (*Tsuga Canadensis*). Although the Hemlock is an evergreen, it is so widely used for hedging purposes that we are listing it along with our Hedge plants. A remarkably graceful and beautiful native tree, with drooping branches and delicate foliage like that of the Yew; distinct from all other trees. The finest evergreen in heavy shade, both beautiful and dependable wherever used. Its refined foliage is lacy, close-set and darkly lustrous, in rather flat fronds which droop gracefully. Although capable of great height, it is best known as a moderate grower adapted to severe pruning; used at corners, or as foundation screens; or in formally sheared high hedges. The picture at the right illustrates what a beautiful, compact hedge you may have with this evergreen; excellent to hide those unsightly views.

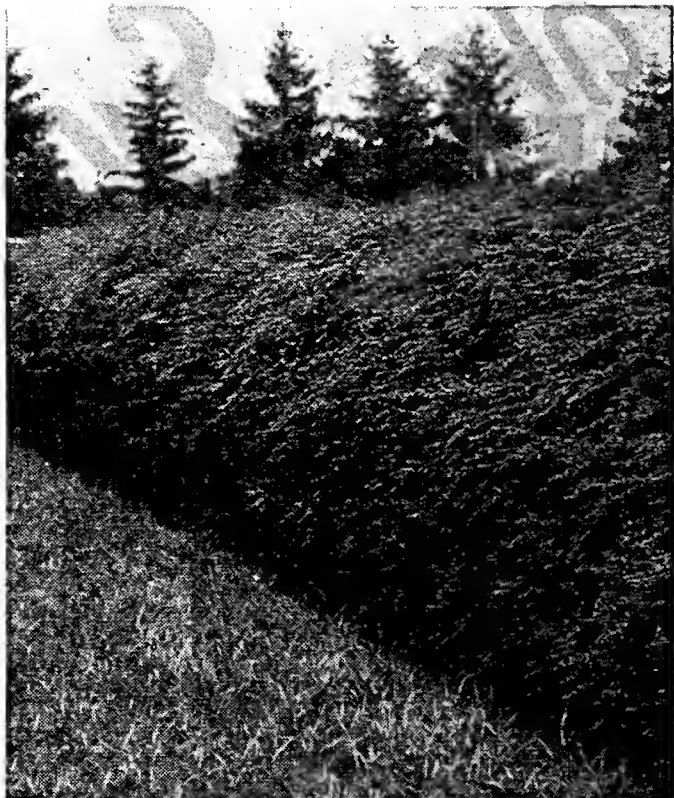

Red Barberry Similar to Barberry Thunbergi in all respects except color. True red-leaved Barberry as the stock we have to offer is grown from cuttings instead of seed. Our stock of plants is grown in 2 1/4 inch pots from cuttings, making a much more fibrous root growth than those grown in beds; these plants will start faster and make more growth than the common Barberry seedling. Also, if grown in this manner, you are assured of genuine red Barberry.

Russian Mulberry Hedge

Chinese Elm Hedge

Canadian Hemlock Hedge

Russian Mulberry Hardy in all states—never winter-kills. Superior to other kinds, as it makes a dense hedge from the ground up. Unlike most other hedging varieties as to growth and shape of leaves; very attractive foliage, making an outstanding and beautiful hedge, altogether different than old common varieties. Cannot be surpassed for tall hedges to hide unsightly views, or can be pruned to any height desired. Be the first in your locality to get started with this outstanding hedge. **NOTE ACTUAL PHOTO.**

Amoor River North Privet One of the best hedge plants because of its extreme hardiness. It is of similar form and habit to the well known California type, but much hardier. Of fine, upright growth with lustrous dark green foliage, nearly evergreen. Grows quickly, making a hedge the first year, and succeeds in practically all soils. Especially valuable for hedges and borders in cold exposed locations. When planting, cut back to 4 inches above ground to make hedge bushy at bottom.

Chinese Elm Hedge Chinese Elm makes one of the finest of hedges. Especially desirable for states of light rainfall and where extreme hardiness is required. The hedge, limbs clear to the ground, is a bright rich green from very early in the spring, as it is much earlier than other hedges and carries its foliage, which colors with frost, way into the fall. Trim same as Privet or other similar hedges.

Japanese Barberry (*Berberis Thunbergi*). Immune from rust. Dwarf growing, uniformly bushy and rounded in form, numerous leaves covering thorny twigs. As a filler edging for shrubbery, as foundation screen in front of porches, as a hardy, low hedge, it is unsurpassed. Foliage bright, rich green, turning to a blaze of gold and crimson in autumn. Small creamy white flowers, followed by oval, red berries, which gleam along every branch in late fall, and far into winter.

Japanese Barberry Hedge

CLIMBING VINES

Bittersweet

Honeysuckle, Heckrotti

New! The Wonder plant of the Century. Ever-blooming. A Lonicera that will fill that long-felt need of a variety that will produce continuous bloom. Blooms all summer with beautiful red flowers. Very highly scented. Wonderful foliage. We feel sure that you will not regret placing several of these in your order, for this wonderful vine will give you everlasting joy. 2-year, No. 1 vines, 45c each; 3 for \$1.15.

Honeysuckle, Hall's Japan

Strong, vigorous vine, with pure white flowers changing to yellow. Extremely fragrant, and blooms all summer. 2-year, No. 1 vines, 25c each; 3 for 60c.

Honeysuckle, Yellow Trumpet

The extra large flowers are arranged in large clusters on a vigorous and attractive vine. They are tubular, widely expanding at the mouth, and their brilliant golden yellow color is enriched by a vivid shade of bronzy red on the outside of the tube. Yellow Trumpet is a stronger grower; large, pale green leaves. Blooms in June. Strong, 2-year vines, 25c each; 3 for 60c.

Honeysuckle Heckrotti

American Bittersweet

Handsome, glossy foliage, and large clusters of beautiful, orange-crimson berries, remaining all winter. Charming for winter house decorations. 2-year, No. 1 vines, 35c each; 3 for 90c.

Clematis Jackmani

Immense flowers of an intense violet-purple color continuously throughout the summer. Strong, 2-year vines, only 85c each; 3 for \$2.40.

Clematis, Virgin's Bower

A very handsome, hardy climber, bearing small, thick, bell-shaped flowers, of bright coral-red, in wonderful profusion, from June till frost. 1-year vines, 25c each; 3 for 60c.

Clematis Montana Undulata

New! Exceedingly hardy! A very prolific bloomer, sometimes so many blossoms that they pile one on another and almost hide the rich waxy green foliage. Flowers are a delicate shell-pink, and very similar to beautiful Anemone blossoms; have pretty little, silky, yellow centers. This variety has been known to stand temperatures of 30 degrees below zero, unprotected. Strong, 2-year vines, only 85c each; 3 for \$2.40.

Wisteria

Boston Ivy

Kudzu Vine

Hardy. Large foliage and dense shade. Runs 30 to 40 feet in one season. Blooms in August. Rosy purple, pea-shaped flowers, in small racemes. 2-year, No. 1 vines, 25c each; 3 for 60c.

Boston Ivy

One of the finest hardy climbers for covering walls and trunks of trees, as it clings firmly to any surface. Deep green in summer, bright red in autumn. 2-year, No. 1 vines, 40c each; 3 for \$1.10.

Silver Lace Vine

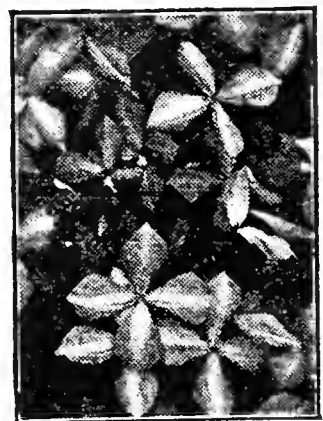

Unusually charming. Climbs gracefully anywhere. Grows very rapidly, averaging 25 feet in a season. A well grown specimen is a cloud of lacy, misty white shot with tints of cream and pale rose, of exquisite effect. Blooms late summer and fall. Strong, 2-year vines, 55c each; 3 for \$1.40.

Chinese Purple Wisteria

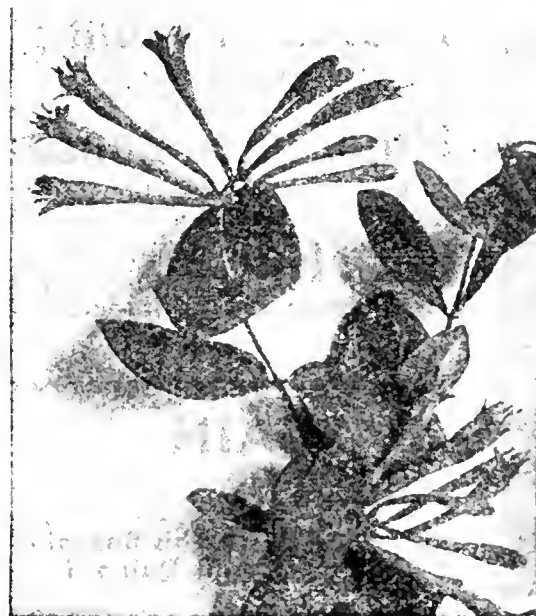

Elegant and very rapid growing. Has long, pendulous clusters of pale blue flowers in May and June, and in autumn. 2-year, No. 1 choice specimens, from blooming wood, 45c each; 3 for \$1.20.

Mrs. Henry Bowles A splendid, large, well-formed, high-centered, very fragrant flower of an intensely brilliant shade of pink with salmon shadings. A model Rose, perfect in every stage of development.

Talisman The most sensational rose of all times. Its brilliant orange-red buds open to large, fragrant, high-pointed blooms of glowing golden yellow stained with copper-red and orange-rose on inside of petals. As the petals unfold, they become bright apricot-gold, deep rose-pink or old rose, and unlike most Roses, the color becomes brighter as the flowers develop. Plants are vigorous, healthy and hardy growers.

Ami Quinard A variety which is here to stay, beats all others; best near-black Rose in our estimation. Deep velvety crimson, fragrant and very lasting. A vigorous shrubby plant, with almost single flowers of deep blackish scarlet. We know a trial order of Ami Quinard is sure to please.

Pres. Herbert Hoover Multi-colored. One of the best garden Roses. The tall, healthy plants produce large flowers of scarlet, yellow, cerise, pink and flame. A perfect Rose for cutting.

Mme. Nicolas Aussel This variety was voted an award of a Gold Medal as "The Most Beautiful Rose in France." Bright coppery red in the very long, shapely, tapering bud that develops into a large, full double flower of an exquisite opalescent salmon-pink. Free and continuous bloomer.

\$2.25 for 6

Chas. P. Kilham Long, pointed buds, open to double, finely formed blooms of coral-red with orange base. Sweetly scented. Free flowering. Vigorous growers.

Golden Dawn An ideal yellow garden Rose. The ovoid, lemon-yellow bud is heavily splashed with crimson before opening and develops into a well formed, sweetly scented, large, double, sunflower-yellow flower that reminds one of the old favorite Marechal Niel.

Olympiad A handsome new red Rose. Long, pointed bud of flame-scarlet, opening into a high-centered, fragrant blossom of good size, with recurving petals, borne singly on long, strong stems. Its unusual shade of red has a strong undertone of orange-yellow, flashing yellow at base of petals.

Mrs. E. P. Thom Best yellow Rose. Fine long buds open into perfectly shaped, open flowers of rich lemon-yellow which do not fade; sweetly scented. Very vigorous grower and continuously in bloom.

Mme. Jules Bouche A splendid white, at times slightly tinted with just a touch of tender blush-pink. Long, pointed, shapely buds and full double, fragrant, well-formed flowers. Vigorous grower, and a free bloomer.

E. G. Hill Beautiful long bud of perfect form and full, double, high-centered flower of dazzling scarlet shading to a deeper red as it develops. Strong, vigorous, free-flowering habit.

Dainty Bess An appropriate name for a daintily colored single Rose of perfect form. A delicate shade of shell-pink with a conspicuous bunch of crimson stamens. A greatly admired, long-lasting, single flower. Flowers are borne in clusters.

Ville de Paris Buttercup-yellow. This medal-winning Rose boasts the honor of being named for the City of Paris. Retains its beautiful color under all weather conditions; the pointed bud has a broad base and opens to a fairly large bloom.

Autumn Multi-colored. The short buds are deep burnt-orange, opening to medium sized, very double, fragrant flowers of the same burnt-orange, stained with red and orange at the edges and base of inner petals. Glossy, leathery foliage; disease-resistant. Free and continuous bloomer.

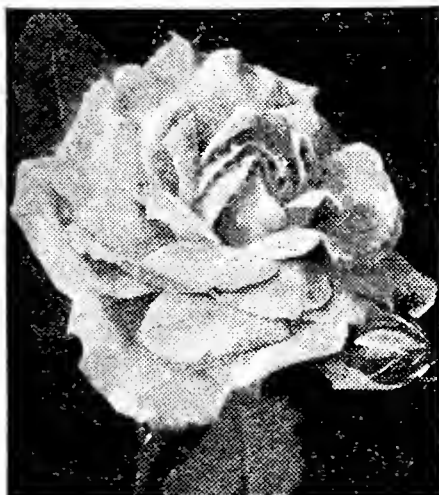

McGredy's Scarlet The finely formed bud is dull red and opens slowly into a magnificent, very large bloom of just "red" or deep pink, which lasts a long time. Color varies as to climate; in fact, one fall, after a wet summer, they were really scarlet. Slight Tea scent. A splendid Rose for cutting, as the perfectly formed flowers come on long stems.

Prices

Director Rubio If you want a rose with "a personality," here it is, for it is totally unlike any other Rose in form and vivid coloring, which is retained almost without fading until the petals drop. The color is cochineal-pink, and the fully opened, many-petaled, mammoth blooms, which are held erect on rigid stems, are often from 6 to 7 inches across.

Duquesa de Penaranda This beautiful Rose produces two distinct types of flowers. During the summer the pointed buds are a blend of apricot-orange and dark pink opening to splendid blooms of rich coppery apricot. In the autumn they are brownish in bud which open slowly to beautifully formed flowers that measure 4 inches in diameter. They are a luscious cinnamon-peach, too exquisite for words. The long-lasting blooms of 30 petals each are sweetly perfumed.

Federico Casas This lovely cut-flower is coppery pink and orange. Its continuity of bloom on erect, firm stems makes this an outstanding Rose. The gay colors illuminate this Rose and draw much attention. It comes from sunny Spain and is one of the choicest Roses we have received from the hands of the Rose wizard. This hardy Rose will provide you with quantities of bloom every year for years to come.

Editor McFarland The perfectly formed flowers are clear, brilliant, unfading pink, and as a cut flower it retains its form and lasts longer than any other Rose we know. A winner of many awards. The growth is vigorous, the foliage healthy, and it blooms all the time from early summer to frost.

Mrs. Sam McGredy A beautiful new rose. Coppery scarlet-orange flowers flushed dull red and of fine form, make this a Rose to rave about. It is double, with 30 to 40 petals, and richly fragrant. Bushy plants with red canes, red thorns, and beautiful reddish bronze foliage. Both plant and flower are very distinctive.

FAVORITE ROSES

ALL VARIETIES LISTED ON THIS PAGE:
40c EACH; 3 FOR \$1.15

DAME EDITH HELEN. (Hybrid Tea). Largest, most perfectly shaped and most perfumed pink Rose. Clear, glowing pink, from the time the bud opens until the petals fall. Blooms abundantly, with long, strong stems. Growth of bush is vigorous and thoroughly hardy. Wins praise and admiration everywhere.

ETOILE DE HOLLANDE. (Hybrid Tea). Large, velvety crimson flowers produced in great profusion throughout the summer. Deliciously perfumed. Vigorous, upright grower. Unquestionably a popular and excellent red Rose.

MISS ROWENA THOM. (Hybrid Tea). Large buds open to full blooms of perfect form, often measuring over 5 inches in diameter. The color is deep rose-pink with a yellow base to the petals which lights up the whole flower. Vigorous grower, splendid foliage, and blooms freely. Delicious fragrance.

MRS. PIERRE S. DU PONT. (Hybrid Tea). This Gold Medal winner has a medium-sized long-pointed bud of a reddish gold, opening to a semi-double, cupped, very lasting fragrant flower of a deep golden yellow. The plant is strong and vigorous.

JOANNA HILL. (Hybrid Tea). Extremely large, very long-pointed; flowers large, semi-double, full, unusually lasting, moderately fragrant, darker yellow than Sunburst, borne singly on long, strong stem. Beautiful foliage; few thorns. Vigorous grower; profuse bloomer.

CALEDONIA. (Hybrid Tea). Exquisite long buds of ivory-white, changing to purest white as the flowers open into large double blooms of soft velvety texture. The best white. Continuous free bloomer.

BETTY UPRICHARD. (Hybrid Tea). Deep toned carmine with coppery orange blend; interior mostly delicate salmon-pink. Very choice.

RED RADIANCE. (Hybrid Tea). Large, globular flowers of an even, clear red. Constantly in bloom. Very popular.

PINK RADIANCE. (Hybrid Tea). Extra hardy, vigorous and prolific. Blending of carmine-rose with shades of opal and copper.

GRUSS AN TEPLITZ. (Hybrid Tea). Bright scarlet, shading to velvety crimson; fragrant; free flowering.

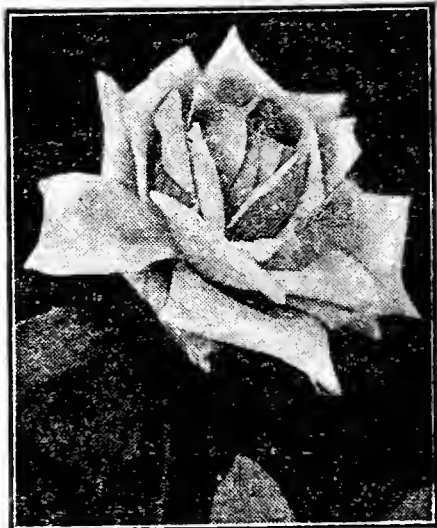

PAUL NEYRON. (Hybrid Perpetual). Largest Rose in cultivation. Color bright cerise-red, very fragrant. June until late October. Flowers full and double.

SOUV. de CLAUDIUS PERNET. (Pernetiana). Most satisfactory yellow Rose. Strong, sunflower-yellow, even deeper toned at center. Large flowers; buds long and pointed. Vigorous growing bush, with brilliant foliage.

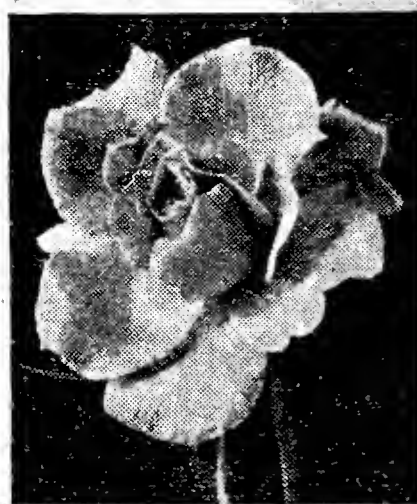

F. J. GROOTENDORST. (Baby Rambler Rugosa Rose). Typical Rugosa foliage and habit; compact, bushy growth. Bloom is in clusters of oversized, double red flowers, produced from early summer until fall. Valuable for either specimen or group planting.

- 1 Climbing Talisman

\$1.00 Net, Not Prepaid

Rosa Rouletti

(Swiss Rock Garden Rose)

This altogether charming little rose was once popular in the Alpine gardens of Switzerland; but like other favored flowers, disappeared. It has recently regained cultivation, and comes now to us as a welcome addition to our rockery and edging plants. Grows 6 to 7 inches high; dense, small foliage; 3/4-inch double, rose-pink flowers continuous from early summer until frost. **Strong, 2-yr., field-grown bushes, only 40c each; 3 for \$1.05; 6 for \$1.80.**

Rosa Rouletti

Paul's Scarlet The flowers, a vivid scarlet, are of good size, semi-double, very freely produced in clusters, on much branched canes. Blooms very long, holding flowers after many June bloomers have dropped their petals. **Strong 2-year, field-grown bushes, 35c each, 3 for 90c; 6 for \$1.50.**

American Beauty This climbing variety has delightful well-formed blooms of rosy carmine. Splendid foliage. Very fragrant. **Strong, 2-year field-grown plants, 35c each; 3 for 90c; 6 for \$1.50.**

Mme. Gregoire Staechelin

(Spanish Beauty). Charming new climber. Long, pointed buds flashing carmine opening into flowers of delicate pink. Long stems for cutting. Foliage very resistant to disease. **Strong, 2-year field-grown bushes, only 40c each; 3 for \$1.05; 6 for \$1.80.**

Scorcher Grand new climber. Flowers scorching, fiery red, large, semi-double. A great profusion of bloom in June with occasional recurrence during the summer. Very hardy and fast growing. **Strong, 2-year field-grown bushes, only 45c each; 3 for \$1.30; 6 for \$2.10.**

Jacotte Unusually attractive, fragrant flowers of orange-copper-apricot. Large flowers, clustered up to 10. Healthy foliage. **Strong, 2-year, field-grown bushes, only 45c each; 3 for \$1.20; 6 for \$2.10.**

Talisman No doubt the bush Talisman has attained the greatest popularity of any Hybrid Tea, and now this amazingly beautiful Rose comes as a climber. Beautiful two-toned shades of yellow and red. **Strong, 2-year, field-grown bushes, only 55c each; 3 for \$1.50; 6 for \$2.70.**

Above: Mme. Gregoire Staechelin
Below: Scorcher

Everblooming Baby Polyanthas

These are especially fine for solid beds and for borders. Also ideal for cemetery planting because they are so easy to grow and bloom so freely. Are constantly in bloom from early summer until freezing. Very hardy, growing everywhere and requiring very little care.

CHATILLON. Vivid-pink. Grows 18 in.

GLORIA MUNDI. Huge clusters of brilliant orange-scarlet. Grows 18 in.

KIRSTEN POULSEN. Large clusters of cherry-red. Grows 3 feet tall.

Any of above 3 Roses: 45c each; 3 for \$1.30; 6 for \$2.10.

Baby Polyanthas

Patented Roses

Guaranteed to live throughout the summer or we will replace all that die at 25c each, provided claim is made by October first, and is accompanied by Plant Patent Label. This is your protection.

BLAZE

U. S. PLANT PATENT No. 10

This hardy scarlet climber is a cross between Paul's Scarlet and Gruss an Teplitz. Blaze is seldom out of bloom. In the middle of August the bushes are covered with vivid scarlet flowers. **Strong, 2-year, field-grown bushes, \$1.00 each; 6 for \$5.00.**

Blaze

Countess Vandal

U. S. PLANT PATENT No. 38

A Hybrid Tea Rose, with long, pointed buds and large, double blooms, coppery bronze suffused with rich gold. Strong grower. **Strong, 2-year, field-grown bushes, \$1.00 each; 6 for \$5.00.**

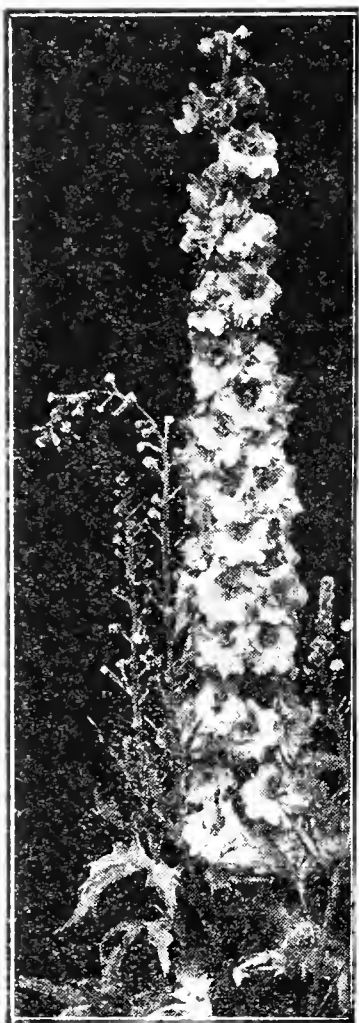

Texas Centennial

U. S. PLANT PATENT No. 162

A Hybrid Tea Rose, with long-shaped artistic buds, which open to richest blood-red ever introduced. A continuous bloomer. Very fragrant. **Strong, field-grown, 2-year bushes, \$1.00 each; 6 for \$5.00.**

Countess Vandal

Delphinium

Delphinium

(English Hybrids). Very choice. More delightful color tones and patterns. Among them occur the much prized shades of pink and white, besides the full range of blues; but no particular colors are guaranteed. Strong, field-grown plants, 22c each; 3 for 55c; 6 for \$1.00.

Tritoma (Red Hot Poker). Flaming scarlet flowers, the opened lower petals rimmed with orange. Mulch for winter protection. Strong, field-grown plants, 22c each; 3 for 55c; 6 for \$1.00.

Bleeding Heart

(Dicentra spectabilis). Hardy old favorite with heart-shaped, rose-colored flowers in drooping spikes. Strong, field-grown plants, with 3 to 5 eyes, 2-year, No. 1, 45c each; 3 for \$1.15; 6 for \$2.15; \$4.00 per doz.

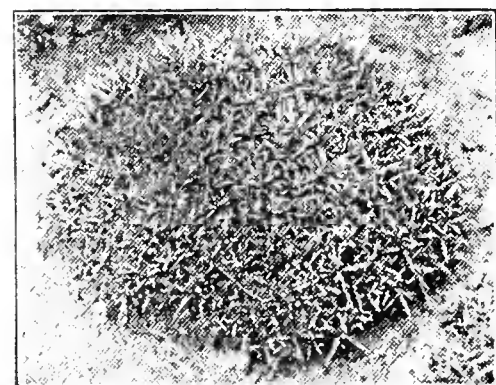

Aster, Star of Wartburg

A beautiful spring-flowering Aster, blooming about the same time as Peonies. Dark lilac-blue flowers with orange centers rise on one-foot stems in great numbers. The flowers are usually 2½ to 3 inches in diameter. This is one of the good new Asters of recent introduction. Strong, field-grown plants, 35c each; 3 for 90c; 6 for \$1.65.

Pink Dawn Dianthus

(Dianthus neglectus compacta glauca)

New! Something very unique in the line of Dianthus. It first appears all soft and fuzzy like a kitten; then in May hundreds of buds appear on short, straight stems that bristle out like the quills of a porcupine, and then, just before Decoration

"Fuzzy Kitten" Stage

Day, blooms appear, completely covering the cushion-shaped plant with dainty 1½-inch rosy pink flowers with crinkled edges. The foliage is blue-green, which remains evergreen all winter. Very hardy. The picture at the left shows this variety in the "fuzzy kitten" stage; and on the right, illustrates same in bloom. Strong plants, 30c each; 3 for 75c.

WHITTEN - Perennials

Oriental Poppies

EDNA PERRY. Large bright rose-pink.
MRS. PERRY. Orange-apricot; very beautiful.
WURTEMBERGIA. Extra large blooms of brilliant scarlet.
Strong plants, 30c each; 3 for 75c.

Blue Spires Veronica

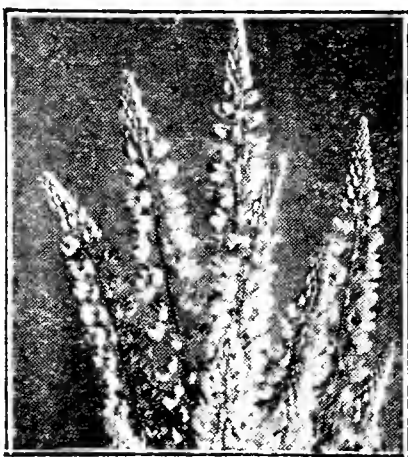

A Brand New Hardy Perennial! This beautiful plant has long bronze-green leaves, with numerous long spires of indigo-blue flowers. Blooms continuously from July to September, and is outstanding as to color, as it is the bluest of the blue. Field-grown plants, 25c each; 3 for 60c; 6 for \$1.10.

Ghost Plant

(Artemisia, Silver King). Fine background for lower plants of brilliant color. A hardy foliage plant of rare and indescribable beauty; bright silvery foliage. Very effective for use in bouquets. When cut, can be carried dry indefinitely without losing its color. Grows 2 to 2½ feet high; spread 18 inches or more. Very hardy, thrives in sun or shade. Strong, field-grown plants, 25c each; 3 for 60c; 6 for \$1.10.

Lupines

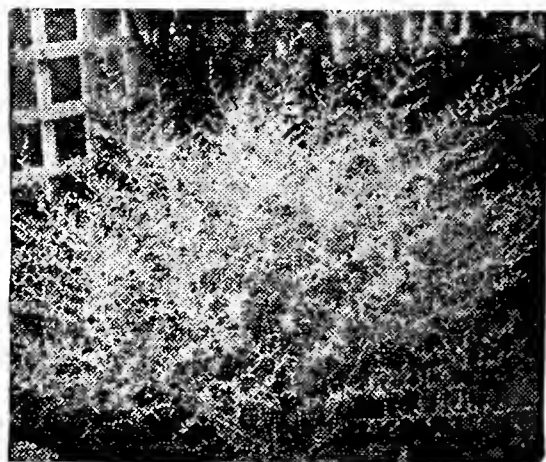

(Sweet-Scented Hybrids). One of the finest for borders. Handsome foliage, handsome, pea-shaped flowers. Delightful color tones of blue, rose and white; but no particular colors are guaranteed. Strong, field-grown plants, 22c each; 3 for 55c; 6 for \$1.00.

Lupines

Dianthus, Furst Bismarck

(New Hardy Everblooming Dianthus). Its double, rose-pink flowers resemble greenhouse Carnations. Is the hardiest and easiest grown, and most free blooming of any of the recently imported kinds. Delightful aromatic fragrance. Strong, field-grown plants, 30c each; 3 for 75c.

Pink Dawn in Bloom

ACKERMAN

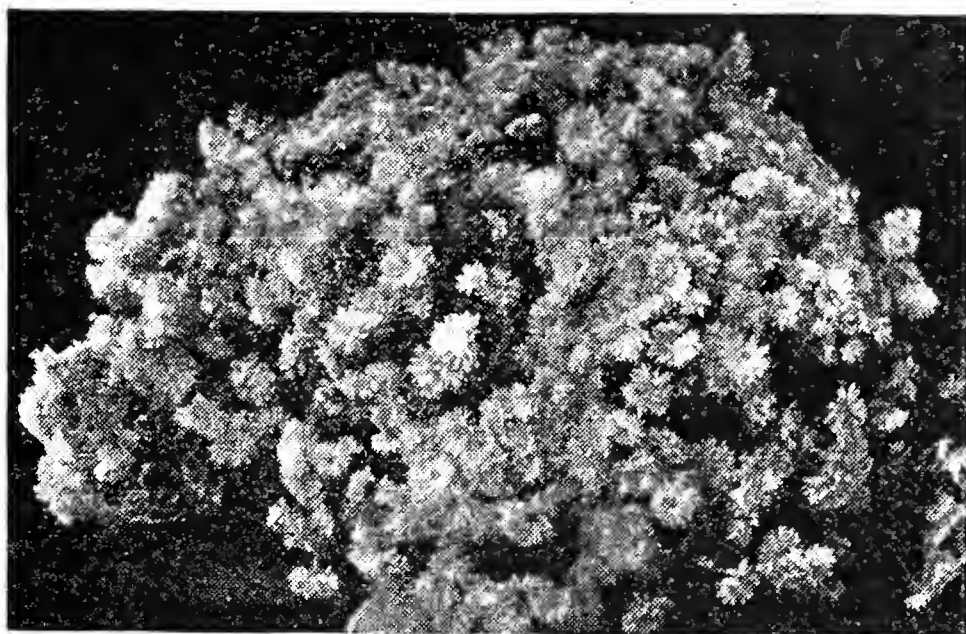

Chrysanthemums

New Korean Hybrids

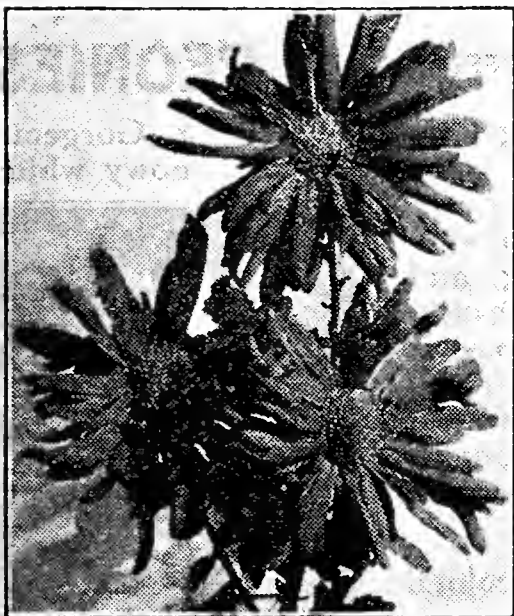

These Hybrids have been welcomed not alone for their dainty flowers and graceful plants, but particularly for their increased hardiness. The following varieties are especially fine for cold climates where ordinary Chrysanthemums winter-kill. Very attractive in color, early blooming, easier to grow.

- APOLLO.** Bronze-red and gold blended.
CERES. Old gold and chamois-yellow.
DAPHNE. Lilac-rose, with gold stamens.
DIANA. Rose, salmon and pink blended.
MARS. Deep amaranth-red, changing to wine-red.
MERCURY. Bronze-red and coppery bronze.

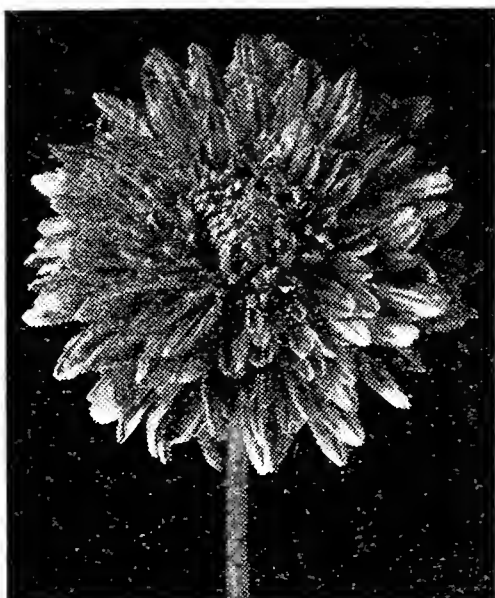

Strong plants, 35c each; 3 for 90c; or 6 for \$1.50.

Pink Cushion

New Korean Hybrids

Aladdin

PINK CUSHION. It makes a rounded, compact bush that from August to Thanksgiving is a mass of exquisite pink flowers, hundreds of flowers. It will be a beauty spot in your garden for years. Hardy, easy to grow. Similar to Azaleamum. Strong plants, 35c each; 3 for 90c; 6 for \$1.65.

The following two varieties are new plants, the growing habits of which are the same as that of the Pink Cushion; dwarf and bushy. A single stemmed plant is known to have up to 2000 flowers at one time. A fine pot plant as well as for the garden.

QUEEN CUSHION. White.

KING CUSHION. Brick-red.

Price: Strong plants, 35c each; 3 for 90c; 6 for \$1.65.

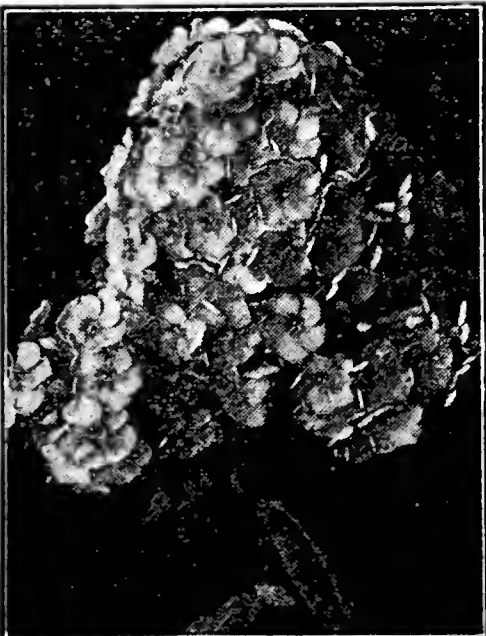

ALADDIN. New! Everblooming! July to frost. Exquisite coppery bronze, with an overlay of orange-apricot. Strong plants, 35c each; 3 for 90c; 6 for \$1.65.

Daily Sketch

Cannas

Cannas are the tallest of all bedding plants, their foliage is attractive in rich shades of green or bronze; flower trusses are large, free and brilliant. Following is a list of the best varieties.

- PRESIDENT.** Green leaves, scarlet flowers.
AMBASSADOR. Bronze leaves, scarlet flowers.
APRICOT. Green leaves, apricot shaded salmon flowers.
YELLOW KING HUMBERT. Green leaves, yellow flowers with red spots.
HUNGARIA. Green leaves, rose-pink flowers.
CITY OF PORTLAND. Green leaves, pink flowers.

PRICE, any six for 60c; doz. for \$1.00.

English Violets

(Viola Odorata)

Now you may have the much loved violet in your own garden. Bloom during May and June with beautiful purple flowers, and dark green foliage. Very hardy. Deliciously fragrant. Thrive in sun or shade. Ultimate height, 6 to 8 inches. Strong plants, 25c each; 3 for 60c; 6 for \$1.00.

Cannas

New Phlox

DAILY SKETCH. Unquestionably one of the showiest Phlox originated in years. Very large trusses with large flowers of soft salmon-pink with glowing carmine eye. Strong grower.

CAROLINE VANDENBURG. Striking parma-violet-blue; large individual flowers with enormous trusses. Nearest to blue in Phloxes. Very free-flowering.

HAUPTMAN KOEHL. Dark blood-red. Large clusters on strong, tall stems. Individual flowers large. Keeps color in heat and rain.

Prices, above three New Phlox, strong plants, 30c each; 3 for 75c.

PHLOX SUBULATA ROSEA (Creeping Phlox). Makes a beautiful blanket of pink during April and May. Foliage evergreen and mossy. Grows 4 to 6 inches high. The perennial you have been looking for to cover a bank or terrace, as well as an early flowering border plant. Strong plants, 22c each; 3 for 55c; 6 for \$1.00.

A grand assortment of many of the new varieties, which consists of one each: Enchantress, Border Queen, George Stipp, Ethel Pritchard, Europa, Widar, Firebrand and Gen. Von Heutz. All colors. All labeled. This is the assortment you have been looking for to complete your perennial bed. We guarantee them to arrive in good growing condition. Plants sturdy and field-grown.

Net postpaid in U. S.

OFFER NO. 57 PEONIES

Large, double-flowering. Gorgeous masses of color—rich red, snowy white, and delicate pink. They bloom in early spring, and rival the rose in beauty. Peonies are unsurpassed for cemetery planting, or you can grow them in your own garden and have mammoth cut flowers for Decoration Day.

Our selection of colors. Not labeled.

Net postpaid in U. S.

HARDY LILIES

Gold Banded Lily (Auratum). Large, fragrant flowers. Delicate ivory color, with chocolate-crimson spots and golden band through center. July to September. Large size bulbs, 35c each; 3 for 95c; 6 for \$1.75.

Philippine Lily (Philippinense formosanum). NEW! Long, trumpet-shaped flowers, white with reddish brown shading on exterior. Interior white with lovely green throat. Very fragrant. Blooms August to frost. Strong bulbs, 25c each; 3 for 70c; 6, \$1.20.

Regal Lily Tall spikes of white flowers, slightly suffused with pink, with a beautiful glow of canary-yellow at the center. Exquisite perfume. Starts blooming end of June. Large size bulbs that will bloom this summer, only 15c each; 3 for 40c; 6 for 70c; 12, \$1.25.

Tenuifolium Lily (Coral Lily). A beautiful little scarlet midget. Plant out front in your Lily bed or use in your rock garden. One of the prettiest little Lilies in cultivation. 18 inches high, coral-red flowers. Strong bulbs, 25c each; 3 for 60c; 6 for \$1.00.

Tigridia (Aztec) Lily A great garden novelty. Direct from Mexico. Grows well all over the United States, and as far North as Canada. Blooms continuously from July until frost. Flowers, which are brightest yellow to deepest scarlet, are 6 to 8 inches across. Tigridia should be planted and grown the same as Gladioli. The flowers are oddly marked at the cup-shaped center, and the outer petals are in various colors. Large size bulbs, 25c each; 3 for 60c; 6 for \$1.00.

State Savings Bank,
Bridgman, Mich.

Farmers & Merchants National Bank,
Benton Harbor, Mich.

Dun and Bradstreet's

Sheridan, Wyo.,
Sept. 20, 1937.
Dear Sirs:
We ordered 1100 Strawberry plants (1000 Gem and 100 Wayzata) from you, which were delivered to us after the first of May this year. They reached us in fine shape, and I know we didn't lose 20 out of the lot. I never saw lovelier berries than we have had this fall. They started in bearing around the first of August, and are just loaded with berries and bloom yet. We counted as many as 69 green and ripe berries on one plant of Gems. Have sold over \$80.00 worth already, and if it doesn't freeze, we will get a lot more. We feel so well satisfied that we wanted to tell you about how well they had done.
Sincerely yours,
W. E. EDWARDS.

Idaho Falls, Idaho,
July 14, 1937.
Dear Sirs:
Just a note to tell you how well satisfied we are with our last spring's purchase. We bought 70 flowering shrubs of different varieties; they were received in good condition, and 69 of them are thriving nicely and a good big percentage are blooming this year.
Yours very truly,
ROY BECKSTROM.

Cleveland, Texas,
Jan. 10, 1937.
Gentlemen:
I received my order of flowering shrubs and was delighted; they are the best I ever saw for the money—in fact, they are worth several times the price.
Yours truly,
MRS. H. J. WEEREN.

Fort Wayne, Ind.,
January, 1937.
Gentlemen:
Kindly reserve an early copy of your 1937 catalog for me. Wish to advise that of the 400 trees purchased of you last spring, 400 were alive and growing in the fall; of 100 trees bought from another nursery, 30 lived. We expect to plant 35 additional acres of orchards and bramble fruits—I'll let you guess where we expect to buy.
Thank you,
C. T. TOOTHILL.

Herington, Kansas,
March 29, 1937.
Gentlemen:
Received the shipment of 8 dozen roses, and while I have handled several hundred roses in my time, I have never seen as fine a bunch as the ones you sent me.
Yours truly,
J. A. OGDEN.

Staples, Minn.,
May 12, 1937.
Dear Sirs:
Received the raspberry and dewberry plants and they were in fine condition; I have never seen better stock than they are and am well pleased with same. If ever I am in need of more stock, will surely give you the order.
Yours very truly,
WM. HASENWINKLE.

Auburn, Maine,
May 22, 1937.
Dear Sirs:
Stock arrived in perfect condition. I was certainly pleased with the quality and condition of all the plants. I see no reason why they should not develop rapidly. I'm sure I never received more value for my money in any purchase I ever made. I am glad to know where I can feel safe to buy good nursery stock.
Good Luck,
LAWRENCE E. TOWLE.

Morristown, Tenn.,
April 2nd, 1937.
Gentlemen:
Received my shipment, and without doubt, you sent me the best raspberry plants I ever purchased from any nursery firm, and I imagine I have purchased more raspberry plants than any other man in Hamblen County.
Sincerely,
CHAS. J. BELL.

Seattle, Wash.,
April 12, 1937.
Kind Sirs:
Just want you to know that I received the grape vines in first class condition. Am very much pleased with the looks of them; well budded and rooted stock and still moist.
Sincerely,
MRS. L. FRAZIER.

INSTRUCTIONS FOR ORDERING

LOCATION. Bridgman, Berrien County, Michigan. The World's Largest Fruit Plant Center.

ORDER BLANK. Be sure to use Order Blank and Return Envelope provided. It prevents errors and insures prompt attention. If you do not have an Order Blank, you may order by letter.

ORDER EARLY. By ordering early you will find us with a full line of stock, and your order will be shipped when you want it, with no chance of delay. Early cash buyers receive a Liberal Gift Planting. Be one of them. (See page 2 for details.)

TERMS. 10 per cent discount on all orders accompanied by cash in full, except Special Bargain Offers or Special Quotations, which are net. C. O. D. Express or Parcel Post shipment if you prefer. (See page 3 for full details.)

CLAIMS. All claims covering condition on arrival, shortage or errors, must be made within 5 days after arrival. If stock arrives in bad condition, be sure to furnish signed statement from express agent or postmaster, showing extent of loss or damage. All claims will be taken care of under the terms of our Guarantee printed on page 53. Claims not made in accordance with the terms and conditions of this paragraph cannot be considered.

EXPRESS AND PARCEL POST SHIPMENTS. On express shipments, be sure there is an express office at destination you give. When ordering by Parcel Post be sure to follow our instructions below at right.

If the size or weight of the bundle is too great to comply with Parcel Post requirements, or contains nursery stock difficult to handle by parcel post, we reserve the right to change the routing to express; but in all such cases, any money advanced for the payment of postage will be immediately refunded to customer. Do not ask us to send 5 to 6 ft. or 6 to 7 ft. fruit trees by parcel post, as in order to meet parcel post requirements these trees must be cut back so far that they are very likely to be injured. If you insist on parcel post delivery of these large sizes, we cannot be held responsible for damage to trees.

Express shipments of nursery stock now travel at 2nd class rates, making charges on all packages and bundles about 25% cheaper than formerly.

HOW TO REMIT FOR YOUR ORDER: 1.—By postal money order. This can be purchased at your postoffice, or if you live on a rural delivery route, carrier will attend to sending it for you and bring you the receipt. 2.—By registered mail. In this way you enclose the money itself with the order, taking the Government's receipt, which is your protection. 3.—By express money order. Can be bought at any express office. 4.—By personal or cashier's check. Make it payable to The Whitten-Ackerman Nurseries. Money Orders Preferred.

Do not send cash unless you register your letter. Cash or stamps when sent by ordinary mail are likely to be lost, in which case we are not responsible. We do not pay duty to foreign countries. Please Do Not Send Postage Stamps.

BARGAIN COLLECTIONS—Cannot be Altered, Divided or Changed in Any Manner; Neither Can They be Shipped C. O. D. for Purchase Price, as They are for Cash With Order Only, and are Priced Net, Subject to no discount or Free Plant Offer.

SUBSTITUTION. In ordering be sure to state whether or not we shall substitute some other variety in case the kind ordered is exhausted. If not forbidden, we reserve the right to substitute some similar variety of equal or greater value, but will always label substitutes true to name.

FALL SHIPMENTS. Our stock is fully matured by October 15th, and to southern customers or others wishing to plant in the fall, we can make shipment during October and November.

ACKNOWLEDGMENTS. Orders acknowledged same day received, and shipped in season or as per instructions you give.

NOTE: Should the United States, or any state, increase by taxes, legislative acts, inflation, or in any other way beyond our control, the cost or selling price of nursery stock shown in this catalog, we reserve the right to add to our quoted prices to cover such increases.

Parcel Post Rates

HOW MUCH TO INCLUDE FOR POSTAGE WHEN YOU SEND CASH WITH ORDER

Use for orders over \$3.00, and for shipments into states where we do not advance postage. See note at right.

First locate the group of states in which you live, and it will then be easy for you to determine from schedule below the proper amount to allow for postage on your order.

PARCEL POST ORDERS

If you live east of the Mississippi River, or in Iowa, Missouri, Kansas, Nebraska, or Minnesota, and your order amounts to \$3.00, or less, we will advance postage on your order, you to remit upon receipt of shipment. On orders over \$3.00, and into other states, include postage with order, using schedule at left.

BARGAINS

Any
Six for
\$5.50

You pay exact postage after order is received. Simply count amount of stamps on package, then remit to us. (This applies on shipments into all states east of the Mississippi river, and into Missouri, Iowa, Kansas, Nebraska, and Minnesota. Other states, use schedule on page 53).

These prices are net, subject to no discount or other free plant offer, and are for cash with order only.

FREE

With every order for two or more of these \$1.00 bargains, we will give a beautiful, 2-yr.-old climbing Rose bush — our choice of Paul's Scarlet or American Beauty.

ANOKA The Old Folks Apple!

**Here's
Bargain No. 59**
 1 Anoka, 5/16"-7/16"
 1 Stanley Prune, 7/16"
 Both **\$1.00** Net
 For Not Prepaid

BEARS FIRST YEAR-- No Waiting for Fruit

BEARS FRUIT THE THIRD YEAR

ANOKA *The Old Folks' Apple* Often Bears in One Year—No Waiting for Fruit

The second year, big, full sized crop; earliest and heaviest bearing Apple. Hardy in all climates; never winter-kills. Can be grown anywhere in the United States. Ripens in August but can be used a month earlier. Apples are good sized, well formed, beautifully colored. Has proven to be one of the very best early summer Apples for all purposes.

Every home should have Anoka. One or two trees in your yard will furnish you a bountiful supply of fruit without long years of waiting.

PRICE:	Each	3	10
5/16" to 7/16", 3-4 ft. trees	\$0.60	\$1.75 \$5.00

STANLEY PRUNE-New!

Superior to all Prunes as it often comes into bearing in 3 years and ripens 10 days earlier than Italian or German Prune. Hardy, never winter-kills. A more thrifty and rapid grower than all other sorts. Very productive. Fruit large, deep bluish purple; firm and sweet, excellent quality. Will replace all other Prunes as soon as stock is available. The best for commercial planting or home use. Get started with this grand new variety this year.

PRICE:	Each	3	10
2-yr., 7/16", 3½ to 4½ ft. trees	\$0.75	\$2.00 \$6.00
